ACCURACY
Absolute accuracy in dispensing
your Physician's Prescription is of the
first importance.
We appreciate this fully and con-
sequently a duly qualified and experi-
enced Chemist is always in charge of
our dispensing department. No pre-
scription leaves our store without be-
ing thoroughly checked by him. Like-
wise the drugs prescribed are always
of the best, in fact of standard quality
and purity. Greater care, better
drugs, more skilled knowledge could
not possibly be employed.
This, no doubt, accounts for the
large increase in our Prescription De-
partment, and the confidence which
the public place in us.

A few days ago, a Brockville lady
lost a rain-coat near Soperton, and an
adv't in the Reporter promptly re-
covered it. Some time ago a valuable
fur cap was lost at about the same
place and the Reporter brought the
finder and finder together without delay.
There are two morals to this: If you
have to lose anything, Soperton dis-
trict is a good place in which to drop
it, and if you wish to find what you
lose tell the people about it through
the medium of the Athens Reporter.

This week, Mr. Patterson, an expert
from Alexandria Bay, removed the
hoo doo that has hovered over Dr.
Little's handsome gasoline launch at
Charleston Lake ever since it was
launched. There was nothing of any
great consequence wrong with the
mechanism, a failure to give due at-
tention to some minor details having
caused the trouble. After making a
few adjustments, the power was turned
on and the boat acted beautifully. It
is a speedy craft and will far outstrip
anything on the lake.

The Reporter received this week a
brief note from Mr. R. Norton Crane,
late of the Guelph Agricultural College.
At the time he had advertised to buy
poultry in this section he received the
appointment of professor in the poultry
department of the Mississippi Agricul-
tural College, from which institute he
writes. Speaking of the cotton crop,
he says: "Cotton promises to be a big
crop this year. October futures are
now selling at 9.85 and will no doubt
reach 10 or 12. I am sending you the
first bowl I find open on college farm.
We have 3000 acres connected with
the college and about 750 students in
attendance."

An Ancient Foe
To health and happiness is Scrofula—
as ugly as ever since time immemorial.
It causes bunches in the neck, dis-
figures the skin, inflames the mucous
membrane, wastes the muscles, weak-
ens the bones, reduces the power of
resistance to disease and the capacity
for recovery, and develops into con-
sumption.

"Two of my children had scrofula sores
which kept growing deeper and kept them
from going to school for three months.
Ointments and medicines did no good until
I began giving them Hood's Sarsaparilla.
This medicine caused the sores to heal, and
the children have shown no signs of scro-
fula since." J. W. McGinn, Woodstock, Ont.

Hood's Sarsaparilla
will rid you of it, radically and per-
manently, as it has rid thousands.
