The excursion to Erie, Pa., was well patronized by townspeople, numbers leaving last evening by regular train on Tuesday afternoon, as well as by the special on Wednesday morning.  
It is decided that the Perth volunteers, or 28th Battalion, will put their annual drill in at St. Mary's this year. The camp will be formed on Monday the 9th of September, next.

FLAX is beginning to move. Several loads have been delivered at the laying stone mills during the past few days. The crop is a good one, and its cultivation has been pretty extensive.  
The heavy rain storms which passed over here early in the week did not do damage in this vicinity that we are aware of. In several counties they were particularly severe, grain, vines and even trees having fallen to the earth; many farm buildings in Iowa were totally wrecked.

MR. STRONG, a divorcee agent for Cole's great Marriage Agency, is in town on Tuesday. The several thousand square feet of illuminated pictures which he left behind him are conspicuously attractive, especially to the small boys, who no doubt are concerning himself about acquiring the requisite nickels to pass him under the nameless canvas that may be behind the living animals.  
A Green cotton, says there are miles of sidewalks being built in that town on streets almost unbuildable. This is a terrible grievance, but no one in Listowel need be apprehensive of a similar affliction breaking out here for some time to come. Our neighbors find a way out of their difficulty by digging their surplus water to this point. An old mill or so could be utilized to advantage.

The cattle fair on Tuesday last was the poorest attended of the season. A few lean kine with their drivers were all that appeared upon the ground. There were several hogs present, but the animals exhibited did not suit. This failure is more owing to the fact that the farming community are just now very busy in the harvest field, rather than that there are not a number of earth of good quality in the country, and that the owners wish to dispose of them. The after harvest fair will doubtless make up for this deficiency.  
FARMERS are busily employed in their fields of spring grain this week, last Saturday having witnessed the general closing of the fall wheat harvest. With the exception of late sown spring wheat, all crops are turning out well, peas and oats being especially good. The weather has interfered with harvesting operations considerably, but not to impair materially the value of the crops. When the season's work is ended we are convinced that the farming community will find themselves in a position as favorable as could reasonably have hoped for, and for which they will have cause to be thankful.

MATRIMONIAL.

A couple were married last week near Trowbridge who were certainly neither young nor inexperienced. The bridegroom, who hails from Peel, is some fifty years of age, has been twice a widower; has nine children and a number of grandchildren; while the bride was a widow with several children and grandchildren.

WATERWORKS.

Messrs. Hess Bros. have just completed furnishing their business premises with a complete system of water works. Tanks are sunk in the basement and from these the water is conveyed through iron pipes to different parts of the building. A large reservoir is in the upper part, also filled with water, and hose is attached by means of which water can be thrown to all parts of their premises should accident by fire at any time occur.

PERTH VS. MIDDLESSEX.

The county cricket match, played at London on Saturday afternoon, resulted in a victory for Middlesex by 17 runs. The scores being 64 and 47, one innings. Forster, of Middlesex, is said to have handled the willow very expertly. Appended are the names and scores of Perth team:—Cresswell 0, Adams 2, Murphy 8, Edin 1, Hay 0, White 7, Patterson 3, Irvine 0, Forrester 8, Daly 3, Lynd not out, O'Keefe 5, Leg byes 4, wides 0. Total, 47.

NEW WHEAT.

As yet comparatively little new wheat has been brought to town. Mr. John Ayres of Elma, we believe deserves the distinction of delivering the first load of the season on Saturday last. It is a variety of the Clawson variety, and yielded well. Messrs. Clinie were the purchasers, at 95 cts. per bush. Some (readers) has also appeared which fetched the same figure. The berry is not quite so plump this year as usual, no doubt owing to having ripened too fast. The harvest is well advanced, and the fair prices now offering we think farmers would find it to their advantage to market a portion at any rate of their fall grain immediately. A bird in hand is worth two in the bush."
