Exclusive Seed-Dropping Device

Times have changed. It is the farmers with up-to-date machines that are catching the big prices of the early markets. The O-K Canadian Potato Planter gets your seeding finished earlier and better, with saving of seed and valuable time in busy season.

This is the only machine that can give you the endless cup system, the most accurate seed dropping device ever invented. It demonstrates close to 100 per cent. efficiency, and leaves absolutely but one seed per hill. That means seed economy, worth any man's while to have on large acreages and it means fewest dead hills:

fertilizer with earth so that it cannot touch the seed. Yet the seed gets the full benefit of the necessary plant food. It also makes the trench deeper for reception of the seed. Fourteen-inch discs are easily operated, working the covering earth into any desired shape.

A Sandford, Fla., user writes: "There is no question in my mind that from the standpoint of light draft, durability, accuracy in planting, proper distribution of fertilizer and general manipulation, adjustment, etc., it is the best potato planter on the market."

Our free catalogue gives full particulars of Potato Planters and Diggers, also testimonials. Write to-day.

YOUR MONEY CAN EARN 5½% WITH ABSOLUTE SAFETY

\$100 invested at 5½% doubles itself in less than 13 years.
\$100 saved at 3% takes 23½ years to do the same thing.

It would be foolish to invest your money at only 3% when you can secure 5½% with equal safety and convenience. It would also be equally foolish to endanger your savings in order to secure a slightly higher rate of interest. But your money CAN earn 5½%, without risk of loss, by investing it in

STANDARD RELIANCE 5½% MORTGAGE CORPORATION DEBENTURES

Thousands of people have invested their savings in these debentures without the loss of a dollar invested. The debentures are issued in sums of \$100 and upwards, and the interest is paid in cash on the day it is due.

Write for our booklet entitled "Profits from Savings." It explains what these Debentures are and why they are so good a security.
