The Empire Milking Machine Is The Ideal

INVESTIGATION has proven to us that for absolute perfection in milking machines, the Empire has every other make beaten by miles. We have satisfied ourselves that it is the only machine to handle, and the machine that will give you excellent service.

As easy on the cow as her calf, and much more uniform; the most sanitary in construction, simple and speedy in its work. A twelve-year-old boy or girl can operate it—and do so with pleasure. Does away with all the old drudgery. Teat cups cling of themselves to the teats—need no tying.

We want to show it to you. But if you cannot come in, write for fuller information.
