Visit the Store. You Will See Many Attractive Prices—Everything Plainly Marked.

CANADA IN THE WAR

James Gordon Emsie, formerly traveller with the Lake of the Woods Milling Co., here, who left St. John with the first contingent as a sergeant, is a prisoner in Germany. He was wounded in the battle of Langemarck while with the 14th battalion, to which he had transferred. Another St. John man, Alex. Whitehead, formerly with Macanay Bros. & Co., here is missing.

Among the other maritime province men in today's casualty list are: P. A. R. Hallett, Mirville, N. B., wounded, and Robert Graham of Alma, J. W.

Forty Cents a Barrel.
The prevailing price for choice stock potatoes in Woodstock for several weeks has been forty cents a barrel.

A veteran of the London drapery trade is Wm. Longueville, who possesses a record of business life which would be difficult to beat. His record may be summarized as follows:—34 years of age, 80 years of active connection with the retail drapery trade, 68 years in business on his own account.

Canada is the real granary of the British Empire. Not only the motherland, but New Zealand, Australia and South Africa have been looking to the dominion to replenish their depleted grain supplies.

ST. JOHN PEOPLE IN LONDON

The Canadian Gazette, May 18.—The following Canadian visitors have registered at the Canadian High Commissioner's office in London—Mrs. E. Bonnell, R. P. Cowan, Major F. T. McKean, D. B. Pidgeon and Mr. and Mrs. Geo. W. Scott, all of St. John, and Captain F. W. Wickham, Kentville.

Among the callers at the office of the New Brunswick government during the last week have been Major F. T. McKean and Lieut. D. B. Pidgeon of the Canadian contingent. According to a cable received by E. H. Turnbull P. W. Sumner, the new agent-general for New Brunswick, who was expected to arrive in London this month, has been delayed, and will not be able to reach London until the middle of June.

TYPHUS DEATHS IN SERBIA WILL TOTAL 100,000

Already Three Quarters Of That Number Recorded

WORLD'S HELP IS NEEDED

Doctors Wanted and Medical Supplies Sadly Lacking—Some Canadian Red Cross Notes

Toronto, June 1.—For three months all Serbia has been one great charnel house of death and dying. Deaths to date have reached a grand total of 75,000. Though the epidemic of typhus is now declared to be under control, it is freely admitted that a grim harvest of 100,000 human beings will have been reaped before it can be entirely stamped out. When the war broke out there were in all Serbia, with a population of 5,000,000 people, only 800 doctors. The service of all these had to go at once to the army, leaving the civilian population without medical help. Of this heroic little band of doctors, one-third have already fallen victims to the epidemic.

Terrible as this lack of doctors is, it is nothing in comparison with the lack of hospitals and medical supplies. So scarce were the latter following Serbia's last great battle, that the bandages had to be taken from those less seriously hurt and re-used on grave cases.

The Canadian Red Cross Society, realising the awful conditions, recently donated \$5,000 for relief in that unhappy country. Donations may be sent to Sir Edward Boyle Bart., treasurer of the Serbian Relief Fund, 68 Queen's Gate, London, S. W. England, and to Lady Boyle, Serbian Red Cross Society, 5 Cromwell road, London, S. W. England.

Red Cross Notes.

The newly formed branch of the Canadian Red Cross Society in Victoria city and district, B. C., recently sent in requests for 100 life membership certificates. This branch has also sent large shipments of supplies and endorsed several cots in the Duchess of Connaught Hospital at Cliveden.

After the battle of Langemarck Colonel Hodgetts, commissioner of the Canadian Red Cross Society in London, cable to Noel Marshall, chairman of the executive, for \$15,000 with which to purchase surgical and medical supplies.

The citizens of Orillia have answered the appeal for maple sugar and syrup for the Canadian hospitals in excellent manner and the branch of the Red Cross in that town sent a few days ago a large number of tins containing the maple product. They also sent two barrels of jams and marmalade. These luxuries will be sent to the hospital at Cliveden.

The Canadian Red Cross Society has received six wash cloths which were knitted by a boy only six years of age. With the parcel he sent his photograph.

While the people of Canada are purchasing and making comforts for our sick and wounded soldiers and while supplies of all kinds are being sent in to the various provincial branches and to headquarters, there are a great many necessities that can be purchased only by the officials of the society. Especially is this true of surgical supplies. Subscriptions may be sent to the local and provincial branches or to headquarters at 77 King street east, Toronto.

In the small community of Little Current, on Manitoulin Island, the call for canteens has not been unanswered. From the Women's Patriotic League in that town the Canadian Red Cross Society has received \$20.

Persons desiring information as to the progress of sick and wounded Canadians are advised to write to Hugh Langdon, University of Toronto Library. Send stamped addressed envelope for reply.

MORNING NOTES OF THE WAR

Foreign Secretary Edward Grey will take a short rest to improve his eyesight.

German submarines have sunk ninety British ships, of which fifty-nine were merchantmen and thirty-one fishing vessels, since the "blockade" was declared.

The Danish steamer Soborg has been sunk by a German submarine forty miles northeast of the Tynes.

The Russians say they have assumed

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh builders.

Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 30 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of St. John and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

Your System Demands

an occasional corrective to insure good health and strength. Success is almost impossible for the weak and ailing. Enjoyment is not for the sick. Impaired health and serious sicknesses usually begin in deranged conditions of the stomach, liver, kidneys or bowels.

Beecham's Pills

are recognized all over the world to be the best corrective of troubles of the digestive organs. They tone the stomach, stimulate the liver, regulate the bowels. They cleanse the system, purify the blood and act in the best and safest way.

For Health and Strength

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 25 cents.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty.

Cure Constipation, Indigestion, Headache, and Distress after Eating.

Small Pill, Small Dose, Small Price. Genuine and has Signature.

Wm. Wood.

Wake Up! New Brunswick!

This World War Demands the Supreme Effort of a United Empire
Shall Our Province Fall Behind?

It should not be supposed that contributions of a couple of thousand men, a few odd dollars, some barrels of potatoes and boxes of socks constitute our rightful sacrifice. So far not more than a handful of people in all this country have any actual realization of what the war means. These few have given their husbands or their sons to the cause of Empire. The remainder have done nothing in comparison with their abilities and their opportunities.

Our national life, our peace, our prosperity and our happiness are so dependent upon the well-being of the British Empire that only by playing our part in that Empire can we maintain our fortunate position.

Up to the present ninety-nine per cent. of us do not realize what sacrifice means, nor what is being endured by those nearer to the firing line than we are. We must give, not only of our material wealth, but of our blood, and not niggardly, but with a generous hand.

None of us wish to part with our husbands and our children, but it is better that they should serve the Empire and save our homes than that our enemies should triumph and all that we hold dear be taken from us.

*"For Romans in Rome's quarrel
Spared neither land nor gold,
Nor son nor wife, nor limb nor life,
In the brave days of old."*

The 55th Regiment still requires five hundred men from New Brunswick. These men must be furnished at once, and must be recruited from New Brunswick homes. We cannot ask strangers to take our places. The duty before us is clear, however hard the part may seem. Some will lose their lives; others will be maimed; many will return.

MEN OF NEW BRUNSWICK—Once upon a time there was a man who said that he would rather be a live coward than a dead hero.

What is Your Choice at the Present Time?
The Question is Up to You Today!
