

180 KILLED; 2000 WOUNDED.

As a Result of the Riots at Lodz.

All Workmen in Warsaw Ordered to Go on Strike Today—More Bloodshed Feared.

LODZ, Russia, June 24.—Yesterday's "Black Friday" in Lodz surpassed all the horrors of "Red Sunday" in St. Petersburg. While it is not yet possible to ascertain the exact number of victims, estimates place the killed and wounded as high as 2,000.

The rioting here was initiated by the social democrats and Jewish band, who determined to revenge their comrades killed in the rioting on Wednesday. The feast of Corpus Christi passed off quietly, but during the night workmen attacked the police. In this fighting two officers and seven Cosaks were killed. One of the latter was shot by a girl of 13 years.

At dawn Friday commenced a day of terror. The city was given up to bloodshed. Anarchy and fierce street fighting prevailed all day. Barricades were hurriedly constructed in the Jewish quarter at dawn. Men climbed to the roofs of houses, cutting telephone and telegraph wires to use for entanglements in the streets, while others cut down telegraph poles and used them in strengthening the barricades which already had been constructed and in building others.

Early in the day two bombs were thrown from the crowd into the barricade, killing or wounding twenty soldiers. This started the shedding of blood and continued until after midnight.

At 11 o'clock all the factory hands struck and flooded into the streets. Cosaks, dragons and infantry charged the mob like after time, firing volley after volley into the crowds.

The rioters replied with revolvers, while their comrades on roofs and in windows joined the fusillade. Some dashed victoriously from points of vantage upon the troops in the streets below. The burning fluid drove its victims into a frenzy and led to scenes of a terrible character.

Fighting continued throughout the day and only diminished in its intensity at nightfall, when the city was shrouded into utter darkness, as practically all the street lamps had been smashed. Even then occasional volleys and isolated rifle shots were heard in different quarters, the troops having received orders to shoot any person appearing in the streets.

Terrific indeed, is the plight of the wounded, medical aid is unobtainable and many are lying for lack thereof. There was relief of the lack thereof this morning. A regiment of dragons and one of infantry has been ordered hence from Warsaw.

The casualties up to noon today are 180 killed and wounded, and still counting. So far as yet obtainable 130 persons are reported killed outright during the fighting of Friday and 41 more died in the hospital during the night. Of the wounded, 330 sustained only slight injuries, which were attended to on the spot by the ambulance surgeons. All the hospitals of the city are filled to capacity, and owing to the insufficient number of beds, many of the wounded persons are lying on the floors.

All the shops, stores and factories are closed and business is at complete deadlock.

The rioters this morning attempted to set fire to the government offices, but were scattered by a strong force of troops.

LODZ, Russian Poland, June 25.—The most serious phase of the fighting between the military and strikers is at an end, but there are still local attacks in the suburbs. At Babuty this morning Cosaks attacked a Jewish family of five persons who were detaining in a cab to the railway station and shot and killed all, including the cabman.

At Pablanice, near Lodz, workmen attacked two policemen and shot and killed one and wounded the other.

There is a general curfew from Lodz. Twelve thousand persons have already left and all trains are crowded.

During the disturbance 35 government liquor stores were destroyed by the mob, which appropriated all the cash and stamps found on the premises, which they added to the funds of the socialist party.

The workmen of the factories will strike tomorrow. Some prominent citizens this morning telegraphed General Shubert, commanding the troops here, asking for protection against the brutality of the soldiers, especially the Cosaks, who in one instance killed and robbed the servant of a millionaire named Rosenblatt, who was carrying \$5,000 to the bank. The general promised to punish the offenders, but said he required witnesses of the occurrence to testify against the Cosaks.

WARSAW, June 25.—The proclamation issued yesterday by the social democratic party of Poland and Lithuania, calling out workmen as a protest against the Lodz massacre, declares that in order to show the solidarity of their brethren and to protest against "the new and heinous crimes of the Emperor's government," all Warsaw must stop work tomorrow.

