VALUABLE INVESTMENT.

FOR SALE.

THAT very Valuable Property known as the SEIGNIORY of LA SALLE, in the vicinity of Montreal, and five miles from Laprairie, containing FORTY-TWO THOUSAND FIVE HUNDRED ARPENTS, or French Acres, bounded by the Seigniories of Laprairie, St. Louis, Beauharnois, and Sherrington, together with the Saw Mills, Steam Engines, Buildings, Water Privileges, and all the Seigniorial Rights and Dues. Also, the MANOR HOUSE, and FARM of NINETY ACRES thereto attached, in high state of cultivation. On this Seigniory are situated the flourishing Parishes of LA PRAIRIE and ST. REMI, the latter with a thriving Village of over 150 Dwellings, and rapidly increasing. The population of the Seigniory is about 3,000—the Lands, among the most fertile and valuable, being so near to the city of Montreal.

Plans of the Seigniory, and details of the Revenues, may be had on application to Messrs. SHEPPARD, or to the undersigned.

A large portion of the Purchase Money may remain at interest upon the Property, if so required.

MONKLAND HOTEL.

TEA GARDENS AND PLEASURE GROUND.

MR. COMPAIN has the honor to announce to the Public, that he has LEASED, for a term of years, MONKLAND FARM, containing about 200 acres of Land, beautifully wooded, the late Residence of the Governor General, which he has fitted up as a PUBLIC HOTEL and RESTAURANT.

Gentlemen desirous of giving Dinner Parties may be accommodated by giving notice the day before.

Ice Creams, and other Refreshments, of various kinds, always ready.

The Healthy Situation of MONKLAND, (which contains upwards of SIXTY ROOMS, on the rising ground to the West end of the Mountain, and commanding a Splendid View of the River St. Lawrence, the Lachine Rapids, the Ottawa River, and the adjacent country,) is too well known to require any remark; and the Extensive Grounds attached, afford a private and perfectly safe PLEASURE GROUND for the children may run at all times.

As this will be the only Establishment of the kind in the vicinity, Mr. C. trusts the support of those whose desire it is to retire to the country during the heat of Summer, and be still within a few minutes' walk of the City.

It is his intention to establish a LINE of OMNIBUSES from his house to Place D'Armes or Monkland.

For Terms, apply at the Restaurant, Place D'Armes.

N.B.—Extensive Stabling and Coach-Houses, in first-rate order.

☞ Boarders at Monklands having business in the City, can take their Dinner and Lunch at the Establishment Place d'Armes, without any extra charge.

SILK AND WOOLLEN DYER, AND FURNITURE CLOSETS.

BEGS to return his best thanks to the Public of Montreal, for the kind manner in which he has been patronised for the last four years, and now craves a continuance of the same. He will carry on his Trade as formerly, in all its branches, viz:—Dying all kinds of Silks, Satins, Crapes, Woollens, &c., as also, Scouring all kinds of Silk and Woollen Shawls, Moreen Window Curtains, Bed Hangings, Silks, &c., Dyed and Watered. He begs to state he has procured a new Patent Watering Machine for Watering Silks, Shopkeepers, Tradesmen, and others, who may require anything done in the above line, will find it greatly to their advantage to call on him. He is engaged to renew the colour of all sorts of Woollen Cloths that has lost them, and to make the cloth look as when new. All kinds of Stains, such as Tar, Paint, Oil, Grease, from Mould, Wine Stains, &c., carefully extracted.

N. B.—As many of my customers are of opinion that I have opened another Establishment in Notre Dame Street, I wish to correct the mistake, by informing them that I have nothing to do with any place but the one above, and that I have leased the same for six years from the 1st May.

Montreal, November 8, 1849. 12

Latest from Toronto.

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends and tests of the water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to ensure their general use by all classes of our citizens:—

Remedial means, or matters professing to be such, and depending for their employment, upon the existence of the revolution of salutary advertisements, and the amount of money consequently paid by their proprietors for these, have at no time, since we undertook the management of a Journal devoted solely to the advancement of medical science, found favor in our eyes. *Nor shall they,* while we have always adhered to the old maxim, "Ne sutor ultra crepidam." We have always thought, and are daily more convinced of the truthfulness and correctness of our opinion, that all the world was never intended to practice the medical art, in any such shape—aye, and all women too—are unable to make a profession of the noble science of medicine, and it must be admitted, without a cavil, that without a foundation there can be no superstructure. Neither we would therefore question the qualifications of all to become physicians, scientific practitioners of the Healing Art—far from it; but seeing that different arts have been assigned to different individuals, from the foundation of our world, and that one does not necessarily supersede another, for the comfort and support—the rich and poor, the educated and illiterate, the professor of science and the simple mechanic—so we hold that the public should be left free to choose, and in the main insure a due preservation of health, by men who have given their attention to give the best energies of their mind to this particular study. It is under impressions of this kind that we differ in the intention of our professional brethren to the advertisement of Mr. Lircombe on the cover. We have, in common with our medical friends in this city, taken occasion, from time to time, to describe, in Editorial notes, the Plantagenet Water, derived from a spring on that gentleman's property, in the Ottawa District. Commendatory certificates (founded on merit) frequently such known to us, so favorably published in the daily newspapers of this city; our own, has appeared among the number. But we may hesitate not to recommend the employment of the Water to families in town, and to the profession both in Canada and the United States. Mr. Lircombe's analysis, as to its constituents, furnishes at once the key of its applicability and usefulness. We are informed that the proprietor has made arrangements for supplying, during the forthcoming season, the Plantagenet Water throughout our own Province and the United States, by the establishment of necessarily depots and the appointment of proper agents.

