CAUTION! CAUTION!

A LIVE MANUFACTURING ENTER-

We feel sure the many readers of the CATHOLIC RECORD feel a deep interest in the manufacturing enterprises of our young Dominion, and we feel only too glad to chronicle from time to time the amount of good these establishments are doing, both as regards the giving of employment to our skilled and unskilled labor and also furnishing the community with a class of machinery second to that of no other in foreign countries. The Waterous Engine Works Co., of Brantford, furnish employment to one hundred and fifty men. This fact alone speaks volumes for the magnitude of their trade, and we know that this large business could never have assumed the present dimensions had not the gentlemen at the head

mever have assumed the present dimensions had not the gentlemen at the head of affairs been persons of the most sterling integrity and rare business ability.

The great specialty of the Waterous Engine Works Co. is their patent "Fire-Proof Champion" agricultural engine, for which they are the sele manufacturers in Canada. This is the only engine from which we fire escapes an ingenious constitution. which no fire escapes, an ingenious con-trivance in the smoke-stack causing it to trivance in the smoke-stack causing it to extinguish its sparks with water. The Champion is also the only engine with a locked safety-valve, placing—to use the words of the manager—"a silent watch over cardless engineers." Its absolute safety from fire is shown by the fact that, after a thorough test by competent men, many prominent insurance companies have licensed its use around the barns insured by them. By its use the saving in time, grain, money and horse-flesh must be considerable; and as the firm claims it to be the lightest, safest, most powerful and most easily managed engine in Canada—taking least wood and engine in Canada—taking least wood and water of any other—the name "Cham-pion" is properly bestowed. On an aver-age six of these magnificent engines are turned out weekly, which find rapid sale, eigty-six having been sold last year, and 145 are being built this season; of which, up to this date—28th August—123

An immense amount of grist-mill and saw-mill machinery is here turned out monthly. Their portable saw-mills are not only in use throughout Canada, but not only in use throughout Canada, but in Germany, Australia, South and Central America, giving the best of satisfaction. Their lever-feed shingle machines (Smallwood's patent) are well known as being all they are represented to be—simple and efficient. Considerable business is also done in the manufacture of corn and middlings mills, portable under-runner mills, stave machines, etc.

This week we give an illustration of the 16-horse power saw mill. Last week was

6-horse power saw mill. Last week was shown the Champion Portable Grist Mill.

One of these portable grist mills will be in operation at the fair to be held in Toronto next month and anyone thinking of locat

ing in Manitoba should see it.

There will also be shown by the same firm, a portable 16-horse power saw mill Fire-Proof Champion Engine, self-acting shingle mill, grain-cracker, and a full as

shingle mill, grain-cracker, and a full assortment of saw-mill furnishings.

The same firm furnish a complete outfit for Manitoba which they claim is all the machinery necessary for several years in any new section. Their Manitoba Establishment is a complete factory for all new settlements. It consists of one complete saw mill establishment, No. 22 (see advertisement), one complete Lever Feed advertisement), one complete Lever Feed Shingle Mill with edger, pulleys and belts; one complete Portable Grist Mill Estabishment, No. 15; one 36-inch Cylinder Separator, adapted to steam power, on trucks, with usual extras and all shafting, belting and pulleys to attacts same to their terms. 16-Horse Power Patent Fire Proof Champion Engine. Delivered F. O. B. cars, Brantford, freight paid to Emerson, Manitoba, with plan to erect by, for \$3,000.

BUSINESS ITEMS,

J. TURNER, dealer in fruit, fish and game of all kinds in season, Dundas street, near Strong's Hotel. Goods de-livered promptly at the lowest rates.

H. H. Gore, 519 Richmond street, sells the best ice cream in the city, made with pure cream and no corn starch used in it. Come and try it or have one quart sent to your house. Gore's home-made bread is noted all over the city for its sweetness, and those who have given it a trial will use no other.

Dr. Mothersell would beg to notify the inhabitants of London and vicinity that in a practice of nearly thirty years he has never lost a case of confinement, nor any case of scarlet fever or erysipelas, and but one case of typhoid fever; nor any case of diphtheria for the last fifteen years. He is habitually curing cases that have resisted treatment at the hands of other practitioners, such as heart and lung affec-tions, kidney and liver complaints, and all forms of nervous debility, dyspepsia, etc. Office: Dundas street, nearly opposite Reid's Crystal Hall.

