#### Colonel Tucker Tells Ottawa Paper of Good I. C. R. Work, and of St. John's Expectations.

Lieut. Colonel Tucker, of St. John (New Brunswick), is in the capital on depart nental business. The colonel says tha the New Brunswick port is prepared how the world a thing or two about the gress be greatly below that which would be made in open weather. However, there is likelihood of the coal mines being reached in about five weeks. Work on the adhandling of export cattle. One thousand head were loaded from the improvised 1. ing them down at almost express train speed. According to Colonel Tucker, the government road has given the live stock a trip to the seaboard in considerably horter time than the Canadian Pacific officials took to move them through Maine. At any rate, the member for St-John says, the cattle shippers are thou oughly satisfied at the way the life stock is being handled by the government railway and at the port of St. John. Having shown what they can do in an emergency, Colonel Tucker says that St. John expects to get permanently a larger share of this trade in the future. Every steamer that omes into St. John leaves at least \$2,000 in supplies, labor, etc. What would it not mean in the New Brunswick port if it could gain even the traffic that legiti-mately belongs to our winter seaports?— Ottawa Free Press.
