LIFE SAVED-Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good.

Mayor Wilson Thinks Will Do for the North End Fire Hall -- Market Paving Tenders.

At the regular meeting of the fire and light committee last night the mayor submitted a statement, showing that the cost of building and equipping a new fire hall in the north end would be \$7,050, and that the maintenance would be \$2,325 per year. Thus the outlay would be \$18,675 in five years, whereas the total loss by fire in the city north of Pall Mall street during the past five years was \$6,848 25, with insurance about double that amount. "It was apparent," he said, "that it would be

It was imperative that the estimates be kept down to the lowest notch this year, particularly.

Ald. Malloch warmly resented so much cold water being thrown on the project. Of course, it would be knocked out in the council if that was the way they dealt with it. But the north end was growing more than any other part of the city, and should have fire protection. A fire hall was needed there just as much as in South London or East London.

Ald. Pritchard supported the view taken by the mayor, that the matter should be laid over for this year at

Ald. Jolly said the hall was needed and should be got if at all possible. No action was taken and the item will be in the estimates when they come before the council. Inspector Bell reported the collection

of license fees amounting to \$361. The engineer was instructed to prepare specifications for paving the market and call for tenders, to be in at an

Miss M. German, of London, is the guest of her parents, Mr. and Mrs. Frank German, Thorndale. The trustees of the Church of England, Kirkton, had a meeting on Monday evening to transact business and make preparations for building

their new church. Mr. Alexander Westman, of Devizes, one of the old and respected pioneers of Nissouri township, is dead. Mrs. James Bolton, of Motherwell, who injured herself over a week ago

while attending to her domestic duties, is improving very slowly. Angus Wigle, an Essex peach grower,

says his peach trees are all right, and attributes their non-injury by frost to letting the orchard run to weeds. A Kent canning company shipped a car of canned goods to the Klon-

dike. The boxes had to be strapped with iron for transportation over the mountains. Robert McLean, of Burford, was charged at the Brantford police court Wednesday with the theft of a buggy and harness. He was convicted and

sentenced to three months in jail. Mr. John Slattery, brother of Mrs. John Reeves, Kingston, died at Eastwood on Tuesday morning, aged 82 years. He had been magistrate at that place for sixty-five years. When he came to this country first he worked a farm in the township of Pittsburg, for Mr. R. Hughes.

Latest reports from the peach district of Essex are not as bad as at first reported. It is now said that not more than 25 per cent of the peach trees are killed. Some districts are damaged much worse than others. Orchards that were not cultivated, but allowed to run to weeds, escaped the severe

frosts. The annual spring horse fair of the East Elgin Agricultural Association was held Wednesday afternoon. There were many entries and it took somewhat of the nature of a street fair. The entries were taken at St. Andrew's Market. The animals were then marched down Talbot street to the Horton Market to be judged, and back to the St. Andrew's Market, where the diplomas were presented.

A small smashup occurred at the Cromwell street yards of the G. T. R., Sarnia, Wednesday afternoon, causing considerable damage. A number of freight cars were being shunted into a siding, with the result that they came back too fast and demolished the stop-block at the end of the siding. The rear car was also pretty bad-

THE LYNCHINGS IN GEORGIA

Startling Statements Made by Bishop Walters-Another Bloody Struggle in Prospect.

New York, April 27 .- At the New New York, April 27.—At the New Jersey annual conference of the African Methodist Episcopal Zion Church, in Jersey City, Bishop Alexander Walters, D.D., bitterly denounced the Georgia lynchings, and made some startling assertions. He said: "It is generally believed by the fair-minded that if Hose did kill Cranford, it was to avenge the did kill Cranford, it was to avenge the killing of five colored men by a mob said to have been led by Cranford at Palmetto March 18." After referring to newspaper statements that Hose did newspaper statements that Hose did not outrage Mrs. Cranford—a crime for which lynching is usually condoned by both black and white—the speaker said the people of that section, who had some regard for the reputation of the south, raised the outrage cry or the south, raised the outrage cry or der to save themselves from everlasting disgrace, and the baser sort to justify their awful crime. "Ere another fortnight shall have passed over our heads, this subtle scheme will be laid bare to the world. This is the ignis laid bare to the world. This is the ignis fatuus that is leading us on to another bloody struggle. It is the southern white man's subterfuge to satiate his implacable hatred of the negro. If the good white people of the north are not disillusioned and do not put a stop to this sweeping tide of lawlessness, it will bot be long before they will be again called upon by a god of justice to give their best blood to pay the penalty of the crimes of the south. The real cause of our trouble is race hatred.

* * The passage of the Jim Crow car laws in several of the southern car laws in several of the southern states and the disenfranchisement of negroes, regardless of qualification; the shutting out of them from hotels, restaurants and places of amusement, are all manifestations of race hatred. We are censured as a race for not exhibitsight cars were being shunted into siding, with the result that they me back too fast and demolished e stop-block at the end of the sidge. The rear car was also pretty baddamaged by the mishap, and the

the part of the Afro-Americans themselves will stop these atrocities.
"President McKinley and the Federal

Government have shown themselves impotent to convict the murderers. In the name of Almighty God, what are we to do but fight and die? The Cubans to a certain extent, but will be an average crop. The condition of wheat in Rodney is not very promising. Some to free from Spanish oppression, were never treated so barbarously in times of peace by that government as some negroes have been in the States of Arkansas, Texas, North Carolina, South withered, and unless the weather proves and Georgia. It is rather favorable from this time out a small Carolina and Georgia. It is rather yield will be the result. Rain is longto read in the great dailies and weeklies of our country of the Americans giving to the Cubans and Filipinos an equitable and beneficent government, when they are powerless to even secure life and liberty to their citizens at home.

"You cannot forever keep the negro out of his rights. Slavery made a cow-

ard of him. For 250 years he was taught to fear the white man. But he is rapidly emerging from such slavish fear, and before long will contend for his rights as bravely as any other man. One of two things must be done in order to avoid trouble. The negro must order to avoid trouble. The negro must be treated fairly, or furnished with suf-ficient money to return to the land whence his ancestors were stolen. The first suggestion, that of fair play, is the just one, and if those in authority, and the press and pulpit, would cease to eater to prejudice, but speak out holdly cater to prejudice, but speak out boldly for equal justice for all American citizens, this could easily be accomplished. Those who speak flippantly of our extermination will find that when that work is begun all the white people of America will not be against the negro, any, more than they were during the civil war. Why will not the intelligent and far-seeing white people call a halt to these injustices before it is too late? Have they so soon forgotten the history of the past? It was the policy of concillation and condoning of the sin of slavery that led to the loss of so much blood and treasure. Well did Thomas America will not be against the negro, Jefferson say before the conflict, in speaking of the injustice of whites towards the blacks: 'I tremble for the future of my country when I remember that God is just."
