William Foreman & Co.

Linens!!

When Foreman talks linen he means linen, he never passes off a piece of union damask for pure linen. When he sells you a piece of union damask, he sells it as union damask. Just now the most of you are harvesting or preparing to leave for your summer home and it's the lower priced tabling you need. Here's a few excellent values in tabling:—

Tablings

64 in. Union Damask at per yard 25c.
70 in. Union Damask, extra value at per yard 37 1-2.
Unbleached table linen, 56 in. wide, and every thread linen, at per yard 35c.
Unbleached table linen, 64 in. wide, every thread linen, splendid range of patterns, at per yard 50c.

Towelings

Never had such a splendid stock of towels and towelings as we have at present—
17 inch all linen towelings at per yard 60c.
12 inch all linen glass towelings at per yard 50c.
A complete line of the better goods at 9c, 10c, 12 1-2c, and 15c.

BLENHEIM.

July 23.—B. Rothwell, general agent Continental Life, was in town yesterday.
Mrs. W. J. Agar, is visiting friends in Chatham.
Mrs. Arnold Brethour left to-day for a two-weeks' visit in Cleveland.
The bean crop in this section is suffering terribly for want of rain.
Our local bowling club journey to London to-day to take part in the day's bowling tournament being held in that city.

Bronchitis Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which, if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it out of the system. In winter it is almost impossible to do this. Inhale Catarrh zone regularly. It's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ-destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25c. and \$1.00.

OUR VISIT TO CANADA

Editor of the Danbury Review
Writes About his Trip to Ontario.

Re-visits his old home in Chatham—Notes the Thriftiness and Prosperity of Kent Farmers.

The following is an article written by J. E. McMullen, formerly an employee of The Planet now the publisher of the Danbury Review, of Danbury, Iowa. The article appeared in a recent issue of that paper:
The editor returned Sunday after an absence of two weeks rusticiating in the western part of Ontario, principally in and around Chatham, where his boyhood days were spent. The condition of that section is quite prosperous, and crops are a whole lot better, as they have had recent rains. Beans, plain, white beans, is the principal crop there, and the farmers are getting rich in raising them. Fall wheat which at one time was their staple crop is not the favorite now, as the grain from the great Northwest has deluged the market and brought the price down from \$1.00 and \$1.10 to 55c and 60c. The timber, beech, maple, oak and hickory is fast disappearing, and even the old time rail fence is giving place to wire, and the entire country gridded with railroads, both steam and electric, is fast becoming modernized so that in fact all things are becoming new. We noticed many farms bordered with what is known as the Osage Orange hedge fence. The hedge after a growth of three years when trimmed makes a very attractive appearance and so compact that no animal can go through. At present the Canucks are not discussing the English-Boer war to any extent, but we found it didn't take much to stir them up, and to a man they sympathize with the British crown. We saw a fine company of gallant red coats in parade march to one of the churches for service. July 1, Dominion Day, similar to our 4th of July, was observed throughout Canada in a fitting manner. For being in the hands of our friends was escorted to what is known as Erieau, what in time will be an enchanting summer resort on the shores of Lake Erie. There was nothing lacking for as our friends had brought everything both for eating and drinking, we didn't do anything else than have a good time. For bathing, Erieau is grand, and while the great waves rolled to and fro and to and fro we thought of our sweltering friends in Danbury and wished that a new game called "rolling on the green." A club is composed of four or more to a side, and each one has two large semi-round lignumvive he rolls to a goal, about fifty yards distant, and like curling both science of the eye and muscle and nerve are called into action. It is a fascinating game, and we were told it is fast becoming popular. A relic of the past that all visitors to Chatham must see is the hull of a small gunboat which was captured by the British at Ft. Detroit in the war of 1812. In retreating Harrison's forces drove Proctor and his Indian allies across Lake St. Clair and up the Thames river to a fort where Chatham is now located and where the brave but misguided Indian Chief Tecumseh refused to retreat further, and was killed by a ball from Colonel Johnson's pistol. To prevent the Americans from recapturing the boats Proctor's men set fire to them and they were sunk. By accident three were recently discovered and one of them was raised and placed in Tecumseh park where thousands view it with interest. Johnson, after laying in the water about 90 years. Our visit was one round of pleasure, but after all we are glad to be back in either Iowa and see the broad acres of a promising harvest despite the hot and sweltering weather.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only catarrh cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Sold by Druggists, 75c.
Hall's Family Pills are the best.
RICH AND POOR ALIKE use Pain-Killer. Taken internally for cramps, colic and diarrhoea. Applied externally cures sprains, swollen muscles, etc. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. 25c. and 50c.

CHILDREN Ory for CASTORIA.
DRESDEN.
July 23.—Miss Maude Walterworth returned home from Glencoe Saturday evening, where she had been attending school.
J. B. Carswell returned home from Hamilton Saturday, where he had been attending the Grand Lodge, A. E. & A. M.
Mrs. Fred Bodkin and family left yesterday morning for Clair City, Mich., and other points to visit friends.
Mrs. Jones, of Detroit, is visiting her parents here, Mr. and Mrs. Geo. Peat.

