MONCTON, Oct. 15.-Shortly after midnight this morning fire was discovered in the Record Foundry and Machine company's bridge shop, which was completely destroyed, and contents, including machinery and large bridge for Kingston, Kent Co., more or less damaged. The total loss is about three thousand dollars. Insurance: five hundred on buildings and one thousand on contents.

the company's business. In consequence of Mayor Ayers' reply to the Montreal Star depreciating the sending of a Canadian contingent to the Transyaal, which has caused much indignation here, a largely signed petition has been presented the mayor asking him to call a meeting of citizens to take the matter into consideration and remove all the

stigma that has been cast upon the town by the imputation of disloyalty.
FREDERICTON, Oct. 15.—No orders have been received as yet by Capt. Carpenter of the R. R. C. I. here for enrollment of troops for the Transvaal. Orders, however, are expected at any time.

Two houses at Morrison's Milis, owned and occupied by George Peters and Robert Griffin, and a third, owned by Judge Wilson and occupied by John Cunningham, were destroyed by fire at one o'clock this morning. The city fire protection does not extend to the Mills, and water carried in buckets from the river was the only means available to check the flames. strong wind would undoubtedly have meant the destruction of the entire district. The houses owned by Griffin and Judge Wilson were insured, but Peters carried no insurance. Most of

the furniture was saved.

The University difficulty is assuming a more serious phase. Fourteen students, one of whom is a senior, notified the faculty Saturday that they were engaged in the Wednesday night racket with the five seniors whom the faculty have decided to expel, and that they would expect the same penalty. It is understood that the fourhave agreed to withdraw from the University in the event of the faculty adhering to their determination to expel the five seniors and of their not acting upon the notification conveyed to them Saturday morning. It is announced that the faculty have decided to adhere to their decision, and that an order has actually been made expelling the five students, who are Sweeney of Fredericton, Estabrook of Marysville, Burden of Southampton. McKenzie of Campbellton, and Green of Vancouver. Friends of students have already interviewed Fredericton members of the senate, and it is stated have obtained from them promises to intercede in their behalf. However this may be, it is said the fourteen students who notified the faculty of their city in the matter, will go out, and if they do this will no doubt create a situation which will necessitate calling a meeting of the senate. It is understood that the faculty was divided in the matter, Chancellor Harrison with a double vote and Professors

From the point of enthusiasm and attendance, in fact, in every way, the meeting was the most successful political demonstration ever held in Restigouche county, and was thoroughly representative of the whole constituency. John MacAllister, M. P. was the first speaker, and sharply criticized the government, with local re-ferences. Hon. Geo. E. Foster followed, and in a masterly manner showed up the faffures of the government, and in a statesmanlike manner vindicated the cause of the conservative party, J. G. H. Bergeron, M. MONCTON, Oct. 17.—One of the hot test public meetings ever held in this town took place in the Opera house tonight. The citizens had called a neeting to consider the question of Mayor Ayer's telegram to the Montreal Star some time ago, approving of Premier Laurier's alleged policy of delaying the consideration of the question of sending a Transvaal contingent until a meeting of parliament. The liberals alleged a political motive, and ssued a flaming call to the party to assemble and endorse the Laurier government's policy. W. B. Chandler, a leading barrister and law partner of C. W. Robinson, liberal M. P. P., was in the chair, and acted in a most impartial manner. The liberals submitted an ingeniously worded amendment, in which they did not attempt to excuse Mayor Ayer, but asked for the approval of the Laurie government's policy in sending a contingent. The chairman declared the mendment lost and the main resolution carried.

The meeting broke up with patriotic songs, Rule Britannia and God Save the Queen, and cheers and counter cheers for Sir Charles Tpper, Premier Laurier, etc. There were many exciting scenes. The liberals, who noped to intimidate a large body of government employes, were simply eaten at their own game, and Mayor Aver's sneering telegram, which smacked so much of disloyalty, was thoroughly repudiated.

Arthur Magee and David Wise in the Lake of the Woods on Friday, 29th ult. The former is supposed to be the youngest son of William Magee of this place, who left here for Manitoba in October, 1883, accompanied by Walter M. Sterling and William McLean. He followed farming awhile in Virden, Man., and when last heard from by his friends, working on lumber about the Lake of the Woods. It appears that he and his comrade started across an arm of the lake from a lumber camp. A violent storm came up, and the next day the canoe was found bottom up on the shore. Although constant search had been made, their bodies had not been recovered on the 8th instant, when the letter was written. The deceased was about 38 years of age, and a general favorite when he left here. The aged parents, a brother, two sisters and many friends lament his untimely death, and fuller news

of which is anxiously awaited Rafting at the Mitchell boom was completed on Friday. Only about 10,000 oints were rafted at this boom during the season, which is much less than usual. The water is unusually low and rafting has been tedious. It will take another week to fix up the rafts and

FREDERICTON, N. B., Oct. 18,-Judges Barker and McLeod, and J. D. Hazen, M. P. P., of the University Senate, are in the city tonight. They, in conjunction with the Fredericton members, consulted the faculty of the university in reference to the recent trouble. settled. The will of the late Winslow Tilley of St. Mary's was proved in the probate court today. Mrs. Tilley, widow of deceased, and John Black, are the executors. The estate was probated at \$1,400 real and \$2,000 personal. All the estate, real and personal, is divised to his widow. F. St. John Bliss is proctor.

The estate of the late G. E. Fenety will probably be divided as follows: To his widow he directs the executors to pay, from a certain portoin of the esfate set aside for that purpose, an income of \$1,200 a year. At her death the principal from which this sum is derived is to be divided among children of deceased. The homestead, known as Linden Hall, is also devised to his widow, to reside there as long as she may desire. If, however, the property is disposed of by her wish. the purchase money shall be divided equally among the children of deceased, his widow to be provided with another residence suitable to her free of charge. To Charles A. Sampson is left \$500 in recognition of his services as secretary of the Fredericton S. P. C. A. \$500 in bequeathed to the Fredericton Auxiliary Bible Society, the interest of which is to be paid to the secretary, in addition to the salary already paid him. The three children of his son, the late E. M. S. Fenety, are bequeathed the sum \$2,000, payable on the death of his (the deceased's) widow, and upon the youngest child becoming of age. This is in addition to large sums advanced in their interest during the deceased's life time. from which they now draw an income All the residue of the estate, both real and personal, is to be divided equally among the four sons and three daughtern, the sons shares to be paid over at once and to be theirs absolutely, the three daughters' shares to be held in trust and the income arising therefrom to be paid annually to each for her sole and separate use.

The piece of silver plate of epergne presented to the deceased by the citizens of Fredericton, is left to the eldest son on the death of his widow, and to be handed down from father to

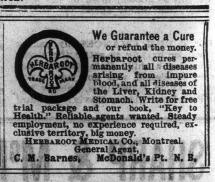

son as an heirloom. W. H. T. Fenety and Miss Fenety of this city, and F. S. Sharpe of St. John are executors; H. G. Fenety, barrister, of St. John, is acting as proctor. The estate, it is believed, will be probated somewhere in the vicinity of one hundred thousand dollars.