The proclamation orders that not a single factory or workshop shall be opened, and that offices, shops, restaurants and coffee houses must close and all traffic must cease. It says that the red flag, the flag of the workmen, shall be in all places of Warsaw, and calls upon the workmen to help their brethren arrange a general strike. The military is attempting all the efforts in the factory and Jewish districts.

In the suburbs of Praga today some workmen shot and wounded two policemen.

In Srodowa street there was an encounter between gentlemen and a crowd, and shots were fired on both sides. Three civilians and one gentleman were wounded. In other streets processions of workmen were dispersed.

Mr. Arthur Walden, Ferryville, Carleton county, N. B., writes: "My wife was a great sufferer from kidney disease for several years. She was troubled with pains in the small of the back and in the side, and gradually losing flesh and growing weaker. She got into a very bad state, would not eat, and her ankles swelled up so that we were afraid of dropsy. We had a book of Dr. Chase's Kidney-Liver Pills, decided to try them. Relief soon came with this treatment. My wife has been entirely cured, and says she would not be without Dr. Chase's Kidney-Liver Pills for ten times the price.

ACTIVE PREPARATIONS FOR SUSSEX ENCAMPMENT

LIEUT. COL. GEORGE ROLT WHITE, D. O. C. Who is in Command of Camp Sussex.

(Special to the Sun.) SUSSEX, June 25.—The camp grounds are already beginning to present a busy appearance, and tomorrow night will see all the tents up ready for the men, who will arrive in large numbers tomorrow afternoon and Tuesday morning.

Lieut. Col. Vince and his Brighton Engineers, whose work at bridge building and trench digging has been so highly commended at previous camps, came here Saturday afternoon, and with the Army Service Corps at once proceeded to systematically lay off the grounds for the tents, which will be pitched practically as they were last year. But the camp will undoubtedly be the largest one Sussex has ever seen, and the special proceedings will probably be even more interesting.

It is estimated that more than 2,000 men will be under canvas this year, and the horses will number over 600. A novel feature this year will also be two field batteries, one from Woodstock, the other from Newcastle. Practically all parts of New Brunswick will be represented, and for the next two weeks Sussex will be a military town.

Lieut. Col. White, D. O. C., will arrive on the C. P. R. today. Lieut. Col. Hugh H. McLean will have approximately 1,500 men under him. Col. A. J. Armstrong, paymaster, is here.

MYSTERY DEEPENS. Inquest in the Wood Case Continued.

Several New Facts Were Brought to Light—Important Testimony of Arthur Corrigan.

(Special to the Sun.) CAMPBELLTON, June 24.—The inquest in the Wood case was continued today at New Mills. Seven or eight witnesses examined, but nothing of an incriminating nature was brought out against anybody. However, several new facts were brought to light, which rather deepen the mystery surrounding the death of Wood.

Dr. Price's statement corroborated that of Dr. Ellis in regard to the post mortem. He told of the second attempt to locate a bullet in the wound in the shoulder as already reported in the Sun. The most important testimony was that given by Arthur Corrigan, the man who has been in custody for the past few days, having been arrested at Bathurst. He is a stranger in these parts, having recently come from the United States. His statement was substantially as follows:

He was a passenger on the train on which Wood went to New Mills the evening before his death. He got off at New Mills, and after making inquiries for a boarding house, was directed to Prescott's coach house. On arriving there a man asked him where he was going to sleep and being told that "he did not know," he offered to share his room with the witness, there being two beds. Witness accepted and when they went to the room witness noticed the man place a pick handle in the corner of the room. After sleeping for a short time witness awakened and saw his room mate going in the direction of the pick handle and when he discovered that he was seen he turned and got into bed. Witness awoke in the morning the pick handle was missing. He did not know the man's name, but could identify him.

Some of the other witnesses were squires who live in the Indian village, which Wood visited the night before his death. Their testimony showed that Wood had been drinking, although he was believed to be sober in one of the houses till after 11 o'clock, when he left, saying that he was going to see Alex. Jomas, who he said had some ill-feeling against him.

Witnesses also testified that when it was known on Friday morning that Wood had been probably killed, a man by the name of Gagnon stated that he had often heard that Wood would be killed on account of his being the ruin of the sinner.

