RESCUE IN MIDAIR IN FIGHT FOR DARDANELLES

A BRAVE DEED AFTER THE FORETOP OF THE INFLEXIBLE WAS HIT. When the foretop of the British battle ship Inflexible was struck during the operations in the Dardanelles several men were badly wounded. It was a problem how to get them down for surgical aid, but a seaman solved it, as depicted in the illustration, drawn especially for this newspaper, the New York Herald and the London Sphere. The picture shows him taking an injured comrade on his back and climbing down the slippery ladders to the deck amid blinding smoke and projectiles. The act was soon repeated by a second seaman.

JAPAN MAKING SUPPLIES FOR NATION WITH WHOM SHE WAS AT WAR FEW YEARS AGO

Practically Every House In Korea Turning Out Cloth For Russia.

FURNISHING GUNS AND AMMUNITION

Big Coast Guns stripped from fortifications and sent to Russia—Working overtime to Help the Allies.

(Correspondence of the Asso. Press.) Tokio, Aug. 9.—Now that the danger of war with China is over all Japan and Korea is engaged in making supplies for Russia and her Allies.

The war brought big financial losses to Japan but the gaps are being filled in part by the furnishing of guns, ammunition and general necessities to the armies at the front—particularly the armies of Russia.

Officially, Japan has given increased practical expression to her friendship towards Russia by going to the limit of dismantling some of her fortifications on the northeastern coast of the Empire. Big coast guns stripped from these fortifications have been shipped to Vladivostok and thence forwarded to Galicia to strengthen the big gun artillery of the armies of the Czar.

Americans who visit Japan are especially astonished at the almost limitless number of tiny shops in the big cities of this nation—miles upon miles of streets filled with them—all occupied in making something when they are not selling something. These shops are really the factories of the Empire. It is here that cloth goods and innumerable articles needed to keep huge armies in supplies are turned out, handed over to commission merchants, assembled in great quantities and distributed to Russia, France and even England. The correspondent of the Associated Press is informed by a reliable authority that practically every household in the hard-worked town of Moscow is supplied with goods manufactured in Japan.

Korea, also, is making big quantities of boots and ammunition cases. The Japan Celluloid Company of Aboshi, near Kobe, has abandoned temporarily the celluloid business for a more profitable business of making explosives. This company recently received an order from the Russian government for 440 tons of gun-cotton to be delivered before the end of the year. A test of the explosives have proved satisfactory, the first instalment, consisting of 15 tons, was despatched to Petrograd. The Aboshi factory is said to be turning out 2 to 3 tons of explosive daily.

The production of rifles in Japan is limited in capacity compared to other countries and Japan is anxious to fill out her own reserve stock. The available number of rifles for the reserve strength of the Japanese armies is estimated at 500,000 and it is understood that the general staff of the army is desirous of increasing the number to one million. It has learned a lesson from the unpreparedness of the Allies with respect to guns and ammunition and from the vast expenditure of munitions demonstrated to be necessary to the successful conduct of modern wars. Japan, therefore, means to get ready herself along the lines revealed by the international war.

This has naturally reduced the quantity of manufactured material available for Russia—still Japan is doing a good deal, especially in the direction of powder and small ammunition. The powder is sent over to Russia and there used for the manufacture of phreagel and explosive shells. The private output of guns and ammunition is, generally speaking, controlled by the Mitsui and Okura companies who attend to the distribution of the orders. Guns are being manufactured at Tokio and Osaka, and at the Kororan steel works in Hokkaido, which is partly controlled by English capital. It is understood also, that the Mitsubishi company at Nagasaki and the Kawasaki company at Kobe are sharing in the manufacture. A good part of this output was held up by the recent congestion at the port of Vladivostok. When Japan's contribution to the munitions of Russia actually reach their destination it is expected here that there will be a noticeable change for the better in Russia's power of defence and offence.

TIMELY ARRIVAL OF RANGERS SAVED LIVES OF AMERICANS IN TEXAS

Americans Stand off Mexican Bandits Until Ammunition Gave Out in Fight at Norias, Texas.

Brownsville, Texas, Aug. 9.—Five Mexican bandits and one Mexican woman were killed in the fighting yesterday at Norias, sixty-eight miles north of here. For an hour fifteen Americans, eight of them United States cavalry, stood off the attack of sixty Mexicans. Five of the Americans wounded, three of the latter soldiers.

The fifteen Americans were saved from death just as their ammunition gave out by the arrival of seventeen Texas Rangers.

Portland, Me., Aug. 9.—A strong effort is being made to prevent Hugh Duffy from taking the Portland baseball team to some other city. The principal trouble is the lack of a spur track of the Portland Railroad Company to Bay Side Park.

A SWEDISH STEAMER SUNK BY SUBMARINE

One Boat With Seven Men and a Woman Rescued; Another containing Captain and 9 of Crew Missing.

Copenhagen, Aug. 9, via London.—The Swedish steamer Mal has been sunk by a German submarine. One boat containing seven men and a woman has been picked up and landed here. A second boat carrying the captain and nine men is missing.

