

CITIZENS YOUNG AND OLD TURNED OUT TO CELEBRATE

Bulletins from United Press and Brokerage Firms That the War Was Over Made the People Happy — Whistles Sounded, Joy Bells Sounded, Bands Played, Citizens Paraded Through Streets and There Was One Noisy Time.

The United Press and some local brokerage firms sent a flash bulletin yesterday afternoon that the Germans had signed an armistice and the great war was all over. This was followed by a cable said to come from the president of the United Press, who is in France, that the message regarding the above was correct, and following this came telegrams and news from the big cities in the United States and Canada were celebrating the finish of the great war.

Finally along Charlotte Street came the Depot Battalion regimental band, despite the fact that the whistles and noise of the peace reports, started in to celebrate the occasion and took brief rainstorms during the early evening young and old showed their patriotism in a boisterous manner. The afternoon was yet young when the whistles and noise commenced. It started easy. Men, women and children heard the news that was given out and all became suddenly happy. Merchants felt that it only took but a few minutes for their places of business were decorated with flags and bunting.

On the St. Croix. Special to The Standard. St. Stephen, Nov. 7.—Due to reports from the outside world that peace had come, the community has been all over since the early afternoon. Calais, Mr. and Mrs. Stephen, celebrated the ending of the war all afternoon. Calais kept it up this evening, but St. Stephen called it off after supper after hearing that the telegrams on which they had fixed their hopes were not backed up by confirmatory reports.

INCREASE FOR DEPENDENTS

Special to The Standard. Ottawa, Nov. 7.—An order-in-council has been passed increasing the rates of separation allowance payable to the dependents of private soldiers.

Dependents of private soldiers and non-commissioned officers from \$35.00 to \$30.00 per month. Dependents of first class warrant officers from \$30.00 to \$35.00 per month. Dependents of lieutenants from \$30.00 to \$40.00 per month. As the majority of the November cheques had already been paid, the order-in-council was passed. It is not possible to include the adjustment of this month's issue, but the amount due on account of these increased rates from September and October will be included in the issue of December cheques.

GET RID OF HUMORS AND AVOID DISEASE

Humors in the blood cause internal derangements that affect the whole system, forming the basis for all the eruptions. They affect all the organs and functions, membranes and tissues, and are directly responsible for the red spots, pimples, which some people contract during the war.

MUCH INTEREST IN CAILLAUX TRIAL

Case Marks Climax of Long Series of Investigations Into German Intrigues in France. By Hampton Hunt. (Special Cable to The Standard. N. Y. Tribune and The St. John Standard.) Paris, Nov. 2.—The French Senate has met for the purpose of inaugurating what is probably the most important criminal proceedings that have taken place in this country since the upper chamber sat as a high court for the first time.

Paris, Nov. 2.—The French Senate has met for the purpose of inaugurating what is probably the most important criminal proceedings that have taken place in this country since the upper chamber sat as a high court for the first time. The principal accused in this instance is Joseph Caillaux, who was Minister of Finance in the Clemenceau Cabinet from October, 1906 to July, 1909; again in the Briand Cabinet, in 1911, and Premier and Minister of the Interior in the Cabinet which he himself formed and directed from June, 1911, to the following January.

REPUBLICAN HOUSE

Washington, Nov. 7.—Republican control of the House, is now beyond all question. With only one district missing—the second Montana—the returns tonight show 223 Democrats, 113 Republicans, 223 Democrats, 113 including one independent; Socialist 1, missing 1. With the Michigan and Idaho senatorial contests still in doubt, late returns from yesterday's elections tonight gave the Republicans a total of 48 senators—just half the membership and lacking one vote necessary to insure control—and 48 to the Democrats.

CANADIANS WITH OTHER ALLIES HIT HUNS HARD

Great Battle Which Has for its Purpose Driving of Germans from France and Belgium Continues, Enemy Continuing to Fall Back Steadily Under the Hammer Blows of Foch.

(By The Associated Press.) Although emissaries of Germany in search of armistice are reported to be giving up, there is as yet no official indication that they have reached the headquarters of Marshal Foch, the man in whose hands lies the absolute power of granting or denying to the last remaining combatant of the Entente all the conditions of hostilities it now urgently requires.

Meanwhile the great battle which has as its purpose the driving of the Germans from France and Belgium continues from the Meuse River to the southern portion of the front, in part by the Canadian Expeditionary Force, effective Sept. 1, 1918, as follows: Dependents of private soldiers and non-commissioned officers from \$35.00 to \$30.00 per month.

AMERICANS AT SEDAN

Sedan, famous as a fortress in the Franco-Prussian war and the backbone of the German line of retreat on the western front, is now in the hands of the American troops and with its fall will vanish all the dreams of the Germans of being able to hold the Meuse River and hold a footing on French soil west of the Luxembourg line of communication with the great German fortress of Metz.

FRENCH SWEEP ON

From the west of the American sector to the east of St. Quentin, the French again have driven forward, liberating many additional towns, villages and hamlets. At some points they have penetrated to a depth of ten miles, notwithstanding the heavy ground, due to rain and mud, and at last accounts were still pressing onward and meeting with no serious opposition.

IF THE PRICE OF GOLD SHOULD RISE

The fact that the world's output of gold is falling off is giving considerable anxiety in financial as well as industrial quarters, and in the Old Country a commission has been appointed to investigate and report on the war's effect on gold production in the British Empire.

The British commission is particularly asked to go thoroughly into the question of the mining of low grade ores, which has been neglected in the past.
