

In diseases, laborious sleep presages great danger.

**Pills.** If the bowels for a few days have been constipated, then four or six should be taken; and if it is necessary to have a quick operation, as in cases of colic, pulverize six of the Pills and take in water, or preserves; in THIRTY MINUTES they will operate. These simple preventive measures may save serious illness.

Radway's Pills secure free, bulky evacuations without straining.

The SICK and AILING should rub the surface of their body with the Ready Relief on rising in the morning, and sponge off with Relief and water. It will give great comfort, and ease pain in the chest and loins, and do a world of good.

### A World-Wide Remedy of Conceded Power.

RADWAY'S READY RELIEF is admitted by *all who have used it to stop INSTANTLY and cure the most violent aches, cramps, and spasms*, that may have seized MAN, WOMAN or CHILD, when taken.

### PREVENTION.

HUDSON RIVER BR'K MFG. CO.,  
VERPLANCK POINT, N. Y., Jan. 7th, 1879.

DR. RADWAY: My family are in the habit of trusting entirely to your Ready Relief and Pills as our household medicine, rarely requiring any other medical aid. I myself follow closely your directions in taking the Ready Relief as a preventive for Chills and Fever, say a teaspoonful in some water before my breakfast on an empty stomach when I visit my yard, as I am accustomed to do at that time. The result is a perfect success, as I never take the fever, although I am located in a most malarious district, in which few of the residents escape malarious attacks, particularly of Chills and Fever.

My men and those who have come from Mr. Frost's yard experience the same beneficial effects by following a like practice as myself.

Very truly yours, JOHN MORTON, Proprietor.

### A CURE OF CHILLS AND FEVER.

DR. RADWAY—Sir: They (Radway's Ready Relief and Pills) have cured me of Chills and Fever.  
POOLSVILLE, IND., March 4th, 1875.

JAMES L. GILL.

### COLIC.

#### A Reliable and Certain Cure for Colic.

NEW YORK, June 3d, 1871.

DR. RADWAY: I have been for many years a sufferer from attacks of Colic, attended with the extremest agony, lasting for several hours. In reading your "False and True," I saw that you attributed this pain and trouble to ACIDITY IN THE STOMACH, and remembered how you said it must be treated. Your Ready Relief and Pills have just subdued the pain, and brought me through a severe attack. In the excess of joy, I say to you that you are right. I used to think my trouble was in the lower bowels. I am now satisfied, as you say, that it is ACIDITY in the STOMACH. Your Ready Relief is the ANTIDOTE. It stopped the pain after a few doses, taken with short intervals, and corrected my stomach. But you must take a dose of the Regulating Pills after the Relief has moderated the pain. I took them right away—powdered seven in a teacup, with water, and then swallowed the dose. They operated in forty minutes and completed the cure in the happiest manner. The Pills did not interfere with the Relief.

I wrote to you, as above, in 1871. I now say that experience only confirms what I then wrote as to the reliability of your Ready Relief and Pills, in cases of Colic, Cramps, Bilious Colic, and all Bowel Complaints. They cure *fasto, cito, et jucunde*—SAFELY, QUICKLY, and PLEASANTLY.

Respectfully,

Messrs. RADWAY & CO., August 20th, 1877.

FRANK H. LEWIS,  
New York City.

Tumefaction, supervening in wounds, prevents delirium.

The color of the blood is owing to the oxide of iron it contains.

Blood from the arteries is red, from the veins dark colored.
