Those Who Violate Regulation  
Will Be Prohibited From  
Exporting At All.

Montreal, Dec. 14.—The Canadian Pulp and Paper Association headquarters in Montreal was notified on Saturday that the Government at Ottawa is issuing a new order-in-council empowering the minister of customs to stop the exportation of newsprint paper from any manufacturer in Canada who fails to comply with any order issued by the paper controller. This is the second time that an embargo on the export of newsprint has been invoked in order to enforce the rulings of the controller.

The new order arises out of attempts by the paper controller to compel the manufacturers to continue supplying Canadian newspaper publishers with paper at a price considerably below that obtainable for the same paper sold for export, and the notification, served upon the controller by certain of the manufacturers that they will cease on the last of January next to supply paper in Canada on any such conditions.

Controller Pringle has announced that on Tuesday afternoon next he will hold a hearing in the Windsor Hotel, Montreal, for the purpose of discussing with the manufacturers and the publishers the question of how next year's paper requirements of the Canadian publishers shall be met.

## GERMANY READY TO YIELD PARTIALLY ON SCAPA FLOW ISSUE

But Insists That Nature of  
Reparation Be Left To  
Negotiation.

Paris, Dec. 14.—The answer of the German Government to the latest allied note reached the German delegation in Paris today. Because of the time needed for decoding and translating the document, it is not likely to be presented to General Secretary Duthoit of the peace conference until Monday morning.

Berlin, Dec. 13.—In her note replying to the latest Entente communication demanding the ending of the protocol, preliminary to putting the peace treaty into effect, which is now on its way to Paris, Germany yields in her stand on the Scapa Flow issue to a certain extent.

It is learned that in the note the government reiterates its desire to have ratification of the peace treaty effected at the earliest possible date. On the Scapa Flow issue the note expresses a willingness to yield to the extent that Germany will consent to make reparation for the sinking of the German warships. In order to remove what is characterized as "the final obstacle to the definite conclusion of peace," although, says the note, reparations cannot be made in the manner suggested in the demand for 400,000 tons of shipping. On this point Germany proposes, negotiates with the Entente with a board of German shipping experts.

The dry, hacking cough, cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary diseases.

Mrs. Fred Johnston, Copper Cliff, Ont., writes: "I caught a heavy cold, a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night, and tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone. It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."
