been washed away and her docks had been washed.

She asked to be taken in tow and the Mesaba agreed to do so, if possible. A boat from the Mesaba, containing the chief officer and five men, was launched and the chief officer finally succeeded in securing a line from the Catania, but the seas were so high that he was forced to drop it, as its weight was endangering the boat's crew of the Mesaba.

As night was falling and the strength of the gale was increasing further attempts to take the Catania in tow were impossible. The Catania then signalled, "Don't abandon me," and the Mesaba answered that she would not. Then the Mesaba asked the Catania to abandon their ship, but they refused. The Mesaba

B. C. LEGISLATIVE MATTERS.

Victoria, Jan. 4.—The appeal the return of J. T. Booth as mem

dart vs. Prentice was called, application for adjournment was made on the ground that Mr. Sones, the collector of votes for the district, although subposed to attend, and a material with the state of the contract of the co

pened to attend, and a material witness, was not on hand.

Instead there was a letter from Mr. Soues that he had not obeyed the summons of the court, because he had not been able to receive permission from the department to proceed to Victoria. Under the circumstance an adjournment was granted until Thursday of next week.

Ex-Premier Turner will not be on hand for the opening of the legislature tomorrow, the steamer on which he took bassage across the Atlantic having been delayed.

THE ROSSLAND MINER'S

...OF THE...

Rossland Camp

THE ROSSLAND MINER's map has arrived, and is now on sale. It is the most complete and elaborate map of Rossland and the surrounding country that has been published.

It is finely lithographed in several colors on the finest and most durable paper, and the first edition will consist of 7,000 copies.

Complete-

Every building, street and alley in the city of Rossland are plainly outlined

The mines and mining claims of the Rossland camp, and their building, such as shaft houses, compressor plants ore houses, boarding houses, etc., are all on the map.

All physical features of the surrounding country, such as mountains, hills, valleys, plateaux are shown just as they are. The winding of railways, wagon roads and trails are correctly represented.

Accurate.

The map is almost a photographic picture of the Rossland camp, with the exception that it is produced in colors and shows the country as it is in the early summer.

No expense has been spared to make this map a really first-class production of artists, engineers and engravers. Two skilled, active and experienced men have been constantly employed on the work for three months.
