le front near Arras, capturing positions of great strength from which the Germans had been launching raids against the canal routes to the French sea coast.

All the highways and canals to the north in the Armentiere and Arras region are now held by the allies.

The Germans today sent heavy reinforcements to the Dixmude region, where they are battling desperately to drive the French and British from the canal dykes. The Kaiser's troops are endeavoring to gain a foothold on the Belgian canals to check the continued flooding of the battle ground which has made their capture of Dixmude merely a barren victory.

WE ARE BUSY

Because of Public Confidence

When times are bad every cent spent in Furniture has to be expended to the utmost advantage.

It is then that the purchaser begins to wonder whether the great "bargains" that are advertised in the papers are really the bargains that their sellers would have the public believe. It is then that the store that has always made a point of selling the most in quality furniture for the least money reaps the benefit of its fair dealing policy.

At J. Marcus' the public have always been assured of the utmost value for every penny spent, and now that times are not too good we are still busy. The reason is plain to see
