## ST. JOHN STAR.

ST. JOHN, N. B., FEBRUARY 7, 1908

### A PUBLIC DUTY.

his province is one of very serious moortance. Except among those persons and newspapers whose interests re identical with those of the present overnment, but who would just as heerfully support any other government for a like consideration, there is serial dissatisfaction with our present rovincial rulers. The fact is beyond issuite. The government and the trenched in power, and at election time they are able to use with great effect those peculiar agencies which a party in power is able to utilize, and which sometimes defeat the will of the majority of the people. The fact that New Brunswick has not a better gove-ernment than that of today is partly otherwise, by politicians in power who method to further their own ends. These people are now endeavoring to persuade the people that Mr. Hazen and those supporting him have not sufficient ability to conduct the affairs of the province. It would indeed be a they could not do better than the me who have been rolling up the provincial debt without a compensating improve ment in the public services. It is time for a change. The present government should be defeated, and an opportunity given to other men. Place new men at the head of affairs and there will at least be an end of the extravagance and recklessness which mark the ourse of the present administration.

### ST. JOHN'S DUTY.

The Star commends to the electors their next representatives in the legislature of the province, Messrs. Shaw, Wilson, Hatheway, and McInerney. These four are opponents of the present entirely too long for the good of the province. They are men of ability, who will serve the citizens faithfully and islative experience at Fredericton, an Mr. McInerney at Ottawa; while Mr. Wilson and Mr. Hatheway, as success

shaping more desirable legislation than the province has had or is likely to get under the rule of Mr. Tweedle and Dr. Pugsley. There is no question at all that intense dissatisfaction with the present combination is felt all over the province. The thing to do now is to rally to the support of the opposition candidates and give new men an opportunity to shape provincial legislation. A change will certainly be of great benefit to New Brunswick. The electors of St. John have the issue now squarely before them.
