HAMPTON, Kings Co., July 15 .- In the magistrate's court this afternoon before Henry Piers, J. P., the case of Smith v. Smith for breaking into and entering Smith's Hall on May 21st by Mrs. J. N. Smith and damaging the property of Dr. J. N. Smith, was resumed. Scott E. Morrill for the ac cused, objected to proceeding, on the ground that the summons called them to appear before Henry Pierce, J. P., there being no such J. P. in Kings Co. and the information was laid before Henry Piers, J. P. This was over-ruled after an argument by F. M. Sproul, who quoted the statute bearing on the point. The prosecution called three witnesses, Mrs. Celia Freeze, Dr. J. Newton Smith and Ira Smith, an employe of Dr. Smith. After their evidence had been taken, Mr. Morrell moved for dismissal on the grounds: 1st, as before taken in regard to the jurisdiction of the court; 2nd, because from the complainant's own evidence he was not the owner of the property nor had sworn to any damage to any personal property owned by him; and 8rd, that if Mrs. Smith had broken the door in order to obtain possession of her own property, she was perfectly justified in so doing under the statute. He made a scathing arraignment of the prosecutor, who after living yesterday. The business was purely twenty years with his wife, now brought her into court for smashing a vegetable dish and two bowls while trying to get hold of her clothes, which had been that day deliberately locked up against her.

Mr. Sproul replied and in the course of his remarks assigned the trouble to a sudden display of temper on the horse was startled by the band music part of Mrs. Smith when she found she could not get into the hall. He declared that Dr. Smith had borne great provocation for a long time and justified his taking action as he had done. The magistrate then summarily dis-

missed the case. Dr. Smith says he will appeal for the court's decision. Mrs. John J. Miller of Livingston, Montana who has been visiting her sister-in-law, Mrs. John Crandall, at Hampton Station, with her two children, Iva and Roe, left today for Moncton to visit other relatives. Mr. Miller is at present holding an important osition in the employ of the North Pacific Railway Co.

Philip Palmer, barrister of St. John some sixteen years ago offered a gold medal to the Sackville Rifle Club for competition. The conditions were that there should be only one shoot a vear for the medal and the winner had to succeed three years consecutively. The medal was won by Chas. Pickard, in whose possession it has been, no one since having met the conditions. The rules governing rifle practice having changed, the executive asked Mr. Palmer to change the conditions, which he did and the members of the club will be allowed to shoot for the medal at each match held during the season, but the winner must have the highest aggregate at 200, 500 and 600 yards for five matches in succession.

Thomas Hodgins, judge of the admiralty court, Canada, in an instructive article in the July number of the North American Review, calls attention to the fact that, though the question of the Alaskan boundary as between Canada and the United States has been happily settled, there remains a question of great practical importance relating to its practicability and cost. How can the prescribed inland width be scientifically ascertained an staked along the interior land? The task would be one of extreme difficulty and, according to Mr. Dall, one of the engineering experts employed by the United States to report on it, the survey would cost more than the whole territory cost originally and would consume many years of labor. Judge Hodgins urges that, in face of these considerations, both nations should endeavor to agree upon a more practic-

able and less expensive boundary. He concludes: "The mutual interest and convenince of the peoples of both the United States and Canada, in the promotion of trade, and of the agricultural and mining industries, as well as in the administration of justice, in the wild and unsettled Alaska-Canada territory, disciplined by a loyal and just international amity, rather than attempting now that the treaty has been construorable adjustment or equitable compromise of their respective boundary rights in that territory."
