ONE CENT MORNING PAPER. No. 88 YONGE-STREET. Toronto.

ST. LAWRENCE MARKET ENhe present business is evident from The people who come to the market with produce, whether in wagons or baskets, are huddled together like herthe business with any degree of convenience, or even decently. Even if the business were to remain stationary tively necessary. But we must not lose sight of the fact that Toronto's population has increased lately, and is now stantial reasons why the St. Lawrence Market improvement should be under-First of all, larger and better accommodation is needed for the householders and citizens who purchase their supplies at the market. In the second place it is needed for the dealers who buy vholesale and who have their produce distributed in bulk to stores throughout he city. Lastly, we need accomm tion for railway cars, fruit boats and rolley cars for the collection and distribution of produce to all parts of he country, and before long we hope for export. When the matter of enlarge nent is submitted to the electorate, as

object to the proposition are the grocers who handle market produce. When these, however, understand the advantages for purchasing supplies in wholesale which the new market will provide

will be in January next, we antici-

to convince the management that an extension of the Gerrard-street route would be a profitable undertaking.

TORONTO AND THE 14-FOOT CHANNEL.

We take it for granted that it is the duty of the Government, and not of the city, to make Toronto harbor accessible for the 14-foot vessels which, we hope, will soon become a feature of Lake Ontario and the River St. Lawrence. The Government has spent millions in deepening the channel into Montreal and the harbor of that city. This expenditure is justified on the ground that Montreal is the seaport of the whole country and that the money spent there benefits the people of Winnipeg as much as those of Montreal. Exactly the same argument justifies the demand that the Government shall provide a 14-foot channel to the docks at Towns Towner Towne 2.50 This expenditure is justified on the vide a 14-foot channel to the docks at Toronto. This city is the shipping centre of a province which contains about two-fifths of the entire population of the country. When it is possible for steamships of two and three thousand tons to lie alongside our docks, we expect to see Toronto's shipping expand as it has never done before. We will be much disappointed if Toronto does not become the western terminus o more than one ocean steamship line. We ought to have direct steamship connection with the Maritime Provinces, with the West Indies, New oundland, South Africa, South Ameri ca and even Europe. It only depends on the enterprise of our people when these lines shall be established. There ought to be a profitable interchange of the agricultural products of this pro Provinces; with the raw sugar of the West Indies; with the hides and other specialties of South America. If the Americans intend to use the St. Lawrence canals largely for the export to Europe of wheat grain and other products, it is surely reasonable to conlude that we will find it economical to do the same thing. Toronto is the nearest inland city on the 14-foot system, being only 325 miles from Mont-We have no doubt in the world that it will be found economical to load vessels at Toronto for British ports, with certain products, at least, and in return to have a large percentage of British imports conveyed directly to Toronto and distributed from here to the two million consumers of this province. But these things will not come of themselves. They will not come even if the Government puts Toronto harbor in first-class shape under the new conditions. The people of Toronto must actively bestir themselves to take

advantage of the opportunities that are about to unfold themselves. Now is the

THE TORONTO WORLD time to make arrangements for the having direct connection with the Maritime Provinces, the West Indes and South America. What do our business men intend doing to take advantage of the new waterway that will be available next spring? In six months the 14-foot channel will be an accomplished fact. We should be getting ready now to reap the advantages that ought to accrue from the millions that have been spent in completing this great

Sturgeon Falls, which is to be location of the big pulp mills, is a lage on the Sturgeon River, 23 miles west of North Bay. The name Sturgeon is so common in Canada, and especially in Ontario, that more or less confusion exists as to the location of the village in question. We have four Sturged Lokes in Ontario: one near the head waters of the River Otonabee, in Peterboro County; one in the Rainy River district; another in Victoria County, through which flows the Fenelon River; and one in the Thunder Bay district. In addition to this, two rivers in Ontario go by the name of Storgeon, and the name is also used in designating two villages in Ontario known as Sturgeon Bay and Sturgeon Point

\*\*RTREET CAR EXTENSION.\*\*

The Toronto Rallway is neglecting a splendid opportunity in not extending its Gerrard-street route eastward through East Toronto Village. The specific pass of age, and about a year ago gave and glowly and the specific passes of the convince the management that an extension of the Gerard-street route for the company. If the line would be a profitable undertaking.