Available shipping records do not contain the name of a Swedish steamer Mal, or of a vessel of any other nation known by that name.

CLAIM IGNORANCE OF PEACE OFFER MADE BY KAISER

Copenhagen, Aug. 9, via London.—Persons in close touch with court circles here declare that they know nothing regarding the peace offer alleged to have been made by the German Emperor to the Emperor of Russia through the King of Denmark. The reported proposal was said to have involved the trade of a part of Poland for Galicia.

London, Aug. 9.—The British government has received no official report of Germany's rumored peace proposal to Russia.

Official circles neither affirm nor deny the report, holding that if true the proposal is probably in such a tentative form that it would not be incumbent on Russia formally to communicate it to the Allies.

ROUMANIA TURNED DOWN GERMAN BRIBE

Krupp Agent Offered 36 Batteries of Artillery With Ammunition, in Return for Permission to Let Supplies for Turkey go Through.

Milan, Aug. 9.—A despatch from Bucharest to the Corriere della Sera says that following the departure of Prince Von Hohenzollern-Langenburg, the German Ambassador to Turkey, from the Rumanian capital, a representative of the Krupp gun works arrived at Bucharest and offered the Rumanian government thirty-six batteries of artillery, with ammunition, and two million pounds of barbed wire, in exchange if she would let ammunition destined for Turkey pass through.

Following the intervention of the British minister at Bucharest, the newspaper says, the offer was refused.

REFUGEES FLEE FROM GERMAN INVADERS

Thousands pour into Riga from Courland in great distress—Rescue cattle from invaders.

Petrograd, Aug. 9.—Refugees from Courland continue to pour into Riga by the thousands and the fields outside the town are filled with herds of cattle and droves of horses that have been rescued from the German invaders of the province.

Constant distress exists among the refugees. As far as possible, huts and tents have been provided for them, but throughs nevertheless are sleeping in the woods. There is a great shortage of bread in consequence of the removal of the machinery from the mills.

GENEROUS GIFT BY POSTMASTER GENERAL AND MRS. CASGRAIN

AMERICANS MUST REGISTER IN ENGLAND

Gov't desires to keep check on all persons in United Kingdom—Americans not liable for National service, however.

London, Aug. 9.—The British Foreign Office today notified the American Embassy in London that Americans as well as all aliens, will be subjected to registration under the British National Registration Act. New arrivals henceforth will be allowed twenty-eight days in which to report themselves.

This does not mean that Americans can be pressed into the national service in any capacity, but bespeaks a government desire to check all persons in the United Kingdom. Forms are being distributed this week and they are to be returned next Sunday.

COMPANY FORMED TO OPERATE ANTIMONY MINES AT LAKE GEORGE

Fredricton, Aug. 7.—New Brunswick Metals, Limited, is name of new company which has been organized with an authorized capitalization of \$8,000 to operate antimony mines at Lake George, 25 miles from Fredericton.

HON. MR. CODERRE MAY GET JUDGESHIP

Special to The Standard
Ottawa, Aug. 9.—It is expected here that the vacancy on the court of Kings Bench of the province of Quebec, caused by the death of Mr. Justice Gervais will be filled by the appointment of Hon. Louis Coderre, Secretary of State. Mr. Coderre has intimated to the Prime Minister his desire to retire from political life and such an appointment would be agreeable to him. It is not likely, however, that Mr. Coderre will leave office until the return of Sir Robert Borden.

FIRMNESS OF U.S. ATTITUDE WILL SUFFICE

To impose prudence on Germany, despite latter's feigned contempt for fighting power of United States.

Paris, Aug. 9.—The Temps today publishes a summary of the diplomatic situation between the United States and Germany, and concludes its article with these words: "Whatever be the desire of the United States to avoid a conflict, it is certain that a rupture will follow any new exploit of German submarines threatening the lives of American citizens."

"Although the Germans pretend that 'America cannot war on a great nation without the greatest prejudice to herself,' it is probable that the firmness of the attitude of the government of the United States will be sufficient to impose prudence upon the Germans. Not daring to sink American vessels, the Germans probably will avenge themselves on the ships of other neutrals."

ITCHING ECZEMA SPREAD OVER WRIST

Would Burn. Suffered Great Pain, Grandchild Also Afflicted. Used Cuticura. Now Perfectly Well.

Poulamou, N. S.—"I had eczema on my right wrist for over a year. It broke out like a rash. It would itch and burn and I had to scratch. The skin was broken and the blood came through. Sometimes it spread all over my hands and I suffered great pain when I put them in water. I began to use Cuticura Soap and Ointment and they gave me quick relief, healing my wrist and hand in a few months. My grandchild was also afflicted with that trouble. He had it on his head, face and hands. We began to treat him with Cuticura Soap and Ointment and he began to improve. So we continued the treatment for a few months and he is perfectly well." (Signed) Mrs. Joseph Fougere, May 28, 14. Sample Each Free by Mail. With 25¢ Skin Book on request. Address post-card "Cuticura, Dept. D. Boston, U. S. A." Sold throughout the world.
