INTERNATIONAL STOCK FOOD

International Stock Food is a purely medicinal vegetable preparation composed of roots, herbs, seeds, barks, etc., and is fed to stock in small quantities in addition to the regular grain rations. We positively guarantee that it will keep all stock in good condition and insure rapid growth. It will enable you to fatten your stock in from 20 to 30 days less time than you could without it. International Stock Food will save you money over the ordinary way of feeding. A trial will convince you.

A \$3,000 Stock Book Free

CONTAINS 183 LARGE ENGRAVINGS OF STOCK

This book cost us over \$3,000 to produce. The cover is a beautiful live stock picture without any advertising on it, contains 160 pages, size 6 1/2 x 9 1/2, gives history, description and illustrations of the various breeds of horses, cattle, sheep, hogs and poultry. Many stockmen say they would not take \$5.00 for their copy if they could not get another. The finely illustrated Veterinary Department alone will save you hundreds of dollars, as it treats of all the ordinary diseases to which stock are subject, and tells you how to cure them.

WE WILL PAY YOU \$100 IF THIS BOOK IS NOT AS REPRESENTED

This book will be mailed free, postage prepaid, if you will write us at once and answer these two questions:

- 1st—What paper did you see this in?
- 2nd—How many head of stock have you?

Address at once—

GOSSIP.

An old bachelor, who was very bald, fell in love with a pretty widow, whose late husband's name was Robin. One evening the bachelor dropped in to have a cup of tea with the widow. After tea was over she commenced to sing "Robin Adair." The bachelor picked up his hat, and said: "Madam, even if your husband did have hair, it's no fault of mine that I haven't." Then he fled.

A visit to the Hope Farm, St. Jean, Man., was made recently by one of our staff, who found the proprietor, Wm. Martin, Winnipeg, actively engaged in superintending some of the farm operations and the noted herd of Galloway cattle. Mr. Martin holds the Highland Society's diploma in agriculture, and was a prizeman when attending agricultural lectures in Edinburgh University, hence his familiarity with agriculture, the primitive profession of man. Grain farming is carried on extensively at the Hope Farm, in addition to keeping up a herd of high-class Galloways; a five-year rotation (two crops of wheat, one coarse grain and seeding down to grass, timothy and brome, which is left two years) is followed. The soil packer is used extensively, both spring and fall, being made to follow the plows, thus saving harrowing before the seeder in springtime. Brome grass will be used in the laying down of a permanent pasture. In the yards and paddocks were noticed the robust polled blackskins whose coats make such grand robes for winter use.

The male duties of the herd are attended to by a trio of grand bulls: Eustace, McKenzie of Lochenkit, and Grand Master. Eustace (imp.), a Biggar-bred bull, is a low-set, thick, good-fronted fellow, with thick-covered loin and full, deep buttocks, and the attractive, masculine head of a sire. McKenzie of Lochenkit is a masculine-looking male, fairly good in his fore-end, gaining in depth what he lacks through the forerib, and has the lengthy, well-filled hind quarters inseparable from a beef sire of the right type. Grand Master lives up to the name, is blocky in character, with smooth shoulders, grand middlepiece, and lengthy hind quarters, and, although only a two-year-old, has in his present development shown that promise that should make intending rivals hesitate before trying conclusions with him in the show-ring.

Included in the harem is a bevy of matrons possessing qualities which would render them a credit to any breed aiming at the target of perfection in beef types of cattle. The trio consisting of Ella, a first-prize winner at the Chicago International; Lady Stanley 12th, second to Ella at the Windy City Show, a position which we should reverse had we the awarding of the ribbons, and Maggie of Kiquahantia, a winner of a first at the Royal and a second at the International. Ella is not a large cow, but is one of the kind with a great deal contained in a neat package, with plenty of depth, and a barrel of ample proportions, both for feeding and breeding purposes, in which latter she excels, if the cow calf at foot is a criterion to go by. Lady Stanley 12th is a lengthy, level, smooth cow, with a top and underline rarely equalled, an expansive bosom and wide chest indicative of that constitution for which the breed is noted, a heavy-fleshed forerib, and thick-covered loin, which would delight the beef-eating epicure, and with loaded hind quarters that, barring a little elevation at the tail-head, are a model for the beef breeder to follow. It is doubtful whether she could be beaten in the West by a female of any breed, if an inter-breed sweepstakes were offered. A heifer of note is Deveril, whose ample bosom, well-filled neckvein, depth, and table-like top, together with her quality and femininity, would attract attention in any company. A milky-looking, home-bred matron is Hannah 4th, and so we might go on did space permit. In the yards were to be seen a bunch of useful bulls, whose services will doubtless be called for eventually on the Western ranges, and in company with these young missionaries of the gospel of better cattle were three pure-bred Galloway steers that show the capabilities of the breed as beefmakers of the right sort.

Father and Daughter

Were Great Sufferers from Kidney Disease and Pains in the Back—Now Unite in Praise of Dr. Chase's Kidney-Liver Pills.

Those who are best acquainted with the merits of Dr. Chase's Kidney-Liver Pills do not wonder at their immense popularity as a family medicine.

In thousands of cases they have cured where physicians and ordinary medicines have failed. This is the test by which they have been proven.

Here is a letter we have just received from Prince Edward Island:

Miss Kate Doyle, lot 1, post office, P. E. I., states: "About three years ago my father was seized with a severe form of Kidney disease, which caused him much suffering, as well as anxiety lest the ailment should become chronic or prove fatal. We immediately obtained Dr. Chase's Kidney-Liver Pills and he began at once to improve under this treatment, the symptoms gradually disappearing, until he became quite well again. Since then we always keep these pills in the house for use in the case of sickness of this kind."

"For some time I suffered from pains in the small of the back and accompanying ills, and though I was treated by a doctor at considerable expense, I could obtain no lasting benefit until I used Dr. Chase's Kidney-Liver Pills, which seemed to be exactly suited to my ailment. Father and I are greatly pleased with the excellent medicine and wish to recommend it to others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box of his remedies.
