A Twentieth Century Solomon.

The wise Judge in St. Louis, Widener, who recently won general applause by ruling that a wife has the legal right to go through the pockets of a moon husband who will not hand over enough money to run the household, has added to his claims as a second Daniel by holding that a dog has a right to bite a person who ties a sign or other impediment to its tail.

PLASTERS FAILED.

Liniments, Oils and Many Other Medicines Did No Good.

A New Brunswick Postmaster tells of His Efforts to Cure His Kidney Trouble—He Suffered for Years and Tried Many Medicines but only recently Found the Right One.

Lower Windsor, N. B., July 14.—(Special.)—Mr. T. H. Belyea, postmaster of this place, has made a very interesting statement of his experience in his efforts to be cured of Kidney Trouble, which has bothered him for many years.

At times he would have very bad spells, and when these came on he was almost laid up.

He tried several doctors and used many medicines, but nothing seemed to help him in the least.

Plasters, oils, liniments on the outside and doses of all kinds and descriptions taken internally seem to have—but one result. He was no better.

Finally through reading an advertisement he was led to the use of Dodd's Kidney Pills. He says:

"Dodd's Kidney Pills were so highly recommended for Kidney Trouble that after reading some testimonials I concluded to try them according to directions.

"I had tried so many things that I was very skeptical and had but little faith that Dodd's Kidney Pills could or would help me. However, I did not use them long before I found that they were all and more than was claimed for them.

"I have received more benefit from them than from any other medicine I have ever used, for they seem to have made a complete cure of my case.

"I feel as well as ever I did and have not the slightest trace of the Kidney Trouble that bothered me ever so long.

"I want to say that I believe that Dodd's Kidney Pills are the right medicine for Kidney Trouble, to everybody in this neighborhood, and there are but few who have not been aware of his serious illness.

"Everyone is delighted at his improved health, and his published statement has done much to make Dodd's Kidney Pills even more popular in this neighborhood than they have been.

Courtesy is merely the preliminary skirmish before the regular battle begins.

Good Things to Eat

EDUCATIONAL GROWTH

Master University has from its inception held a recognized place among institutions of learning.

Its growth in numbers has been remarkable, as has also the success of its graduates in business and professional careers. Recent additions have been made to its equipment.

Young men and women should write for a calendar to THE REGISTRAR, MASTER UNIVERSITY, TORONTO. 285.

THE CIRCUS GIANT IN THE STILL ACT.

"Oh, yes," said the old circus man, "we tried the great giant on stilts. As a matter of fact, his still walking was one of the greatest things he did; but for all that he did it only one season, on account of the risk to the giant involved in it.

"Of course, the still business was an outdoor act; and, as far as that goes, there wasn't always room for it even there; that is, where we wanted to give it. The giant's still walking was commonly done in our circus parade before the beginning of the show, the giant marching at the head of the procession. Whether he could do it depended on how the trees were along the line of march.

"I never'll forget the scare we had once in a town in western Ohio, when the giant was walking in the parade, over a runway along the line of march, a pair of horses hooked to a farm wagon. This farmer had got his team, as plenty more had for that matter, hauled up at the side of the street to see the parade go by, and the horses were all right, and they'd stay all right, if it hadn't just so happened that the steam callopie man started up a tune on the callopie just as he came abreast of them.

"That made all the horses around there start more or less, but it seemed to throw those two old plough nags plumb off their balance; and before you could think they were off on the dead jump along the street toward the head of the line, with the old farmer waving his arms as hard as he could, but without any sort of effect; and away they went, two wild horses, with a farm wagon swinging and bobbing around behind them and occupying pretty much the whole road, bearing straight down on the great giant who was walking in the parade.

"Did the giant get into this excitement? Not for a minute. Just one look back when he heard the clatter and what do you suppose he did?

