

32. • Should early action be encouraged regarding the recommendation of the "Task Force on Deep-Sea Shipping." to create a government/industry Advisory Board to monitor on an ongoing basis the international shipping environment?

33. • Should there be more discussion of trade and maritime issues, for example at meetings convened by Canadian associations, or at periodic workshops?

**Issue 2:
Publicizing**

Positions: Trade concerns must be made known forcefully so that everything possible is done to preserve and improve Canada's international competitiveness.

34. • What should the trade community do with carriers?

35. • With government?

36. • With the media? In what manner should our views be publicized?

- invite any other perspectives on this issue, prior to summing up.
