## The History of the Present War

will bulk very largely in all teaching of history this year.

To meet this need, **The School** has published in book form all the material on the present war which appeared in its ten war numbers during the past two years.

This material has been tested by actual classroom use. It fills 151 pages of the book. It provides you with what you need to teach for examination purposes.

Of course, the teacher who wishes to produce interest and enthusiasm, to put "life" into his lesson, must read much outside the actual work. For this reading consult the publishers' advertisements in this issue, and in our book when you receive it. These lists are both comprehensive and attractive. Add some of these books to your library.

Our war book costs 40 cents, post-paid.
