Select School for Young Ladies,

Conducted by Miss THOMSON,

Assisted by her Father, Elder Thomson, A. M.,

IN the large Brick House, lately occupied by the Mayor, facing the Sea, St. John, N. B. The House is well adapted for a School, containing some of the largest rooms in the City, and being replete with convenience of every character.

Miss Thomson being assisted by her Father *in the higher branches of Study*, and by her Mother in the *domestic arrangements*, hopes to render her School in every respect one of the first order.

In the Government and discipline of the School, due regard is had to the health, happiness and improvement of the pupils; and while every reasonable indulgence is granted, the great objects of education are kept constantly in view, viz:—the full development and proper training of all the physical, intellectual and moral energies, and the formation of habits of industry, punctuality, good order and strict economy in the use of time.

Entrance and removal are unfettered by the usual conditions; and the month commences from the day a pupil enters.

A synopsis, with terms, &c, will be forwarded on application.
