New Brunswick Asked to Take Part in Revival ST. JOHN SHOULD BE A LEADER

A. W. Covey Recent Situation and Speaks of Recent Meeting in Ottawa—A Call to City Organizations for a Big Get-together

A genuine revival of amateur athletic sport in Canada is now in prospect, and New Brunswick is asked to join heartily in the movement.

The 'Times-Star' sought an interview yesterday with A. W. Covey, who represented the maritime provinces at the recent annual meeting of the Canadian Amateur Athletic Union in Ottawa.

A vexed question was that of the status of returned soldiers who had engaged in professional athletics and who had representatives wanted them reinstated as amateurs, but after a long debate it was decided that they were permitted to compete in their own provinces, but not at interprovincial or Dominion meets.

With regard to the maritime provinces, Mr. Covey pointed out that Nova Scotia and Prince Edward Island are in good shape for organization. New Brunswick must organize, and the prevailing apathy in regard to amateur athletics must give place to general and energetic action.

The first step is organization and Mr. Covey urges that local clubs affiliate at once with the maritime branch of the A. A. U. Those eligible would be the Y. M. C. A., the Y. M. C. L., the three Improvement leagues, St. Peter's, the LaTour Rowing Association and any other club that exist or may be organized to promote amateur athletics.

The board of governors of the maritime branch of the A. A. U. is composed of L. B. McMillan, Charlottetown; Louis Gaudin, Halifax; A. E. MacNutt, Moncton; and George Barrett, St. John. Mr. Covey is vice-president of the maritime branch as well as of the Dominion A. A. U., and is also a representative of the Amateur Base Ball Association.

The question of organization for athletics of course brings up the question of grounds, and on this also Mr. Covey had something to say. He told of the splendid athletic field of Montreal, A. A., and that in Ottawa, which has a half mile track and a concrete and steel grandstand to seat 8,000 people. There were 5,000 present at the championships on Sept. 27. There are also six large supervised playgrounds in Ottawa. Then there is Toronto, with two large athletic fields and a dozen supervised playgrounds, under Director S. H. Armstrong, who is employed by the city the whole year round for the basements of school buildings are used in the winter as centres for games and athletics.

Mr. Covey points out in regard to St. John, that when W. E. Stirling went to the recent sports in Halifax he got only third place in the mile because St. John has no track where a man can get himself in condition. He further remarked that he was a member of a delegation that waited on the city council last spring and came away confident that something would be done at the Rockwood athletic field, and he cannot understand why the matter should be permitted to drop. The three improvement leagues, he says, have done great credit for what they have done, and the city for the limited aid it has given them, where other cities are showing such enterprise in every direction to promote the city's welfare.

St. John, however, should lead and what that is required is a vigorous and united effort by the various clubs and associations already in existence.

POLICE BREAK HEADS IN NEW YORK FIGHT

New York, Oct. 8.—Heads were broken in Fifth avenue yesterday when mounted police charged several thousand radicals who attempted to parade up the avenue without a permit. Banners which bore incendiary slogans were confiscated and some arrests were made. The police said they had no objection to a parade, but a Russian newspaper published here.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said the only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quietly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no best time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Question About Soldiers, 25 E. Market Street, Manassas, N. J. Better cut out this notice and show it to any others who are suffering from rupture, and who are weary and danger of an operation.

CONTROL OF TRUSTS, SUPPLY AND LABOR SOUGHT BY AUSTRALIAN GOVERNMENT

Melbourne, Oct. 9.—In the House of Representatives Premier Hughes moved a constitution amendment which proposes to give the Commonwealth power to deal with all industrial matters, whether affecting one or more states, control combines, trusts and monopolies, and also to make arrangements regarding the production, manufacture and supply of goods.

If accepted by a referendum these alterations will be effective for three years. They must be endorsed by a Commonwealth convention before the end of 1920, otherwise they will lapse. The Laborites objected to the proposal to limit the period of constitutional alterations to three years. Mr. Taylor will today submit a motion for deletion of the time limit, and will move another in favor of putting railway employees under the Commonwealth Arbitration Act.
