Dear Sir:

This letter will constitute your authority to ferry Cessna T50, ~~BMW~~, Calgary to Edmonton for the purpose of weighing and inspection for C. of A., CFR day flying, on flight plan and with one passenger only. This authority to be not valid after January 14th, 1946.

*Noted
1/11/46*

It is pointed out for your information that it will be the owner's responsibility to arrange for scales for the purpose of weighing, and the arrangement of a B & D Engineer for the purpose of inspecting the aircraft; and in this connection we suggest that you contact either Western Airmotive, whose phone number is 83541, Mr. J.M. Keith - President, or Northwest Industries Limited, phone number 27141, Mr. L. Brintnell - President.

From the telegram received today from F/L Gardner, it would appear to us that you are counting on having this work carried out during the course of one day or so, and for your information it is likely to take considerably longer.

When arrangements have been made for the weighing we recommend that you advise us your time of arrival in advance so that we will endeavor to be present.

Yours truly,

KFS

K. F. Saunders,
A/District Inspector, Air Regulations.