"Why, he didn't even try to get out of the way. He just spread his feet, or rather, his stilts apart, so that the foot of one was in the gutter on one side of the street, and the foot of the other in the gutter on the other, and let the runaway team go under him between them!

"But slick and easy as the great giant had come out of this danger, the old man was all wrought up over what might have happened from it; and he said right then that the more straw and wood out of the still act for good. Funny, but we got that straw the very next day.

"In this town it was clear sailing for the giant along the route except for just one point, where two old trees with low hanging branches made the street impassable for him. But with only this one impediment we thought we'd let him go it; he could step around it.

"He came along down that street towering up on his stilts to the amazement, as usual, of all the boys, till he came to this place where he had to turn out.

"There was here at this point a broad stretch of brick-paved sidewalk, this being in front of the town hall. As he stepped up on that brick sidewalk out of his stilts slipped on the bricks—and the first thing you know, by golly, there was the giant with his stilts sliding around on that smooth pavement and he was waving around there in the air making a desperate effort to recover himself.

"It all came in a minute, but there he was, not falling apparently, and heaven only knew what harm he'd do himself when he went down. But the great giant didn't go down, or not in a way to hurt himself.

"This town hall was a kind of an old-fashioned, Colonial sort of a building, with a balustrade along the front of the roof just back of the eaves; and now when the stilts had slid and he found that he couldn't recover himself, the giant threw the stilts away from him and made a jump for the top rail of that balustrade along the edge of the roof.

"He intended to hang by that for a minute and then drop to the ground, as a boy would drop from a fence; and in fact that drop from the railing along the roof of this building would have been just about the same thing for the giant as the boy's dropping from a fence would be for him.

"Well, sir, he landed with his hands on the railing all right, and himself hanging down the front of the building, and was just about to let go when the railing gave way under his weight—it was old and rotten and punky—and the first thing you know the giant dropped with that balustrade coming a-topping down over his head after him.

"But the giant landed square and true, on his feet, quite unharmed; that rotten old wooden railing clearing him all right and going to smash on the pavement six or eight feet behind him.

"One of the stilts had gone through a window of the town hall and the other had killed a horse; but we were grateful they hadn't either of them killed some human being, and with the giant unhurt, and the entire damage to the town hall not more than \$75 or \$100 at the outside, we felt that we couldn't afford to feel pretty well satisfied.

"But the old man said, no more dithering with the giant on stilts; it might be a great act and all that, and drew the people; but we couldn't afford to take any risk at all with the great giant, and so that ended up the great giant's still walking."

Mule or—Officer.

One of the London weekly papers has just unearthed a queer army order. It deals with the machine gun provided for certain volunteer corps and advises that, where possible, "mules should be employed to draw them. When a mule is not available, however, it goes on, "any intelligent non-commissioned officer will do instead."

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

THE LARGEST WATCH.

Built Like Pocket Time-piece at a Cost of Thousands.

There has just been finished at the American Waltham watch factory a mammoth watch, the largest in the world. To build this gigantic timepiece several thousand dollars and several weeks' time. Special machinery and tools were required for its construction.

The watch is a model of the new model sixteen-size maximum, three-quarter plate watch, enlarged ten times, perfect in every detail and as highly finished as the finest watch.

The diameter of the plate is sixteen inches, and the movement is two and one-half inches thick. The balance wheel is six and one-half inches in diameter, and the balance spring which controls its action is eight feet long, .03 of a centimetre thick and .25 of a centimetre wide. When running the balance makes a vibration in .7 of a second. The pallet stones are of sapphire and exquisitely finished. The actuating screw is .03 of a centimetre long, .17 of a centimetre thick and .23 centimetres wide.

The mammoth model is as completely jeweled as a watch of the finest grade. The plate jewels, which are as large as the smallest movement, are about the size of a nickel five-cent piece, and the jewels about ten times as large. The wheels, pinions and other steel work is perfect, and the damascening on the plates is most beautiful. The pendant and winding crown are of fine bronze, brilliantly polished. Every portion is made on the exact scale of the watch it represents.

