Heavy Frost at Comber.  
er, Sept. 21.—A heavy frost visit-  
section last night and untold  
e has been done. The fields were  
with frost this morning. Very  
orn is out, and all standing corn  
damaged to a considerable ex-  
tomato, cucumber and other ten-  
are blackened. There is a  
average of corn planted in North  
and the frost of last night will  
rious blow to the farmers.

## JEANNOTTE WON HIS APPEAL

He Stated That He Bought  
Off Gauthier.

### A SUIT FOLLOWED IN COURT

And Jeanotte was Condemned to  
Pay \$100 Damages.

The Case Arose Out of an Election Cont. at  
in L'Assomption and of Course Money  
Was Going—Jeanotte Has Proved to  
the Satisfaction of the Judge, of Ap-  
peals That Money Was Paid, and That  
the Charge Was True.

Montreal, Sept. 21.—(Special).—Sir  
Alexander Lacoste rendered judgment  
this morning in the Court of Appeal in  
the case of Jeanotte v. Gauthier, inci-  
dentally expressing his opinion of the  
present political methods. The case  
was brought before the Court of Appeal  
by ex-Adm. Jeanotte, ex-M. P. for the  
County of L'Assomption, who had been  
condemned to \$100 damages on a suit  
brought by Mr. Gauthier, the present  
member for L'Assomption County. The  
suit arose out of the contest between  
the two parties during the late general  
elections for the Federal Parliament.  
Jeanotte having then stated on the hus-  
tings, and caused it to be printed, that  
he had bought off Gauthier at a previous  
election for \$750.

The court remarked: "We have not  
to pronounce judgment upon the act of  
Jeanotte in publishing his own turp-  
itude. His defence lies in the fact that  
he was acting in the public interest and  
that the charge which he had made, hav-  
ing been denied, he was justified in re-  
peating it and causing it to be circu-  
lated. What we have to ascertain is whether  
the charge is true. There are cer-  
tain facts which are proved beyond all  
doubt. In the first place, Jeanotte sent  
a sum of \$1500 to Abbe Proulx, the curé  
of St. La. to be remitted to Gauthier  
in case that he should retire as a candi-  
date in the bye-election in L'Assomption.  
Jeanotte's story, he had told Gauthier,  
after his resignation, that a good  
action always deserved a reward and  
that, therefore, he had brought him  
\$750. As to Gauthier, when he gave  
his evidence he stated that he did not  
think that the curé paid the money out  
of his own pocket. When asked whether  
he thought it came from a Liberal  
or a Conservative source, he replied  
that he did not know. There was evi-  
dence which showed that Gauthier could  
not expect money from the Liberal  
that he had already threatened not to  
run on that account. On the whole,  
the court comes to the conclusion that  
Jeanotte was aware of the transaction and  
that it was fraudulent in the sense at-  
tached to the word in the Election Act.  
It was, therefore, true in the popular  
talk to say that Jeanotte had bought  
Gauthier, and, therefore, the court  
will reverse the judgment of the Su-  
preme Court, awarding \$100 damages."

It was then pointed out by the court  
that Jeanotte had said on the hustings:  
"If this charge is not true, why do not  
you sue me?" I guarantee costs. The  
courts were not instituted to enable a  
man to prove his own immorality, hence  
Jeanotte would have to pay all costs.

Fire at Night. Sept. 21.—Fire early  
this morning destroyed the  
rope-shop owned by the Goldie Milling  
Co. Loss covered by insurance. The  
frame dwelling next to the rope-shop,  
insurance on building \$400; on  
contents, which were partly removed,  
no insurance.

Pendleton Mills Burned. Sept. 21.—The  
Pendleton Mills, with a capacity  
of 500 barrels, owned by W. S. Byers,  
were destroyed by fire yesterday morn-  
ing. The loss will reach \$200,000; in-  
surance \$50,000.

## THE FARMERS' WHEAT MARKET.

A Grievance in Regard to Sprouted Wheat  
—Demanding Several Cents a Bushel  
Without Satisfying Farmers That  
the Purchase is Subject to Test.

Major Elliott, a reputable farmer of Mark-  
ham, called at The World Office yesterday  
morning and stated that he had sold a  
load of wheat on the market in a buyer  
who represented the McLaughlin Milling  
Company. When he delivered the wheat at  
the elevator, he went for his money and  
was informed that since the wheat weighed  
only 57 lbs. per bushel he must be re-  
bought at 12 cents on every bushel. Not being  
able to have his wheat returned, the Major  
accepted the money and immediately came to  
The World, and gave the above account of  
the transaction.

A World representative interviewed the  
foreman at the McLaughlin Mill, that the  
facts might be ascertained. He said: "We  
buy wheat according to the test fixed by  
the Millers' Association, and all millers do  
the same. The standard is fixed according  
to statute by men appointed by the Ontario  
government and others."

