CONFIDENTIAL REPORTS ON MINES.

Rossland, July 14, 1898.

Dear Sir:

The event of the past week has been the large sale of Giant-some 300,000 shares principally to Rossland parties.

Montreal got in for some 50,000 shares.

Toronto. Strange to say Toronto failed to buy a single share of Giant. This city generally gets on to the good things, and why Toronto brokers failed to put their clients into Giant is a matter that needs explanation. Have they special pets to recommend?

Giant. This stock has advanced from 7 cents to 10 cents and will gradually go higher-watch it. Stock in a shipping mine at 10 cents is a snap. It is well to follow the lead of Rossland investors, and the people of Eastern Canada will, if they take our tip, place buying orders for Giant with their brokers. At 10 cents Giant is positively the best buy on the market.

Good Hope. At last the main ledge of this property has been uncovered. The ledge is 17 feet wide between walls, and a shaft is being sunk on the hanging wall. After various vicissitudes the Good Hope now bids fair to be a mine. The public will kindly remember we have persistently advised the purchase of Good Hope.

Monte Christo. This stock dropped to 28 cents, but now is firm at 311/2 cents. We expect it to climb back to 37 cents.

Deer Park went a kiting to 20 cents Tuesday, but has dropped back to 181/2 cents. It is safe to say it has passed the 15 cent mark to stay.

War Eagle. Quoted at \$2.70 on this market. Iron Mask. Freely offered at 68 cents to 70 Cents.

Big Three. In demand at 8 cents. Virginia. Selling at from 42 cents to 43 cents.

Smuggler. We are offered 15 cents.

The tone of the market is healthy and the demand good.

Sincerely Yours, C. O'BRIEN REDDIN & CO.

Stock Market.

The past week has been a particularly active one so far as the stock market is concerned. War Eagle has failed to maintain the recent advance and after selling as high as \$3 is freely offered at \$2.60. Virginia holds its own and is firm at 42. Monte Christo is steady at 31. There was quite a flurry in Deer Park and large blocks changed hands at prices ranging from 151/2 to 181/2 and it is now firm at the latter price with every

appearance of advancing to 20 or higher. Giant, however, was the stock most extensively dealt in and we are pleased to say that our clients took over 120,000 shares of this stock during the last week. The price has advanced from 7 to 10 cents on the exceedingly good showing in shaft No. 2 and on the fact that a contract has been let for the hauling of the 200 tons of high grade ore now on the dump. This ore will be shipped immediately to the Trail smelter and judging from the recent smelter test which assayed over \$20 to the ton, should give very good results. A contract has been Corrected by Messrs. Rolt & Grogan, 36 Rast Columbia Avenue. Telephone 45. P. O. Box 428. Cable address: "Kent." Codes: Bedford-McNeill shafting.
