

IMPORTANT TRUTH
FOR **STOCK RAISERS.**

LUMP JAW has been transformed from an incurable to an easily curable disease. The entire credit for this wonderful result is due to **Fleming's Lump Jaw Cure.**

When this remedy was discovered no other real cure was known. No other positive cure is yet known. **FLEMING'S CURE** was first introduced in Saskatchewan, and from there its reputation has spread over the entire continent. It is the only remedy endorsed by leading ranchers, shippers, and stock journals. It is positively guaranteed; money is returned if it fails. One bottle usually cures one to five cases.

Like all other articles of exceptional merit, it is imitated in external respects, but these imitations wholly lack the distinctive qualities of the genuine.

Get Fleming's Lump Jaw Cure and be certain of success.

THREE CASH PRIZES

FOR PLANS OF IMPROVED FARM DWELLINGS.

1ST, \$20. 2ND, \$15. 3RD, \$10.

In order to encourage the construction of improved farm dwelling houses, we hereby offer the sum of \$45.00, divided into three prizes (1st, \$20; 2nd, \$15; 3rd, \$10), for the best and most complete plans, with written descriptions sufficient to fully explain them, together with a good clear photograph or drawing of the exterior, from which an engraving can be made; the house to be such as would cost in the ordinary course say from \$1,500 to \$3,000, not to exceed the latter. The plans must show in detail how the cellar or basement and the several floors are laid out, including outside dimensions, also location and dimensions of all rooms, halls, closets, pantry, furnace (if one be included), system of ventilation, drainage, sanitary arrangements, statement of materials, cost, and other points that would be helpful to persons intending to build, or to rearrange present dwellings. In making our awards we will be governed by the value of the practical ideas presented in the plans and descriptions, rather than the mere artistic finish or penmanship. The main points to be considered are comfort, convenience, ventilation, sanitation, with as attractive an exterior as possible within the limits of cost suggested. The competition will be open for the months of July, August and September, and all plans, photographs or drawings, and manuscript describing same, must reach the **FARMER'S ADVOCATE**, London, Canada, on or before the 1st of October, 1899. The author's name and address should be written on the back of each sheet of manuscript, drawing or photo. Announcement will be made as soon as our awards are made, and so soon after as practicable we will publish in the **ADVOCATE** engravings of the prizewinning houses and plans, and the descriptive articles.

THE IMPROVED RELIABLE FEED COOKER

Tank Heater and Steam Generator

Is built upon honor and sold on its merits, under a positive guarantee to do everything claimed for it. We claim that it is the most durable in construction; the most economical of feed and fuel, requires the least attention, cooks the quickest; is the safest and lasts the longest. All these claims and many others are backed by the experience of those who have used them. Read this one:

Oak Lodge Stock Farm, Burford, Ont., Feb. 4, '99.
Messrs. Rippley Hardware Co., Grafton, Ill.
Gentlemen,—I am in receipt of your letter of January 19th. I would have replied earlier, but I wished to thoroughly test the Cooker before making any statements. I have made a pretty thorough test of it, and I am satisfied that it does all you claim for it. My hogs have done much better since I started using your Cooker. I am feeding ground grain, which I scald and feed while warm. I am also using the Cooker as a means of heating my hog pens, by having steam pipes running through the pens. Last week when the thermometer was several degrees below zero, the pens were quite comfortable, and I saved several litters of young pigs that I am sure would have perished with the cold. I take pleasure in recommending your Cooker.

Yours truly, **J. E. BRETHOUR.**
We have hundreds of others equally good, and guarantee all to be genuine, under forfeiture of \$500. **REMEMBER** this was not designed to be a cheap cooker, but to be the **BEST COOKER.** They are built of the best galvanized boiler steel, and made in two convenient sizes. This Cooker is now in use by some of the best breeders in Canada. Special prices quoted for July and August only. See it exhibited in operation at Toronto Industrial Fair, London Fair, Burford Fat Stock Show, and Brandon Fair, Man. Patent applied for in Canada. Write us for circulars, testimonials, prices, etc.
