**WOMEN'S VOTES**

In the Presidential election in November all women over 21 years of age have votes in Illinois, California, Kansas, Colorado, Washington, Oregon, Arizona, Montana, Idaho, Utah, Wyoming, Nevada.

A population having the right of Franchise of 3,665,442, is to be reckoned with in this election.

Hughes has made a big bid for this vote by coming out strong in favor of Woman Suffrage for the whole country as a Federal law.

This, we would suppose would get him the entire vote of the women in 12 States mentioned above but the Democrats laugh at this and say the Women's votes will go as goes the vote of the men. As husband, father, brother or lover, votes so will vote the fair sex all over the country.

**THE GERMAN MARRIAGE FAMINE**

**Taxes to Encourage Matrimony Are Being Urged**

The terrible elimination of the youth of the nation is causing great uneasiness in Germany. The Leipzig Nachrichten publishes an article on the position of Germany's family life as a consequence of the war. It says:

"Hundreds of thousands of healthy young men have never come back from the Fatherland's battles. In 1914 half the marriageable women in the empire remained single owing to the dearth of men. What will happen after the war if the State does not interfere? Patriots would like to see taxes im-

posed with the object of encouraging marriage and to discredit bachelorhood.

The journal suggests that all families of more than six should be completely freed from taxation. No unmarried official should ever expect to receive an

increase in salary. Every newborn child should mean promotion of the father.

The Government is reminded of the importance of building workmen's homes and garden cities which are at present lacking.

"Unless all this is done in time," it says, "a victorious war will be of little use to future generations."

**WHO AM I?**

I am more powerful than the combined armies of the world. I have destroyed more men than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns.

I spare no one, and find my victims among the rich and poor alike, the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the moving of every train.

I massacre thousands upon thousands of wage earners in a year.

I lurk in unseen places, and do most of my work silently. You are armed against me, but you heed not.

I am relentless, I am everywhere, in the home, on the street, in the factory, at railroad crossings, and on the sea.

I bring sickness, degradation and death, and yet few seek to avoid me.

I destroy, crush or maim, I give nothing but take all.

I am your worst enemy.

**I AM CARELESSNESS—C.N.R. News.**

On Sunday evening last Mr. Henry Publicover, keeper of the lockup, took the evening meal to the soldiers incarcerated. After they had partaken of their food they asked him to unlock the cell door and remove the dishes, he granted their request and had no sooner opened the door than one named Jackson hit him a heavy blow on the chest and knocking him to the large floor, escaped. He is still at large, but his actions indicate that he is trying to "break in" the penitentiary.—Item from ridgeater.

**Get Real Tire Economy!**

Motoring is two things—a pleasure and a business. One might say it was used sixty per cent. for entertainment and forty per cent. for commercial purposes. Yet no matter whether you use your car to get orders or ozone, your greatest economy will be the reduced cost of mishaps.

No accident ever befel an automobile but what the tires were forced to play a part in it. And no accident ever was averted but what the tires had a say in that, too.

If you will drive fast, If you will make those sudden stops, If the city will water asphalt, If rain will make muddy roads;

Why then—the possibility of skidding will always be with you, unless you figure on those elements of danger when you buy your tires. When you think of how to avert danger in motoring you immediately think of