\*\*Shortly after being made a soldier was the corner of Pape-avenue and Gerrard-street, and the second of the German of the Corner of Pape-avenue and Gerrard-street, and street which, while it should have car service, produces very little revenue for the company. If the line would be a very popular and profitable pass the links of the Toronto Golf Club pass the links of the Toronto Golf Club pass the links of the Toronto Golf Club pass the links is its inaccessibility. It is two-thirds of a mile from the cars of the Queen-street route, and it can be reached by the Grand Trunk only on two or three trials per day. It is the contract of the contract of the purchase of the Cutter of the Cut man was Harry Tesseir, and he was on hi

Mr. Justice Ferguson has decided that the London Guarantee and Accident Company, who went security for County Treasurer Sanford to the amount of \$10,000, must be held liable to the county for that amount,

### **Early Accidents** Cause Lifelong Suffering.

When a lad about eight years of age I fell into a cellar a distance of ten feet, striking on my head, and causing concussion of the brain. I was taken to a London, Eng., Hospital, the first seven days not recovering consciousness. I am now 35 years old and from the time of my accident until I began taking Dr. Ward's Pills five months ago I had been subject to fainting spells, never being more than two weeks without an attack of fainting. As I grew older these spells became more frequent, lasted longer, and left me with less vitality. I was weak, had no strength or stamina, always very low-spirited and down-hearted; imagined that every thing and every person was going against me, and life only had a dark side for me. My appetite was poor most of the time, but I am now happy to say that, since taking Dr. Ward's Blood and Nerve Pills, I have only had one fainting spell, shortly after I began taking them, so I have no hesitation in saying that Dr. Ward's Pills cured me. Before taking these pills I always looked for a fainting spell not more than two weeks apart; now, I would be greatly surprised at a recurrence of these spells. Life is now bright—the constant, morbid, down-hearted feeling is gone, being replaced by a contented, hopeful feeling. I feel like working. My appetite is good, and in every respect I have experienced the health and strength restoring properties of Dr. Ward's Blood and Nerve Pills. They certainly have proved a great blessing to me. Yours truly, (Signed), Thomas Stanton, Brighaton, Ont.

Dr. Ward's Blood and Nerve Pills are sold at one person and hove pills are sold at one person and hove proved a great blessing to me. Yours truly, (Signed), Thomas Stanton, Brighaton, Ont. A Case that is Causing Talk.

ton, Ont.

Sudden Taking Off of Dr. H. P. Wright on Saturday Morning.

Madame Mathieu-Ottawa Notes.

Madame Mathieu—Ottawa Notes.

Ottawa, Oct, 80.—Dr. H. P. Wright died studgelijy of heart failure at 8.16 yesterdar, morning. Deceased was at a dinner at Rigdeau Hall last evening. On his return he went to a medical dinner, reaching home about 2 a.m. He complained to Mrs. Wright of Having a cnill, and she made a warm drink for him. He then went to bed, feeling better. A little later Mrs. Wright heard him breathe heavily, and before she was able to get medical aid he was dead. He was one of the two or three leading medical men here, and one of the most oppular had influential men in the city, and also one of the most overworked ones.

Heury Pulteney Wright, M.D., was born in Toronto on Jan. II, 1851, and was educated there and at the High School, Quebec. He studied medicine at McGili and graduated with honors as first prizeman, in 1871. He took up his residence in Ottawa in 1872, where he has been prominent in this profession. He became a member, of the Coliege of Physicians and Surgeons of Ontario in 1871, and has been an examiner in physiology for that body. He was three times president of the Ottawa Valley Graduates' Society of the Ottawa Wedical Association, of which he was the promoter and was elected or the Ottawa Wedical Association, of which he was the promoter and was elected or the Ottawa Wedical Society in 1896. He served some years as assistant ungeon to the Governor-General's Foot Grands. He was one of the founders of the Ottawa Wedical Society in 1896. He served some years as assistant ungeon to the Governor-General's Foot Grands. He was one of the founders of the Ottawa Wedical, Ottawa, He married in 1887 Miss Marion Grahame of Vaughan, Ont.

Fight for Cheap Fares, Cleveland, O., Oct. 20.—The City Council recently passed ordinances imposing a 4-cent fare on the big and little consolidated street car systems. To-day both companies began suit in the United States Circuit Court, asking for an injunction to prevent the city from carrying the ordinance into effect. The ground taken by the companies is that the action of the City Council amounts to an attempt to arbitrarily seize private property. A temporary restraining order was issued, good until Dec. I, when the case will be heard.

Wabash trains Tuesday, Nov. 8. Fairview Farm, Movern, has been selected as the place wice went, has been selected as the place wice with will be held. The sum of \$550 will be distributed in prizes.

The Demon Dyspepsia.—In olden time it was a popular belief that demons moved invisibly through the ablent air, seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valuant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial.

The advent of Maternity Homes in town has necessitated the passage of a law regulating such institutions, and be up for consideration at to-more council meeting.

A proposition is afoot to dispose of water and light franchise purchased by town some years ago from the North ronto and Suburban Water and Light pany to the Metropolitan Ruilway pany.
