

Dr. J. Walker's California Vinegar Bitters are a purely vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease than in their use as a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Biliary Organs, in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Diuretic, Sedative, Counter-irritant, Sudorific, Alterative and Biletic.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermitting Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, clearing the system of its impurities upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the diseased viscid matter with which the bowels are loaded, and the same stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Sore Throat, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Belching in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. Do not bottle your troubles by neglecting to use Dr. J. WALKER'S VINEGAR BITTERS, the only medicine that cures them.

Scrofula, or King's Evil, White Swelling, Ulcer, Erysipelas, Swelled Neck, Goitre, Scrophulous Inflammations, Indolent Ulcers, Mercurial Abscesses, Indolent Sores, Eruptions of the Skin, Itch, &c. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS has shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermitting Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, Dropsy, Strains of the Neck, Stiffness of the Joints, and all other Diseases, WALKER'S VINEGAR BITTERS are the only medicine that cures them.

For Skin Diseases, Eruptions, Pimples, Salt-Rheum, Blisters, Spots, Itch, Scald-head, Sore Eyes, Erysipelas, Itch, Scars, Discolorations of the Skin, Humors and Diseases of the Skin of whatever nature or origin, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, inhabiting the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintic will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the term of life, these Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is full; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

A MOUNTAIN VIEW.

How drearily this place! These hills the world, Forever thinking, being, thinking, slow. Above her fair green glades, like mist appeared, Rises a shadow born of long ago. Seem as if her bloom had sought last year. How old she seems! Between her and the stars. In only stone—these thoughts and things. With the questions, and never unasked.

As I came up, I met the mountain brooks Down plunging—O how glad, and O how strong! For ever beneath the black crags' frowning looks. O happy, that life, and life, and life, and life. Nor want, nor waiting! I above you, long To rest me from this care in such delight. My's mountain glory is to be most glad! O the great pain of moments most sublime!

He should be glad who sits on mountain heights. Not only of the sunset, but of the moonlight. God—so like him, that no time seems old.

The Portland Tea Meeting - An Enthusiastic Welcome to the L. G. Governor.

The tea-meeting last evening was a perfect success. The hall was adorned with mottoes and emblems of Temperance, the tables were covered with eatable and ornamental material, and there was a great crowd of people. There were many tables, could be placed in the hall, and yet only half of the company could sit down at once. But there was plenty for all, and many baskets over. There were cold meats, oysters, oranges and grapes inextricably mingled, and tea and coffee in the strongest and best. Some of the finest and best of Portland's maidens and matrons waited on the tables. The spread would have done honor to any city, to any hotel, and which would be a credit to the city.

Hon. Isaac Harpe, Mayor of Portland, tried to welcome the L. G. Governor to the town, but his feelings overcame him, and his progress in the art of speech-making has been so rapid as his paper claims, and he made a sorry welcome of it. But he meant well, his friends knew he was doing the best he could, and although he failed to express himself intelligently, calling the Governor a "Cannibal," His Excellency Gov. Wilcox, the company knew what he wanted to say.

Mr. Goddard, Town Clerk, read the following address of welcome from the Town Council to His Honor the Honorable SAMUEL LEONARD TILLEY, C. B. Lieutenant Governor of the Province of New Brunswick.

WE, the Chairman and Councilors of the Town of Portland, beg to tender to you our hearty congratulations on the occasion of your first visit to the town of Portland in the exalted position of Lieutenant Governor of New Brunswick.

We feel certain that the Government of this Province has already been marked with consistency and thoroughness, and we are confident that you will be your entire devotion to the best interests of the people, and that you will be your entire devotion to the best interests of the people, and that you will be your entire devotion to the best interests of the people.

OSBORN Sewing Machine. Awarded the First Prize in 1873. SUCCESS THE BEST OF MERIT.

OSBORN Sewing Machine. VICTORIOUS EVERYWHERE. Gold Medal at Lyons, France, and First Prize at the Exposition Universelle at Philadelphia, 1876.

At each competition the entries were keen, the leading Machines of Canada and the States being represented. The OSBORN Sewing Machine is the only one that has won the gold medal at Lyons, France, and the first prize at the Exposition Universelle at Philadelphia, 1876.

Mr. Tilley rose, said he had found it impossible to put on paper a formal response to a welcome that touched his heart so deeply, and made a speech full of reminiscences of his life in Portland—where he first took the Temperance pledge, first became a Son of Temperance, first held an official position, where he became a Christian. Every plank in the old building wove sleeping memories of soul-stirring scenes. His speech occupied a half hour, and was listened to with rapt attention, broken by bursts of applause. When he said he had been forced to break an engagement to meet his Council, for the purpose of accepting the invitation of the Division, and that the pressure came from a quarter that few husbands can resist, three hearty cheers were given for Mrs. Tilley.

Rev. Mr. Duncan made a good speech, unnecessarily long by reason of uncalled for denunciations of statistics, and proposed great laughter by saying that the only advantage a hotel dinner table had over the tables around him was an ornamental bill of fare that could not be read by two thirds of the guests.

Mr. John Boyers called, from the lowly position his modesty had prompted him to take, to the platform. He had intended taking no part in the festivities attending the reception of his distinguished friend, except that of a spectator, but, as he had yielded, he made a humorous speech, full of telling bits, keeping the company in the best of spirits, and closed with an earnest appeal on behalf of temperance and virtue.

