EXIT CROKER.

Elections were held in more than a
dozen states yesterday, but in some of
them only for minor offices, and aside
from the fight in New York they
aroused but little interest. In New
York the rout of Tammany is com-
plete. Seth Low, who resigned the
presidency of Columbia University to
lead the anti-Tammany forces, has won
a great victory, that is emphasized by
the triumphant election of W. T. Jer-
ome to the office of district attorney,
and of fusionist candidates to nearly
all of the other important offices.

The system of government that has
disgraced New York will now be re-
placed by one directed by men who are
not after the spoils. Boss Croker dis-
appears from the scene. Last night he
announced his retirement from the
leadership of Tammany, and declared
that this was his last campaign. He
will now be able to go to the estate he
has purchased in England, and enjoy
the fruits of his long dictatorship. He
is a rich man, and has enriched a host
of others who shared with him the
spoils of a notoriously corrupt and vi-
cious administration.

THE IRISH DELEGATES.

A New York paper says that the
physical force branch of the Irish party
in the United States has declared war
on Mr. Redmond and his friends, and
nicknamed them "Queen's Irishmen,"
who want Ireland ruled by the British
parliament instead of gaining its
independence. This statement occasion-
ed some surprise, when one reads
the speeches of Mr. Redmond and Mr.
McHugh.

The former, speaking in New York,
referred to Hon. Joseph Chamberlain
as follows:—"Mr. Chamberlain propos-
es the reduction of Irish representation
in parliament. If Chamberlain met his
deserts he would end his career by
hanging from a lamp-post. If Cham-
berlain could have had his way the
Irish race would have been exterminated
by now. He will be remembered
only as the author of the most disgraceful
war in England's blood-stained his-
tory."

Mr. McHugh said to his audience at
the same meeting:—"The Irish question
may yet be the question of asking you
to make Ireland a State of the Ameri-
can union."

If there are Irishmen in New York
who want anything more fierce than
these gentlemen offer them in the line
of denouncing the English they must
be hard men to satisfy.

IMMIGRATION REGULATIONS.

A new agreement has been made be-
tween the United States bureau of
immigration and the principal steam-
ship and railway lines, relative to the
regulation of immigration into that
country by way of Canada. A Wash-
ington dispatch says:—

It provides that aliens arriving to
Canada, destined to the United States,
shall be inspected at Halifax, N. S.,
Quebec, Point Lepreau, Vancouver, St.
John, N. B., and Victoria, B. C., by
United States commissioners, who shall
issue certificates to such as are entitled
to enter this country, and the holders
of these certificates shall be entitled
to enter the United States at any of
the above named places without fur-
ther examination. The examinations at
these points shall be similar to those
conducted at the ports of the United
States. All aliens adjudged inadmis-
sible shall be returned to the countries
from which they come by the lines
bringing them over. The agreement,
which goes into effect immediately,
may be cancelled by either party on
giving 60 days' notice. It is signed by
Mr. Powderly, the Elder-Dempster or
Beaver line and the Allan line, the Don-
aldson line, the Grand Trunk and the
Canadian Pacific Railway companies.

DOCTOR'S ADVICE FREE.

The German government has taken
a step in advance in the matter of safe-
guarding the health of the people. A
Berlin cable says:—

The German government has in-
structed the Berlin hygienic associa-
tions to open offices in which instruc-
tions on hygienic and sanitary mat-
ters shall be imparted gratis. Doc-
tors will be present at certain hours
of the day to answer such questions
as: "What is the best food to be eaten?"
"The best clothing to wear in the dif-
ferent seasons?" Questions on housing,
cooking, heating, sleeping accommo-
dation, whether children shall be wash-
ed with hot or cold water. What out-
door exercises are best at various sea-
sons? How long children should re-
main out of doors? How to protect
oneself against colds, influenza, etc.

It is stated that a new use for peat
has been discovered. A Berlin letter
says that a German scientist has de-
vised a method of converting it into
artificial gutta serena, and that it can
thus be used for the insulation of ocean
cables. Experiments for years have
failed to produce a satisfactory sub-
stitute for gutta serena, and if peat
will provide the material it will con-
tribute a great factor to the world's
economy.

On a recent date the steam-
ship from Montreal since May 1st, was
1,411,200 boxes, compared with 1,335,400
in the like period of last year. The
butter exports were 774,000 bags, com-
pared with 730,300 in the like period of
1900.

The fund in favor of Lady Minto's
Cottage Hospital scheme now amounts
to about \$20,000. It is thought this will
be sufficient to establish eight or ten
cottage hospitals in the west.

THE OIL WELLS.

Outlook Promising and Work Will Be
Vigorously Carried On.

