# $50.00 in Prizes.   Count the Short Lines.

WHAT YOU HAVE TO DO: The Problem is to count the short lines in the above chart. There are no tricks of any kind. Those who exercise the greatest amount of patience, and succeed in counting the correct number of short lines will solve the problem.

PRIZE LIST.

$15.00 first prize for successful Contestant.

$15.00 will be awarded to the person who succeeds in getting the correct or most correct solution.

$5.00 is the award to be given the sender of the next nearest answer.

$3.00 goes to the third prize winner.

$2.00 awaits the sender of the next in order of merit, whilst

25 prizes of one years free subscription will be awarded to the contestants whose solutions are nearest to the correct number after the above awards have been made.

CONDITIONS.

The only condition is that with each attempt a subscription prize of $1.00 must be enclosed, for which sum the EDUCATIONAL REVIEW will be forwarded for one year, beginning when desired.

You may give your own name, or that of a friend for the REVIEW to be sent, so long as you give the address.

You may submit as many solutions as you desire, but each must have one subscription enclosed with same.

All entries must reach this office not later than June 30, 1917, addressed to

Puzzle Editor,
EDUCATIONAL REVIEW,
St. John, N. B.

whose decision in the contest must be considered as absolute and final.
