This caused the movement to hum for Port Hope by voting for Ayles- brand the drunkards. worth and the canal via Port Hope."

It did not disturb Mr. Aylesworth that another candidate, in another constituency, was promising the canal to Belleville, and that his supporters were saying:

"They — the voters — have it in their long public life, he always remembered a power to secure it, and if Mr. Lott is yarn that he carried down from his school elected we can obtain the canal, for the days:

ley's Fairville speech was delivered, and So, in order to complete her records they lost. The astonishing fact is that the teacher walked two miles to the game has not been abandoned. But, of course, East Northumberland is remote from Enjayille and pushes the most first such as the such a from Fairville, and perhaps the news facilities thereabouts are antiquated. The peowith a sort of puzzled look, said: ple may have not heard that bribery is not to be condoned by the new minister of public works.

"Well, the gal was born in 'tater time that's sure, but I can't member whether they was a-plantin' on 'em or a-diggin' on 'em."

IN HALIFAX

It was to be expected that in a prov which is wholly represented at O tawa by Liberals the demonstration in honor of four federal ministers including the premier of Canada as well as two ministers from Nova Scotia, would be great success. It was also to be expected that Mr. Fielding himself, because o his long and successful political career party. In this respect, therefore, there was nothing striking or unexpected about last night's meeting in Halifax.

So far as the addresses were concerned. nothing new or unexpected was said either by the premier or his colleagues. Mr. Fielding's speech was moderate in tone, and fitting to the occasion. His reminiscences were appropriate. He had French treaty, and his references to the financial policy of the government and the general record of the Liberal party contained nothing new.

PRODUCE DEALERS **IMPORTING BUTTER** (Montreal Star, Oct. 14)

The extreme prices paid for butter at Cowansville on Saturday were due solely to competition between some of the buyers, but the prices paid 28 to 28 1-4c. are impossible, and cannot be realized on spot today, as dealors are generally calling. today, as dealers are generally selling at 27 to 27 1-2c per pound, for the choicest

recamery.

Now that the prices have reached such a high level, there is an opportunity for Australian and New Zealand butter being imported to Canada, as it can now be sold here at remunerative prices even after paying the duty; in fact, it is common reject, that some of these butterwards. paying the duty; in fact, it is common re-port that some of these butters were al-ready on the way across to Montreal. This has been confirmed by two local dealers, one house having a shipment en route from Ireland and the other a shipment from New Zealand.

The arrival of this butter will certain

The arrival of this butter will certainly stop any further advance in the market, at least for the time being.

On 'Change today several produce merchants expressed the opinion that it seemed strange with all the butter being made in this country they should have to resort to importing Irish. New Zealand and Australian butters, which already compete so hard with the Canadian article in the English market. The duty on butter from Ireland and New Zealand is 3c. per from Ireland and New Zealand is 3c. per from Ireland and New Zealand is 3c. per pound, and from Australia 4c. but even at these prices the business will be profitable for outsiders. One dealer ventured the remark that the price of Canadian butter this year would be ruled on the basis of the importing price.

A brand new swindle has been worked on Maine farmers. A glib canvasser has been vaccinating trees to protect them from the ravages of insects. Ten fents a tree was his price, and his process consisted of boring a small hole in the trunk and putting in a little white powder.