At the adjourned annual meeting of
the New Brunswick Petroleum Co., at
Moncton, Nov. 5th, the following direc-
tors were elected:—H. R. Emmerson,
Dorchester; A. P. Barnhill, St. John;
A. D. Richard, Dorchester; Jos. All-
ison, St. John; Ernest Hutchinson,
Dorchester; H. Atkinson and M.
Lodge, Moncton.

Mr. Emmerson is president and man-
ager, Mr. Richard vice-president, Mr.
Hutchinson second vice, and Mr. Lodge
secretary-treasurer.

It was decided to carry on opera-
tions on a more extensive scale than at
present and the company to purchase
its own machinery instead of letting
contracts for boring. Another boring
rig has arrived and will be taken to
McLachly farm, three miles from
Hillsboro.

BUY FAWKES' DAY.

Guy Fawkes' day was celebrated by
the Orangemen of the city last night
by a supper at Lang's restaurant in
the city. There was a large gathering of
the prominent men in the order. Hon. C.
N. Skinner presided. The supper was
one which reflected much credit on the
caterer and the proceedings through-
out were of a most satisfactory charac-
ter. W. B. Wallace was spoken to by
Geo. J. Jenkins. Scott B. Morrell spoke
for the county lodge. Wm. Stanley
replied for the city lodge. Wm. Rog-
ers was the spokesman for the Royal
Black Knights of Ireland. Chas. B.
Ward spoke for the district lodge.
Messrs. Fowler and Charlton replied to
the toast of Our Soldier Boys.

The memory of Guy Fawkes was re-
vived last evening by True Blue lodge,
No. 1, of St. John, in a most thorough
and enjoyable manner at O'Connell's
hall, Carlton. Roxbury lodge of the
Ladies' Orange Benevolent Associa-
tion assisted in the occasion, which
began early in the evening by the serv-
ing of refreshments between 6 and 7.30
O'clock. The day and night were
dresses, songs and music for sale.

With County Secretary Wallace, presid-
ing. He delivered an interesting
speech, explanatory of the day, as did
also Scott B. Morrell. A well executed
Highland dance was given by John
McLeod. With music furnished by
the band, the evening con-
cluded with a dance.

At Fairville the members and friends
of Willis lodge, No. 7, L. O. L., also
enjoyed a social evening.

Grand Secretary Neil J. Morrison and
Ald. J. B. Armstrong went to Gares-
burg, N. B., to participate in the
celebration of Guy Fawkes' day there.
The ceremonies included the dedication
of a hall.

CHARLOTTETOWN.

CHARLOTTETOWN, P. E. I., Nov.
5.—The validity of the prohibition act
which passed the legislature of this
province during the session of 1900 was
argued today in the supreme court be-
fore three judges. The attorney gen-
eral was counsel for the government,
and W. S. Stewart represented the li-
quor interests. The case was before
the court on a return rule granted
during the vacation to show cause
why conviction should not be set aside
and quashed on the ground that the
act is beyond the power of the prov-
ince. Argument for the government
will be completed tomorrow. The case
will probably last several days. The
Manitoba act now before the privy
council, it is thought, may cause the
judges here to reserve decision until
the council's decision.

HALIFAX.

HALIFAX, Nov. 5.—Sir Charles and
Lady Tupper arrived tonight from
Montreal. They will leave in a couple
of days for Sydney.

R. L. Borden, M. P., left today to
attend the manufacturers' banquet in
Montreal. Mr. Borden has been asked
to reply to a toast "For Canada and
the Empire."

AMHERST.

AMHERST, N. S., Nov. 5.—John A.
McCarthy, who was arrested at Pug-
wash for stabbing Charles McArthur,
and is charged with manslaughter, this
morning elected to be tried under
the Speedy Trials act. The trial will
take place before Judge Morse on
Thursday, Nov. 21st. Bail was fixed
at \$4,000, the prisoner's own recognis-
ance of \$2,000 and two sureties of \$1,000
each. The prisoner secured satisfactory
bondsmen and was released.

The town council last night decided
to call another ratepayers' meeting to
discuss the proposed hospital for Am-
herst. The meeting will take place on
Wednesday, Nov. 27th.

Sch. Sarah Potter, Capt. Hatfield,
which sailed from St. John Saturday
afternoon, reached Bridgeport at 11
O'clock yesterday, making the run in
two days and eighteen hours. This is
one of the fastest passages ever made.

FOUND GUILTY.