The Printed Scale.  
When asked for the scale the foreman  
stated to The World a card on which the  
following was printed:  
62 lbs., pay 2 cts. more than standard.  
61 lbs., pay 1 ct. more than standard.  
60 lbs., standard price.  
59 lbs., 1 ct. less than standard price.  
58 lbs., 2 cts. less than standard price.  
57 lbs., 3 cts. less than standard price.  
56 lbs., 4 cts. less than standard price.  
55 lbs., 5 cts. less than standard price.  
54 lbs., 6 cts. less than standard price.  
53 lbs., 7 cts. less than standard price.  
On being asked whether farmers in gen-  
eral are instructed when they sell wheat  
as to the above test, he could not say  
whether it had been given. He afterwards tele-  
phoned to The World that only 8 cents  
a bushel had been made in Major Elliott's  
wheat.

What Mr. Baird Says.  
Mr. Baird of the Board of Trade stated  
that he was chairman of the Board of Ex-  
aminers pro tem. That board had fixed a  
standard, but that he had nothing to do with  
the scale arranged by the Millers' Asso-  
ciation. He could not explain how it was  
that when farmers sell wheat at a stated  
price on the market a deduction is  
made. The chief complaint made by the farmers  
is that the wheat is bought at market price  
and that when they deliver it the test is  
applied without any notice whatever being  
given. He, furthermore, notwithstanding  
the fact that Mr. Piewes stated in his let-  
ter to The World of Sept. 20, that sprouted  
wheat weighing 58 and 57 lbs. to the bushel  
had lost its bread-making qualities, they  
allow that wheat of this quality is being  
bought on the market every day and used  
for mixing with hard wheat in making  
flour, which is being used by the bread-  
makers of the city. In other words,  
buyers deduct from the farmer for sprout-  
ing, but mix and sell it as standard wheat.

## CAME BACK TO LIFE.

A Consumptive Who Thinks He Passed  
Over the Dark River and Was  
Called Back to Trouble.

Santa Monica, Cal., Sept. 21.—William  
Graham, a consumptive, and his wife  
lived in a cottage here. On Saturday  
night Graham apparently died. An  
undertaker was called in and prepared  
the body for burial. The funeral was  
held on Sunday morning. Graham's wife  
was finally allowed to go into the  
room, and in a paroxysm of grief she  
threw herself upon the body, strain-  
ing to get a breath of air. She was  
loved one to come back. It was  
some minutes before she could be  
drawn away, and then it was noticed that  
a slight shudder ran through the man's  
body. Restoratives and massage were  
applied, and within an hour Graham  
was able to speak.

Graham says that he went out of this  
life and journeyed into another coun-  
try. He describes a beautiful road lined  
with stately trees, streams of music were  
in the air, and he says that along a  
pathway his father came to meet him.  
He tells of their greeting and conver-  
sation, and then of the way back to the  
cottage, where he found his wife and  
body by the instant ends of his wife.  
Graham is still alive, but he cannot last  
more than a few days.

One of the Angels.  
At the Albany station of the New York  
Central & Hudson River Railroad  
there is an old man of the name of  
Booth, who is gatekeeper and calls out  
the departing trains. He is one of the  
most gentle and kind men in the world.  
He answers every question asked of him  
pleasantly and patiently as if he were  
an angel, and you may rest assured that  
many of the angels of fool inquiries are  
directed at him. In calling out the trains  
he does not shout in guttural-rogue-  
manner, but in a low, pleasant voice.  
He never raises his voice, yet it is far-  
reaching, and his education and pro-  
nunciation are so distinct that every-  
body who speaks is heard. He is particu-  
larly good to women and children.

The train for Schenectady, Ponda-  
Amsterdam, Little Falls, Utica, Rome  
and all local points will be now in the  
station track No. 3; it will leave in  
ten minutes.

After a minute he will again call out:  
"If there are any women with children  
here who wish to take the local train  
west they had better start now, to save  
all hurry and confusion. The train  
leaves in nine minutes."

Sometimes he calls out: "Be sure to  
get your handbags and parcels all to-  
gether, do not forget anything!"  
So all the day long this gentle old  
shoulder looks out for the stray sheep,  
and I tell you, on a hot, tiresome day  
such thoughtfulness is appreciated by  
the weary traveler. The only man in  
the United States who approaches him  
is the policeman under the car shed in  
Columbus, Ohio. He is an angel in  
uniform.—New York Press, Aug. 3, 1897.

Baby Was Drowned.  
Stratford, Sept. 21.—William McTavish,  
the 17-month-old son of Alexander Mc-  
Tavish, residing on William-street, this  
city, was drowned in the river about  
11 o'clock this morning. Mrs. McTavish  
had occasion to go upstairs, leaving the  
child below. On her return the child  
was missing, and was shortly after found  
floating in the river. Efforts at resusci-  
tation were unsuccessful.