These waters are to be had only from the Agents, A. MANN, at the Depot 4, *Place d'Armes*, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Berlan, St. Paul Street; and at the principal Hotels in the City.

A fresh supply of the above Waters have just been received, and for sale by the above Agents.

Montreal, May 15, 1850. 109

ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Water from the Spring of St. Leon, and find it to be strongly saline, containing Iodine in large quantity, with Bromine and Iodine, partly in combination, discovered by the presence of carbonic acid, partly as uncombined gases, in excess of any other known Mineral Water in the country. It contains also Iodine in addition to which, I have detected in small quantities, salts of barytes and strontia which will hitherto keep up with fully as much activity as when first bottled. This water is applied to the purposes of Carbon, Phosphorus, and the Carbonate of Calcium.

The amount of one pound of 7000 grains, as calculated, is as follows:—

Chloride of Sodium	24,4760 grains.
Chloride of Potassium	0,2500 do
Chloride of Barium	0,2500 do
Chloride of Strontium	0,2500 do
Chloride of Calcium	0,2500 do
Chloride of Magnesium	1,6250 do
Bromide of Magnesium	0,0625 do
Iodid of Magnesium	0,0625 do
Carbonate of Lime	0,3125 do
Carbonate of Magnesia	0,1562 do
Carbonate of Iron	0,0156 do
Alumina	0,0156 do
Silica	0,0156 do
	28,0000 grains.

WISTARIA BALSAM OF WILD CHERRY.

We have not unfrequently called attention to the merits of this preparation, and we feel happy in the opportunity of again doing so, as we have had a further opportunity of testing its virtues in the case of a friend who was afflicted with a severe cough, which had resisted the usual remedies, and had reduced him to a very low state. He has derived the greatest benefit from having tried a bottle of the Wistaria Balsam, and is now rapidly recovering his former health and strength. We would therefore advise all who have occasion to make use of a remedy for coughs, colds, &c., to give the Wistaria Balsam a trial, and we feel confident they will find it all that is required.—*Montreal Transcript.*

THIS COMPANY, which has been established 20 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.

Very low Rates of Premiums on Young Lives.

The security of a large realised and invested Capital.

Large Bonuses on Policies effected on the high Scale.

Prompt settlement of Losses.

The full value given for Policies when discontinued.

On Insurances for the Whole of Life, one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.

Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.

Permission for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.

Insurances, if required immediately, may be effected any day between the hours of 10 and 4.

The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had *gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE rapid and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES OF PREMIUM, which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

THE Advantages offered to the Insuring Public by this Institution are MANIFOLD, and the Rates of Premium and the Security to the Assured are considered unexceptionable.

The following are some of the principal features offered by this Society:—

The peculiar Benefits secured to the Assured by the principle of the LOAN system.

One half of the Premium may be paid by the Assured's Notes need not be paid until the end of the year, if interest to be deducted from the Dividend of the Assured.

Insurers can at all times draw out the whole or any part of the Company; to be paid from the Profits of the insured, in the order of the year of the Assurance, *a portion of profits of* [illegible] accrued to the Assured.

The paid-up capital of profits having been ascertained, the Directors will be authorized to pay the Assured's Dividends at the close of the first and every subsequent year; afterwards, each year's Dividends in regular order, will be redeemed, on the principle that the Institution exceed the above two hundred thousand pounds and dollars. It is supposed that only three years' premium will be required to pay three annual Premiums after which the Dividends will be redeemed. This brings the conditions of this Company, over those of other Offices, to the point of redeem or pay the Dividends and Premiums south of the Insured; is peculiarly favorable to the interests of the member, as the redemption of Dividends will assist in the payment of the Annual Premium after a few of the first years have elapsed, and thus keep up notes given for Premiums.

The assured, on surrender of his Policy at any time after three years, will receive its equitable value. All Premiums amounting to fifty shillings or more, on Policies running five years or longer, may be paid by *Assured's Note*; to remain a charge on the Policy, until cancelled by Dividends, or the Policy becomes a claim.

This Company was organized in December, 1849, and its prosperity has hitherto been unprecedented. It is now in the third fiscal year of its existence, and numbers (October, 1849) one thousand members; with a constantly increasing accession. Its losses have been few, compared with the numbers which might have been expected, according to the Tables of Mortality upon which Life Insurance is predicated, and unparalleled success in business, and a strict economy in the administration of its affairs, large dividends have been made to Policy holders than by any other Company in the United States; averaging more than 60 per cent. annually.
