

## THE LIVER.

Is  
Your  
Liver  
Lazy?

A lazy, slow, or torpid Liver is a terrible affliction, its influence permeates the whole system, engendering languor, dullness, yellow eyes, coated tongue, sick headache, lack of appetite, sallow complexion, pains under the shoulder, etc. It holds back the bile, which is required to move the bowels, and lets it get into the blood instead, thus causing Jaundice and Constipation, as the double effect of a single cause, viz., torpid liver. In the spring the Liver is apt to go wrong, hearty eating of hearty food puts too much work on it, and it needs assistance. Help it with Burdock Blood Bitters, which regulates the flow of bile to act properly upon the bowels, and tones, renovates and purifies the Liver, removing every result of Liver trouble from the temporary but disagreeable bilious headache to the severest forms of Liver Complaint. As a medicine for spring and fall, B.B.B. excels all others by its perfect action upon the stomach, liver and bowels, whereby it removes all impurities from the blood from a common pipple to the worst scrofulous sore.

## B.B.B. SAVED HIS LIFE.

DEAR SIRs,—Last winter I was very thin and reducing very fast owing to the bad state of my system. I suffered from Biliousness, Bad Blood and Lost Appetite, and the result was very severe Dyspepsia in addition. A friend induced me to try B.B.B., and though I had but little confidence in it I did so. From the first day I felt the good effects of the medicine, and now feel quite strong again and can eat almost anything without ill effects. It gives me great pleasure to recommend B.B.B., for I feel that it saved my life.
