OTTAWA, Aug. 28-Facts are acculating to confirm the armouncem made over a month ago to the effect that the question of the construction of a line or railway to Fort Churchill on Hudson's Bay will occupy the attertion of Parliament at its next sessicn. The following significant announcement is found in Saturday's Canadian Gazette:-

"The Governor-General is pleased to order, that, in view of the possible construction at an early date of a railway having its terminus at Fort Churchill, on Hudson's Bay, the land on both sides of the Churchill River from the coast line to a distance of ten miles up the river and two miles wide on each side is reserved from sale and settlement. The said reserve to include all islands within three miles from the

mouth of the river." There is no doubt that the ra:lway which will first "hit the Bay" will be the Mackenzie and Mann line, a portion of which is now being constructed from Erwood, on the Prince Alber branch to The Pas, some distance from the northwest corner of Lake Winnipeg. The railway, for which a number of Prince Albert people hold a charter, will not be built through to the Bay, but will tap the Mackenzie and Mann line in such a manner as to give the produce of Saskatchewan a direct means of communication with the great inland sea.
