### Soldiers by a Goal

Won From Queen's

Kingston, Jan. 12.—The 228th Battalion team clashed with Queen's University here tonight and won by 5 to 4. After eight minutes of spectacular individual play Purvis ran in two in quick succession. After Ellis returned with one, Reynolds, the big defence man of the visitors, showed his first burst of speed and went thru past the student defence and shot wickedly. Robinson caught the rebound and scored. Paul by clever stick-handling made Queen's third. Reynolds again featured himself in the second period and evened the score in one of his mad rushes. He also made the two final goals for the visitors. The last period developed little roughness, and the visitors' goal keeper was on the fence among those penalized. Purvis made Queen's fourth in a scramble near the net. The line-up: Queen's (4): Goal, Lees; right defence, Spence; left defence, Fahy; rover, Purvis; centre, Paul; right wing, McCullagh; left wing, Robinson. 228th (5): Goal, Brown; right defence, Reynolds; left defence, Wiggins; rover, Ellis; centre, Purvis; right wing, Wiggins; left wing, Johnson.

Barker, Boyd, McEwen and Reiz showed up best for Hamilton, while Anderson played a good game for the soldiers. The teams: Hamilton—Steen, goal; E. Reiz, right defence; L. Reiz, left defence; McEwen, rover; Parker, catcher; Boyd, right wing; Murray, left wing. 215th Battalion—Lusk, goal; Woodson, right defence; Lieut. These two great teams in one of the most important games of the winter in the game this evening. The post plan is going like hot coffee at Woodley's. With Toronto's 228th, Canadians and Ottawa are the most exciting in any season. Should the blue shirt win and the soldiers lose to Ottawa, Toronto will again be on top.

## Children Had Eczema Doctors Failed to Cure

Two Letters Which Prove the Efficiency of Dr. Chase's Ointment as a Cure for Eczema.

Fortunate are the mothers who know the virtues of Dr. Chase's Ointment, for there is no treatment so suitable for use after the bath to relieve irritation and chafing and to thereby prevent eczema and similar skin diseases. Mrs. W. L. Barnes, Timmins, Ont., writes: "I want to tell you about the case of my little boy, who had baby eczema when he was three months old. It started on the top of his head, on his forehead and around his ears. The doctors failed to do him any good, so I tried Dr. Chase's Ointment on a recommendation of a friend, and in a month's time the child was entirely free of this disagreeable skin disease. He is now four years old and has never had any further trouble from ailments of this kind. I also have great faith in Dr. Chase's Nerve Food and believe that it cannot be beaten as a restorative for pale, nervous women."

## CANADIANS IN ACTION ARE SHOWN VIVIDLY

Canadian Associated Press Cable. London, Jan. 12.—The Canadian War Memorials Fund stands to benefit appreciably thru the sale of the latest moving pictures of Canadian soldiers at the front, taken for Sir Max Aitken's staff. These will be shown in Canadian almost immediately, and are believed to be the first movie of Canadians actually taken in France.

They comprise depictions of almost all the most vivid phases of what the men of the maple leaf achieve and endure. Canadians are seen fixing bayonets, notchalantly chewing mastic, or taking last puff at cigarettes, then scattering resolutely over the top and racing at the German line. Big guns belch their terrible missiles in the same direction. The wonderful tanks go forward, crawling over rock, stone, ditch and shell fissures seemingly with the ease of a lawn mower over a tennis court. Some pictures are almost too poignant in realism, notably the burial of a Canadian officer, the German lying still just where they were covered by a rain of explosive.

pled the following details of the loss of British steamships which are said to have been attacked and sunk in this manner: "First, the British passenger steamer City of Birmingham was torpedoed without warning by a submarine, which hoisted no flag, at 11.35 a.m. on Nov. 27, 1916, in the Mediterranean. This ship was hit in the after hold and sank soon after. A doctor and three men were killed. The 170 passengers and crew of 141 behaved splendidly. They took to the boats and were picked up by the hospital ship Letitia. "Second, the British steamship Reapwell was torpedoed without warning on the same day as the City of Birmingham by a submarine firing no colors. The ship sank at 8 o'clock in the morning of Nov. 28. The captain was taken prisoner aboard the submarine. The crew took to the boats and were picked up by the steamship Broynton. "The sinking of the City of Birmingham, 7,493 tons, and of the Reapwell, 2,417 tons, was reported in November by London Lloyd's.

## Doctor Says Crying Need Of The Woman Of Today Is More Iron In Her Blood TO PUT STRENGTH IN HER NERVES AND COLOR IN HER CHEEKS.

Any Woman Who Tires Easily, Is Nervous or Irritable, or Looks Pale, Haggard and Worn Should Have Her Blood Examined for Iron Deficiency.

Administration of Nuxated Iron in Clinical Tests Gives Most Astonishing Youthful Strength and Makes Women Look Years Younger.

"There can be no healthy, beautiful, rosy-cheeked woman without iron," says Dr. Ferdinand King, a New York physician and author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard-looking women patients. Failure means anemia. The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks. "In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, macaroni, spaghetti, tapioca, sago, farina, degerminated corn meal, and other refined processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking by throwing away the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. "If you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt, when your food has not enough salt. "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, erysipelas, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

"On account of the peculiar nature of women, and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss. "Iron is also absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks, then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were all the while doubling their strength and endurance and entirely rid them-

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American woman—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

NOTE: Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose ingredients are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron compounds, it is easily assimilated, does not irritate the stomach, does not cause constipation, as well as for nervous, run-down conditions. The manufacturers have great confidence in nuxated iron, that they offer to forfeit \$100.00 to any chemist who can show that it is not a true iron compound. They also offer to refund your money if it does not give you double your strength and endurance in four weeks' time. It is dispensed in this city by G. Remond, Ltd., and all good druggists.