The movement stands on a bronze pedestal and from its base to the tip of the winding crown is twenty-six inches.—Boston Transcript.

Making a Score. (Fonks Statesman.)

The Man in Knickerbockers—Do you like short engagements? The Girl in the Street—Oh, my, yes; you get so many more of them in a season, if they're short.

The pitiless throb of neuralgia dies away when "D. & J." Method is applied for relief. It is complete.

A Little Part Herself. "You don't even know how to make a lemon tart," remarked the principal school girl, with fine scorn.

"It isn't necessary to make a lemon tart," replied the other. "All the lemons I've ever seen were pretty tart already."—Philadelphia Record.

A BOON TO HORSEMEN.—One bottle of English Spanish Liniment completely removed a curb from my horse. I take pleasure in recommending it to all horsemen. It is a most valuable remedy in the removal from horses of hard, soft or calloused hocks, blood spavins, splints, curbs, swellings, stiles and sprains. GEORGE ROBB, Farmer, Markham, Ont. Sold by all druggists.

Stops the Cough and Works Off the Cold. Laxative Bromo Quinine Tablets cure a cold in one day. No cure, No pay. Price 25 cents.

Hemp in the Philippines. The largest production of hemp for one year under cultivation in the Philippines was 110,000 tons. There is a possibility of the islands being made to produce sufficient for the consumption of the whole world. Hemp needs no cultivation. Care must only be taken that it be cut in the proper season. The natives cannot be excelled the world over in the preparation of hemp for the market.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up his work. The proprietors have much faith in its curative powers that they offer One Hundred Dollars for any catarrh that fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

The Live Lay Figure. Lay figures upon which to display clothing in shop windows have been in modern times enormously improved, so that the load ones are now far from presenting that woodenness of appearance that was once a common characteristic of them. But occasions have arisen when the merchant, going in for realism, puts in his window as a display figure, upon which to hang suits of clothes, a living man; and it is curious to see how such a figure will attract attention wherever he is seen. The same man is the same whether seen among other men in the street or elsewhere, among familiar surroundings, or in a show window. He attracts the eyes of many.

His Regrets.

She was young and romantic. He was a foreign nobleman and he wore a uniform, and over it a long blue cape that looked in front with the aid of two big gold eagles.

They had walked out to the very end of the pier, and the full moon was shimmering waves were full of suggestion.

She leaned over and looked down into the rippling darkness below. "If I threw myself in there," she said, in a voice that was almost a whisper, "what should you do?"

He leaned over and looked down, then he straightened back and smiled sweetly. "I should F--t--regret it," he answered suavely.—Life.

Deep down in country well and city water main are the seeds of dysentery and cholera waiting. Do not let them multiply in your body. Take Perry Davis' Pain-Expeller when your bowels begin to trouble you. It always cures.

Afraid of Dampness. (N. Y. Sun.)

"Why does he call that summer girl 'Flannel' because she is so warm?" "No, because she shirks from the water."

Minard's Liniment Cures Distemper. (Philadelphia Press.)

Though poverty certainly isn't a crime, we find in this strenuous strife, all those who are guilty are doomed every time To very hard labor for life.

Minard's Liniment cures Diphtheria. (Buffalo News.)

A teacher was addressing a small class of little boys and she asked them how many could tell where the home of the swallow was. Little John said: "I can. The home of the swallow is in the stomach."

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on each box. 25c.

PORTRAIT OF A QUEEN.

Alexandra, of Great Britain, Described by an American Girl.

Here is a portrait of the Queen by an American girl—it strikes me as delightful in its naïveté, and its frankness is charming. I am sure queen Alexandra herself would laugh heartily over it. It strikes me as the theatre to witness don't go to see the audience. I thought we were going to be disappointed and the curtain went up she and the King came in with some other people. She is rather tall and very sweet looking, but oh, so awfully thin. She has lovely blue eyes with a shine in them, like a portrait of MINARD'S LINIMENT, and sold him in four months for \$85. Profit on Liniment, \$54.

