

Wolverine Tube (Canada) Inc.
 1010 Clarke Road
 London, Ontario
 Canada N5W 5S9
 Tel: (519) 455-0770
 Fax: (519) 455-9238

■ Wolverine Tube is one of North America's largest and best-known manufacturers of copper tubing for the refrigeration and air conditioning industry.

From stock, Wolverine offers straight length copper water tubing in sizes ranging from 0.6 to 10.5 cm (1/4 to 4 1/8 in.) OD in annealed and hard tempers. Coiled copper water tubing up to 30.5 m (100 ft.) in length is available in diameter sizes of 0.6 to 4 cm (1/4 to 1 1/2 in.) in annealed temper.

Standard ACR and nitro copper tubing is produced in hard temper in straight lengths of 3.7 and 6 m (12 and 20 ft.) in diameters ranging from 1 to 10.5 cm (3/8 to 4 1/8 in.).

Wolverine annealed copper refrigeration coils are supplied from stock in diameter sizes ranging from 1 to 2.2 cm (3/8 to 7/8 in.) in lengths of 15 m (50 ft.). Forge fin tubing is produced from copper and copper alloys by Wolverine in complex inner fin, duplex and rectangular tube shapes, in standard or custom-engineered lengths.

Wolverine exports its high-quality copper tubing products worldwide.

The Wolverine product range includes innovative: the evaporators, condensers and chillers; grey systems designed for the food processing industry and cold storage facilities.

Sandvik Process Systems Canada Limited
 510 Governors Road
 Guelph, Ontario
 Canada N1K 1E3
 Tel: (519) 838-4322
 Fax: (519) 838-2177

The Sandvik process system is a highly efficient, compact, and reliable system for the production of high-purity, high-strength, and high-temperature alloys. The system consists of a series of interconnected vessels, including a pre-heat tank, a main reaction tank, and a final cooling tank. The process involves the reaction of a metal powder with a gas, followed by a series of cooling and drying steps. The final product is a high-purity, high-strength alloy that is suitable for use in a wide range of applications, including aerospace, defense, and industrial machinery.

Stamford Metal Products Ltd.
 4100 Christie Drive
 Brampton, Ontario
 Canada L6Y 1B3
 Tel: (416) 883-8811
 Fax: (416) 883-8882

The Stamford product range includes innovative: the evaporators, condensers and chillers; grey systems designed for the food processing industry and cold storage facilities.
