IN MODEL 1893

WE are prepared to furnish our full line of Model '98 yides, solid and aba-dowe, for the new .32 Caliber HIGH PRESSUPE SMOSE ELESS capridge. This alter uses a 165-grain beliet and has a velocity of over 2,000 feet per second, making it the most poverful certridge made for an American arm, with the exception of the .30-40 U. S. Army, is is sufficiently deadly for any game known in North America.

Another great advantage is that the barrel's are-bored and rifled/but not chambered/exactly the same as the regular .32-40 Marfin, one term

satisfactory and convenient as in a regular black powder sife.

This size is the first high-pressure arm developed in this country for a satisfar larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition.

Prices some as.30-30 MARLIV.