Removal.—Wra. Smith, machinist and

practical repairer of sewing machines, has removed to 253 Dundas street, near Wel-

removed to 253 Dundas street, near Wellington. A large assortment of needles, oils, bobbins, shuttles, and separate parts for all sewing machines made, kept constantly on hand.

We are prepared to fit up public buildings, churches and private residences with Brussels Carpets, Velvet Carpets, Turkey Carpets, Tapestry Carpets, 3-ply Carpets, Kidderminster Carpets, Union Carpets, Kidderminster Carpets, Union Carpets, Dutch Carpets, Stair Carpets with rods, Cocoa Matting, Faney Matting, beautiful Window Curtains, Repps and Fringes, English and American Oil Cloths, from one yard to eight yards wide, Matting, Feather Beds and Pillows, Carpets and Oil Cloths, cut and matched free of charge. Every other article, suitrble for first-class houses, and as low price as any other house in the Doarticle, suitrble for first-class houses, and as low price as any other house in the Dominion. Call before purchasing. R. S. Murray & Co., No. 124 Dundas Street, and No. 125 Carling Street, London.

It will pay you to buy Boots and Shoes at Pocock Bros. They keep a full line of ladies' and gentlemen's fine goods. No trouble to show goods. Written orders presently attended to

promptly attended to.

A MOUNTJOY, importer and wholesale dealer in foreign and domestic fruits, smoked fish, game, oysters, etc., City Hall buildings, Richmond street, London, Ont.

N.B.—These testimonials of cures are given, not for the information of those who already know what the proper qualities of electricity can accomplish, but for these persons who have not had time to give attention to the SUDDEN DEATH.—Mr. Thos. Brenton, jr., of Westminister, died suddenly on Thursday night, 2-th instant, of heart

COMMERCIAL.

London Markets.

London, September 3, 1879. WHEAT. -The receipts of this cereal have been considerable on some days of the week, but on those not known as regular market days only a few loads have been offered. The prices paid have not the treated to any great extent. On been offered. The prices paid have not fluctuated to any great extent. On Thursday a drop of about 3c per cental was noticed, since then, however, the market has strengthened in sympathy with the reperts of ruined crops in England, and are to-day the same as quoted last week.

land, and are to-day the same as quoted last week.

OATS—There have not been so many oats delivered this week as last. Toward the close of last week their value settled at 90c, a slight improvement in the demand since then has made the market firm at 90c to 91.

Phys.—Oaly two or three leads have

BARLEY-Only two or three loads have appeared during the week. There is at the present moment very little demand. From 70c to 90c would be paid, according

to quality.

Peas—None coming worth mentioning.

HAY—There has been very good demand for hay since our last, with light deliveries. Good hay will bring from \$9 to BUTTER-Has been scarce. Rolls have

advanced considerably, first-class brands bringing 16c to 18c; second 14c to 16c. Crocks are worth from 12c to 15; kegs 12c CHEESE-For local demand is worth

from 5½ to 6c. Shippers are speculating somewhat at these figures, but the present condition of English market, which has declined another 6d per cwt. since Saturday, is not encouraging.

London Stock Market.

Reported by John Wright, Stock Broker, 104 Richmond st., London, Sept. 3.

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount, and cooperated usa mighty whole, thus securing to early shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from \$5 to \$5,000, or more, can be added successfully N. Y. Baptist Weekly, September 28tl. 1878, says, "By the combination system \$15 would make \$55, or 5 per cent.; \$50 pays \$350, or 7 per cent.; \$100 makes \$1,000, or 10 per cent. on the stock, during the month, according to the market." Frank Lestie's Illustrated Newsyaper, June 29th: "The combination method of operating stocks is the most successful ever adopted. New York Independent, Sept. 12th "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co. Brooklyn Journal, April 29th. "Our editor made a net profit of free) explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N.Y.

Note from Mr. John Grandy,

Manager and Secretary of the Huron and A dlesex Mutual Fire Insurance Compa London, Ontario. London, Ontario.

DEAR SIR.—Il affords me much pleasure to recommend to the public the Electropathic Treatment of Dr. Wilson, for equalizing and regulating the circulation of the nervo-vottal fluid and also of the blood, and thus giving tone to the nervous system. I consider it superior to any other mode of treatment. Whenever the system is temporarily laded by overwork, wearied by unusual or excessive mental effort or suffering from exceptional nervous exhaustion from any cause, electricity I believe, will be found to be the most valuable remedy. In such cases its exhilirating and restorative effect is very marked. It quickly produces a remarkable sensation of bieneire, of comfort, and