Geo. J. Cole, Alderman, and Rev. Mr. Jones made excellent speeches. God Save the Queen was sung, and cheers were given for the Governor, Mrs. Tilley and the ladies of Portland.

The nomination in Gloucester will be on the 29th of January; polling 24 of February; declaration 8th of February. Mr. Anglin will be re-elected as a matter of course.

The house of Mr. Harris McLeachy, at Lawson Settlement, was burned on Tuesday. The fire caught in the L, and most of the property in the house was saved.

Prohibition. An effort is being made to induce the Dominion Government to pass a Prohibition Law. The Temperance League of this Province have the affair in charge.

Escape from Ewington. On Friday, three children, two of them daughters of Mr. Alex. Casey and the third a child of Mr. Hiram Turner, were crossing the Gaspe River, and when midway over Mr. Turner's child went through the ice. Mr. Casey's child caught at her and went in too. They were both disappearing in the current, when a third child caught her sister by the dress, and with almost superhuman strength, until Mr. Frank Gooden arrived and got them out. They were already insensible when rescued.—Trib.

Slipping Notes. Liverpool, Dec. 29th.—The bark J. B. Duffus, from Charleston, and the San Miguel, from St. John's, N. B., were in collision to-day off the bar, the former had port quarter slightly damaged, and the latter sustained slight damage to bulwarks.

A Quack Run.—The brigantine Minerva, of Yarmouth, N. S., under command, master, made the run from Boston to Cape Sable in 36 hours.

Found Drowned.—Two sailors of the bark Magenta, Nova Scotians, were found drowned in the lock at Diamond, Yarmouth, on the 8th inst. The Captain had given the unfortunate seamen leave to go on shore, but not returning when their leave expired he thought they had deserted.

The Ship Saladin.—A telegram from the ship Saladin, ashore near Halifax, on the 8th inst. The Captain had given the unfortunate seamen leave to go on shore, but not returning when their leave expired he thought they had deserted.

The Duke and Duchess of Edinburgh will make a state entry into London for their marriage. The Queen herself is favorable to this idea, but it has met with some unexpected opposition from other persons in high quarters. It is believed, however, that there is every probability of a "national welcome" being offered in this form to the daughter of the Emperor of Russia, and that she shall once again witness a repetition of the spectacle which took place on the entrance of the Princess Alexandra into London. There is to be a great illumination of the metropolis on the day of the marriage. The West End tradesmen have begun their preparations for this kind of loyal advertisement, and the brilliancy of the illuminations will, in spite of dearer days, surpass that which took place in 1853.

The death of the baby violinist, at Boston, the other day, was full of pathetic significance. Not long ago he formed part of the evening's attraction at one of the New York spectacles. He was six years old. At a time when he should have been tucked away in his bed, he was standing before large audiences playing music which excited him, thrilled through and through by noise and plaudits that excited him tenfold more. His little store of vital energy and nervous power, which should have been subjected to no more exacting drafts than the plays of the nursery or the caresses of his parents, was wasted in this reckless extravagance. A number of New Yorkers are spending the winter in Florida and South Carolina. They write home aggravating details of the miseries included there.

At a frolic at West Bay, Cape Breton, a row ensued in which sticks, scythes, hatchets and other weapons were used. One man was so seriously injured that he died the next day. His assailant has been arrested.

The velvet and fur combination so popular this winter in street costumes is of the most elegant and stylish introduced for many years. Nothing can be handsomer or richer than real fur and real velvet.

Bonnets have undergone a material change in shape since autumn. The real French model—something in the Mand Miller style—is to be generally adopted by the leading ladies of fashion, and as a rule is very becoming.

Umbrellas for the fashionable young women of the period are of a navy blue serge-silk with ivory handles cut in the form of a cross. They are ornamented in any way with silver or gold, and for that reason are very genteel and "à la mode."

A Paris correspondent, who is safe to wager is a horrid man, says it is a current joke there that no titled person is too old or ugly or impoverished but he would be glad to pick up an American girl who will give him a couple of dollars to become Madame la Duchesse or Madame la Baronne.

The Truro Sun has learned of the murder of Mr. William McNitt, late of Ontario. He was a painter in Kansas City, and moved to Wichita, where he and a companion, while asleep in their own house, were attacked by a band of desperadoes, and McNitt was killed. The other man escaped.

Judge Gulson, of the Hastings Court, Virginia, some colored men having petitioned that jury for trying negroes should be composed of negroes, answered that by the Fifteenth Amendment he could have no objection to a jury of color or previous condition.

Quite a number of weddings which were announced to take place this winter in New York, have been postponed for obvious reasons. One was postponed for the eleventh hour, even after the cards were out and the mother-in-law-elect was practicing sarcasm.

At a concert in Buffalo a small boy tumbled off his seat. This was interpreted "fire" and the audience made a frantic rush for the doors and windows. Women and children were trampled under foot, and many leaned from the windows, a distance of fourteen feet. After a general alarm of fire had been sounded a committee was appointed to go and wake the boy up.

Before the cock-fighters of New York with a sharp stick. He led a contented onset upon one of the most frequented pits the other night while it was in full blast and captured ten of the five birds. The officers sprang into the pit with revolvers in their hands. Before the mouths of the revolvers the gang fell back. A rush was made for the other side of the pit, and the wooden side of the building gave way under the pressure, and a yelling crowd fell pell-mell into a ditch. Each corner grabbed one of the fighters and drove some twenty others into a corner.
