

H. B. WARREN & CO.,

SCALE MANUFACTURERS,

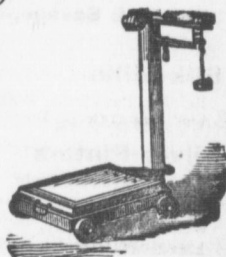

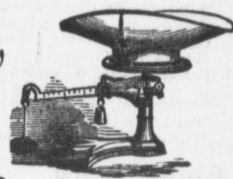

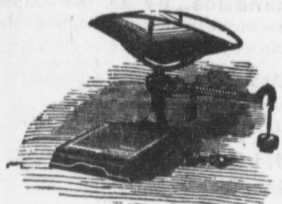

AND MANUFACTURERS OF

Warren's Patent Ice Cutter or Pick,

763 CRAIG STREET, MONTREAL.

Successors to the Inventor and Patentee
of Platform Scales in Canada.

Patented and Established A. D. 1834, by
the late OTIS WARREN.

We claim to be the oldest manufacturers of *Platform Scales* in Canada, dating back to their invention. The Patent is on view at our office.

We claim to make the Best Scales in Canada

We claim to get better prices than any other Canadian manufacturers. And why? simply because our Scales are the best, and we give full value for the money. Having fitted up our factory with the most approved machinery and tools, especially adapted to the work, we are enabled to make the best work, at from 25 to 30 per cent. less in price than the best American makers, of equal quality. We use the best material, employ the most skilled labor, and spare no pains in their adjustment. Our facilities are such, that if we were so disposed we could make *Cheaper Scales* than any of the inferior makers, but we prefer to sustain our reputation, rather than competing with low priced makers. Cheap scales may fool the consumer once, but he will not be fooled a second time. When you consider the immense value of goods passing over a scale in one year, it may easily be seen that the loss occasioned by using a poor scale would more than pay for a good article.

Repairing executed with neatness and despatch.

The Trade protected. Send for Price List and terms. We guarantee our work as represented. We also manufacture

WARREN'S PATENT ICE CUTTER OR PICK,

A new invention, and one which no family can afford to be without. It will save its cost the first season, in saving the ice from waste in cutting. Send for price and description list. The Trade supplied and protected.