It was also shown that Wood had his coat off when he received the wound in the shoulder, there being a hole to correspond in the coat, while there was a hole in the two shirts. The inquest will be resumed on Tuesday.

About thirty witnesses will be examined, so that it will be some days before the investigation has been concluded.

YANKEES CLIMB DOWN ON CHINESE QUESTION.

Afraid of Retaliation on the Part of the Celestials—All Better Class of Chinamen Will Now Be Admitted to the States.

WASHINGTON, June 25.—By direction of President Roosevelt, action has been taken by the administration which will not only facilitate the landing in this country of Chinese of the exempt classes, but also will eliminate from the immigration bureau such administrative features as have been subject to criticism by Chinese. It is the declared intention of the president to see that Chinese merchants, travelers, students and others of the exempt classes have the same courtesy shown them by officials of the immigration bureau as is accorded to citizens of the most favored nation.

In addition to the president's orders, Secretary McFarr has issued instructions to the immigration officers which, it is believed, will remedy the difficulty heretofore complained of by the Chinese government and individuals. It is anticipated that the prompt action taken by this government to meet the objections made by the Chinese will eliminate the possibility of serious trade difficulties between China and the manufacturers of this country.

The text of the official correspondence and orders on the subject was made public today by authority of President Roosevelt. The president's orders to the diplomatic and consular officers of this country in China were transmitted through the state department and are as follows:

Representations have been made to the president that, in view of the alleged harsh treatment accorded to many Chinese seeking a landing in the United States, the commercial guilds of China have determined to institute a boycott of American manufactures. The representations, backed by the authority of the American Asiatic Society and commercial bodies throughout the country, induced the president to make an investigation of the situation.

As a result of the inquiry orders have been issued to the diplomats and other consular representatives of the United States in China by the president himself, that they must look closely to the performance of their duties under the exclusion law, and see to it that members of the exempt classes coming to this country are provided with proper certificates. The certificates will be accepted at any port of the United States and will guarantee the bearer against harsh or discourteous treatment. Such treatment, indeed, will be cause of the instant dismissal of the tender or official who ever he may be.

KEEP ORDERS ABOUT CARE OF RIFLES.

Rifle Association Have Made Many Complaints—Rifles Were Abused.

(Special to the Sun.) OTTAWA, June 25.—The militia complaints have just been issued, embodying some keen statements regarding the care and use of rifles. In brief, the orders are: The care and cleaning of rifles after having been fired is an important feature in maintaining accuracy of its shooting and preserving it from deterioration by rust, consequent upon not being properly cleaned after using.

Complaints have been made by more than one rifle association that rifles in their possession were unfit for shooting purposes, and asking to have a new issue made. A number of rifles complained about were recalled by the department. The rifles so recalled were found to be in a very unsatisfactory condition, full of rust and fouling, and in nearly every instance the sights tampered with, parts lost and rear sling swivels removed farther forward on the stock, all this contrary to orders. Upon using the rifles they were found to be in as serviceable a condition as the want of care with which they were kept would admit.

It is now published for information that where rifles are called in and found to be tampered with and impaired by rust and want of proper care the association affected will be called upon to pay for the rifles and the organization will be disbanded.

LADY ROBBED OF FOUR HUNDRED DOLLARS

By Follower of Sells & Downes Circus—Finally Paid It Back.

WOODSTOCK, N. B., June 24.—The town was filled with people today for all parts of the country, who came to attend the Sells & Downes circus. The show was very good in every respect and everything well and orderly managed. Some three thousand people paid admission this afternoon. The performance this evening will be largely attended, quite a delegation being here from Houlton.

Information was laid with Chief of Police Kelly this morning that a lady had been deprived of \$400 by one of the circus followers. The young lady's father came to Woodstock and this afternoon during the performance while with Kelly identified the thief. He tried to get away and after a sharp run the marshal caught him. The usual bluff was attempted at first, but finally the circus agents paid over the \$400. The circus was not allowed to run any of the sharper games that generally so take in the unwary.