Action for \$10,000.  
One of the suits which may be reached  
today in the Civil Assize Court is that of  
Detective Wasson against the College of  
St. Mary's and Sisters for \$10,000 com-  
pensation for the death of his wife, caused  
so it alleged, by the negligence of the  
College. The Ontario Accident Company, against  
which the college has redress, is defended  
by C. E. F. B. Johnston, Q.C., is Mr.  
Wasson's counsel.

Canon Greer in St. James' Church.  
So great has been the pressure brought  
to bear upon the Rev. Father Greer, of St. Andrew  
to leave Canon Greer speak in a building  
much more commodious than the present  
one, that he has been obliged to leave the  
large number of Christian men and  
women who are his hearers, and to  
conduct divine duty, with Bishop Sullivan's  
consent, the meeting for tonight has been  
moved to St. James' Cathedral. Special  
seats will be reserved for men.

His Enthusiasm All Gone.  
John Lumsden, the ultra tourist from  
Montreal, who has been here for some  
time, and who has been very successful  
in small Stairs and Strips at the  
Police Court yesterday and with bowed  
head received his sentence of \$1 and costs  
or 10 days.

## Bargains in Blankets And Comforters.

Hints—practical hints—of seasonable Bed Covering,

Yonge Street, 1 and 3 Queen Street West.

## FORESTRY COMMISSIONERS

Have Made an Extended Tour North and West of Lake Superior—Prospectors of Destructive Work.

Mr. J. B. McWilliams of Peterboro, Mr. M. J. Butler, C. E., of Napanee and Mr. Thomas Southworth, secretary of Forestry to the Ontario Government, returned to the Forestry Commission, have just returned from an extended tour of a portion of the country north and west of Lake Superior.

They journeyed from Sault Ste. Marie to the Arctic, and thence went on to the P. A. D. and W. Railway through the silver country, where the white pine has been swept off the land by repeated forest fires. Here there seems no hope of the white pine asserting itself again unless artificial seedling is resorted to. Jack pine is taking the place of the tree tree.

The commissioners also visited "Rat Portage" and thence crossed the Lake of the Woods, and ascended Rainy River, where they found a large number of the white pine, and in this mining district, but unless the white pine is saved, the only way to save it is by the use of the saw mill, which is the only way to save the timber in the Lake of the Woods and Rainy River country.

The party also went over the region lying some 25 miles to the east of Port Arthur, and thence came further east to Mississauga station, the landing place for the McMillen and Sons' gold fields, to the north of the Lake of the Woods, and north over the height of land in Mississauga and Crooked Lakes, the head waters of the Moose River, with which part of the country they were much pleased.

The commissioners' next trip will be to the Temiscamingue region.

The Ontario Evening Bee states: "William J. White of Ottawa, an attaché of the Canadian Forestry Department, has been made application to Secretary Furness of the State Land Office of the Province of Ontario for a large display of Canada grain, grasses and products, particularly such as are grown in the western part of the Dominion. The exhibit will also include a series of photographs showing the country as it is."

"Mr. White, who is the first time in the history of Canada that the Dominion Government had undertaken a large display of the resources of the country at any of the State Fairs in the United States, is now making a tour of the circuit of which Nebraska is a part. The exhibit was first shown at the State Fair held in Minneapolis last week, and was removed directly to this city. It requires a car to transport it.

It is in this city in charge of the exhibit, Mr. White will be also engaged in the duty of making a report to the Ontario Forestry Commission on the results of his tour. He is detailed to the Forestry Department, which is considering the advisability of making a tour of the country north and west of Lake Superior.

## To-day Again....

This is a day when prices in the Big Store for the most wantable goods make housekeepers happy.

## THIRD FLOOR TAKE ELEVATOR

## DASHED TO DEATH.

Mr. William Sprinall Caught in a Belt and Flung Against the Ceiling With Aerial Force.

Brighton, Ont., Sept. 21.—William Sprinall, one of the partners of Mikel & Sprinall, in attempting to replace a loose belt upon a planer, was caught by a loop in the belt and thrown with such force against the ceiling that every bone was broken. Death was instantaneous. His wife and family have the sympathy of the entire community.

## MOVEMENTS OF METHODIST OFFICIALS.

Rev. Dr. Carman is at present making a tour of the Maritime Provinces. He will be in Halifax Oct. 7 to 13, attending the meeting of the General Board of Missions. Rev. John Potts, the general secretary of education, will also be in attendance at the meeting. He will return about Oct. 17. Rev. Dr. Sutherland, general secretary of missions, and J. Henderson, associate secretary of missions, will be present. The former will make his report to the Board of Missions. Rev. John Potts, the general secretary of education, will also be in attendance at the meeting. He will return about Oct. 17. Rev. Dr. Sutherland, general secretary of missions, and J. Henderson, associate secretary of missions, will be present. The former will make his report to the Board of Missions.