MOISE DEROSKE, Hotel Keeper, St. Phillip's, Que., Nov. 1st, 1901.

New York Central and Hudson River Railroad. The above name is a household word and the superior excellence of the road should be sufficient to attract most people, but now that the rate is the same to New York and points east as by other lines no further recommendation should be sought. Everybody will tell you it is the best.

WHY HE WAS ANXIOUS.

Was Afraid He Would Be Carried Past His Station. The conductors' room at the Broad Street station is a place where good railroad stories are told. They go on there after their train arrives, await orders, and often swap yarns. The following was told at a recent session.

"A long time ago, when trains travelled more slowly than they do now, and 'way' trains were common, two high officials got on, intending to ride out about thirty miles. They had a lot to say to each other and the train, which stopped at every woodpile, worried them a good deal. An Irishman recently landed got aboard a few miles out and added to their annoyance by his persistence in asking the name of every station that the train stopped at. After they had politely answered his questions for a dozen stations or so, one of them became angry, and said to him:

"See here, my man, if you'll kindly tell me where you're going, I'll see that you don't get carried by the place."

"The immigrant reached down into a capacious pocket and piled up a stack of about twenty coupons attached to the last one of which read Omaha."—Philadelphia Evening Telegraph.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for Piles, and every form of itching, bleeding and proctitis, the manufacturer has guaranteed it. See testimonials in the daily press and ask your neighbors what they have done for them. But if you get your money back if not cured. No. 6, box, at all dealers of EDMANSON, BATES & CO., Toronto.

Breathing Disease.

Infectious diseases are breathed into the system from those affected with disease or from bad smells; yet how many women breathe daily the offensive steam from common soaps made from rancid fats, and keep their hands for hours in such solutions, and the clothing from such soaps is worn next the tender skin. No wonder disease and eczema are prevalent! Users of Sunlight Soap—Octagon Bar—know the difference between that and the pure, healthful smell from the vegetable oils and pure edible fats in Sunlight Soap. 208

in the World's Wonderland. More remarkable discoveries in that wonderful part of the world, Egypt, says the Westminster Gazette. The explorers sent thither by the California Academy of Science, have found at Gilgeh, on the Nile, rows upon rows of graves dating back from the nineteenth dynasty in apparently unbroken record to the earliest prehistoric times. The bodies are mostly in wonderful preservation.

Minard's Liniment Cures Sarget in Cows.

HOT WEATHER DRINK.

B. F. Avery & Sons, of Louisville, Ky., describe as follows their experience in furnishing prepared drinking water to their workmen during hot weather, especially those employed in their forging, foundry and other departments where there is intense heat. They take stone jars or kegs, holding about 10 gal. of water, filled with water and a small quantity of oatmeal, rolled oats, or any other form of crushed oat in the water. This crushed oat thus used makes the water a remarkable thirst quencher. During the several years that they have thus provided drinking water they cannot recall a case of heat prostration or illness due to excessive drinking of water by men employed in their shops, where the heat is great. They also find that this water reduces the appetite for intoxicating drinks, and in general the effects are so excellent that their men are telling it to workmen in other parts of the city. The jar should be emptied and thoroughly cleaned every morning, as the oatmeal should ever night, and of course, the drinking cup also ought to be scalded and cleaned for obvious reasons each day. This water reduces the appetite for intoxicating drinks, and in general the effects are so excellent that their men are telling it to workmen in other parts of the city. The jar should be emptied and thoroughly cleaned every morning, as the oatmeal should ever night, and of course, the drinking cup also ought to be scalded and cleaned for obvious reasons each day. This water reduces the appetite for intoxicating drinks, and in general the effects are so excellent that their men are telling it to workmen in other parts of the city.