TORONTO, Nov. 5.—"We find pris-
oner Lewis guilty of manslaughter as
charged." Such was the verdict
reached by the jury at the assizes to-
day after deliberating about twenty
minutes on the evidence adduced in
the trial of James H. Lewis, Christian
Scientist, charged with causing the
death of his six year old boy, Roy, by
neglecting to supply the boy with
medical aid when he lay dying of diph-
theria. Lewis called in a Christian
Science practitioner, who gave the boy
"silent treatment." Chief Justice Fal-
conbridge immediately ordered the re-
lease from custody of the prisoner on
bail, pending arrangement between
counsel of a stated case for the court
of appeal. In view of Chief Justice
Falconbridge's charge the verdict was
not unexpected.

W. W. Vickers, the counsel for the
defence, in his address to the jury,
after calling several witnesses who
had been cured by Christian Science,
said: Could anyone, after hearing the
testimony of the good people regard-
ing cures by Christian Science, dis-
believe them? If they were to disbe-
lieve these testimonials, what was the
position they found themselves in?
They believed that God was ready and
waiting to help anyone. Christ was a
great healer, but he did not require
medicine. It was works, not words,
that proved the system. To find a ver-
dict of guilty against the prisoner
would be to put God out of the world.
If religion didn't heal the sick in
churches the ministers ought to get
out of the pulpit.

BOARD OF TRADE.

At the meeting of the board of trade
yesterday the delay of the marine de-
partment in the matter of the lightship
for the Lurchar Shoal was sharply criti-
cised.

President Jarvis spoke in support of
the city council's action in urging that
horses for South Africa be shipped
from this port. He also stated that
correspondence relative to harbor
dredging was being kept up.

W. F. Hatheway, at the next meet-
ing of the board, will present a motion
urging that the dominion government
recognize the principle of state own-
ership of all Canadian land and sea tele-
graph lines, and apply the principle
whenever practicable. At the same
meeting G. Fred Fisher will move a
resolution condemning the circulation
of mutilated or worn coins and calling
for legislation dealing with the mat-
ter.

It was announced that the Franco-
Canadian line steamer, which are to
come to St. John or Halifax in winter,
are to make at least 18 voyages be-
tween the two ports, the number to be increased
thereafter.

JAPAN BUILDS A LOCOMOTIVE.

Experiment Made at Osaka Said to
Have Been Successful.

VICTORIA, B. C., Nov. 1.—According
to news received by steamer today the
Japanese have started to build their
own engines instead of importing from
the United States the Kobe Chronicle
tells of the construction of a loco-
motive at Osaka with satisfactory results.
The total weight of the engine was a
little over thirty-one tons and it has
a boiler capacity to attain a speed of
thirty miles an hour. The cost is es-
timated as over 10 per cent. below
those imported, and when the freight
from Europe or America is included
the cost is still further reduced. The
work was directly superintended by
Viscount Inouye Masaru, formerly a
director of the Imperial Government
railway.

Any Boys?

If there are boys in the
house, or girls either, then
croup, coughs, catarrh,
bronchitis, and sore throat
are sure to be there, too,
sooner or later. Don't
crowd their stomachs with medicine,
just have them breathe in the vapor
of Vapo-Cresolene; they'll like it,
and it will give immediate relief. In
this way you put the medicine right
on the place that needs it. For
whooping-cough it's the perfect
cure.

Vapo-Cresolene is sold by druggists everywhere.
The Vapo-Cresolene of Laro, which is sold in a
small bottle of Vapo-Cresolene complete, 50¢ per
bottle. Illustration showing a child breathing in
the vapor of Vapo-Cresolene. Vapo-Cresolene Co.,
St. John, N. B., 195 Union Street.

Mrs. Ernest DuVerne of Indian Head
gave a very pleasant afternoon tea on
Saturday in honor of Mrs. Neville
Parker, formerly of Toronto, but now
a resident of New Brunswick. Mrs.
DuVerne had on a gown of black
mousseline de sole over black taffeta.
Mrs. Parker wore a black silk grena-
dine over yellow silk, with a toque to
match. Miss Nation, Mrs. Leslie, Miss
Emily Williams and Miss Macelline
Acres assisted in the tea room, where
the table was decorated in white and
yellow, with chrysanthemums and sil-
ver candelabra shaded with yellow.

DR. STRONG DISTRIBUTED CANS.

The Well Known Preserver's Plans for
Beautifying Greenwich.

GREENWICH, Conn., Nov. 4.—The
Rev. Joseph Strong, D. D., late presi-
dent of the Evangelical Alliance, and
now the head of the League for Social
Service, borrowed a grocer's wagon
Saturday morning and loaded some
garbage cans in it, drove about town
leaving the cans at different places
where the public may deposit litter.
This is the beginning of a reform
movement by which Dr. Strong in his
connection as president of the Village
Improvement Association, hopes to
beautify the town. The doctor's ap-
pearance on the delivery wagon caused
a commotion as he handled the reins
over the team and hauled the
cans out when he stopped.