A Smash in

FOREST FIRES

At Least Half a Million Dollars Damage Has Been Done in the Kippewa District.

Ottawa, July 23.—The costliest and most extensive forest fire on record has raged this month in the Kippewa district. A gentleman familiar with the situation stated that the loss would be at least total \$500,000, and would probably run much higher. Heavy rains on Wednesday and Friday stopped the progress of the fire. As yet the owners have not had an opportunity to ascertain their losses. Gillies Bros., Braside, are probably the heaviest losers. Their limits, 300 miles in extent, were burned over. Alex. Lamsden, M. P. P., who has limits near by, covering ten square miles, loses heavily. The fire seems to have centred on the Lumsden-Gillies' limits. J. R. Booth, 400 square miles; the Hull Lumber Company, 300 miles; and McLachlan Bros., Arnprior, 300 miles, are other losers. The fire was fought off these limits with success, and only small portions were burned. The limits of the Hawkesbury Lumber Company near by escaped. Part of the limits visited by the fires had been cut off, and the timber destroyed was only young pines.

BOLD BURGLARS

That's What These Lads Started out to be, but the Woodstock Police Interfered.

Woodstock, July 22.—The Woodstock police had a long afternoon's chase after two supposed burglars yesterday that ended sensationally in one resisting arrest, and shots being exchanged between him and Police-man Johnson. On Friday night three houses were burglarized on Oxford street, the only booty secured being a gold watch, some spectacles and a ring. Early yesterday morning Thos. Dalton, of St. Thomas, a vagrant, was arrested on suspicion, and three revolvers were found in his pockets that were evidently new. His companion, got away from the officer who made the arrest, and all Saturday afternoon constables scoured the country west of the city, and finally caught sight of two men on the C. P. R. tracks at a distance of half a mile, one of whom wore clothes similar to those of the man they were searching for. They endeavored to steal upon them, but the fugitives maintained the distance, and finally Policeman Johnson secured a rig, and taking a roundabout route, headed the two men off on the C. P. R. tracks close to the city. By a ruse he got close up to them, and with a shout, "Stop, Broden, and Morgan to secure the nearest man, Bert Dickson, of London. The other, Wm. Morgan, of Woodstock, sprang away, and leaving Broden in charge of Dickson, the policeman sailed after him. "Stop or I'll shoot," he yelled, and Morgan cried back to shoot away and be damned. The policeman fired twice, and Morgan, pulling his gun, returned the shots, with no effect on either side. Throwing away his revolver, Morgan led Johnson a long, stern chase through the side streets of the city, followed by a mob of people on foot and bicycles. Thoroughly done out, he sought refuge in his mother's second-hand store on Dundas street west, which was surrounded. Morgan came out upon the steps when preparations were being made to enter, and surrendered. Both Dickson and Morgan carried revolvers, and half-burnt candles were found in their pockets. The prisoners are mere boys, only about 19 years of age, but they are said to have had records. They will be held upon suspicion of being the parties responsible for Friday night's burglaries. Morgan claims the policeman shot him through the sleeve.

Cure Yourself of Rheumatism
The application of Nerviline—nerve-pain cure—which possesses such marvellous power over all nerve pain, has proved a remarkable success in rheumatism and neuralgia. Nerviline acts on the nerves, soothes them, drives pain out and so gives relief. Try it and be convinced.

Address, F. J. CHENEY & Co., Toledo, O.

CUPID'S CAPRICE

Lovers Captured Here and Trip Cancelled—Groom May go to Prison.

Port Huron, Mich., July 22.—Albert Hastings and his 16-year-old bride were brought back from Chatham, Ont., Sunday night, by Deputy Sheriff Shannon, and to-day in police court Hastings pleaded guilty to a charge of perjury. The young couple have had a romantic jaunt.

Several weeks ago the young man, accompanied by Jesse Van Camp, father of the proposed 16-year-old bride, applied for a marriage license, which was issued. At that time he gave his age as 21, and stated that he had not been married before. Before the marriage ceremony it was learned by the parents of the young girl that Hastings was an impostor and had a wife living. The marriage license was returned and destroyed, although the affidavit was saved. Hastings was warned to keep away from the house. One night the young couple disappeared and they were traced to Canada.

A search of the record showed that a license had been issued to Hastings in 1899 to marry a young woman, and at that time he gave his age as 21. The case was placed in the hands of the officers and they succeeded in locating Hastings near Chatham. He volunteered to return to the city, accompanied by his bride. He has been bound over and a term of years starts him in the fall.

DREAD DISEASE

British Congress Aiming to Combat Consumption Opened in London.

London, July 22.—The British congress of tuberculosis, for the prevention of consumption, was opened to-day, by Field Marshall H. R. H. the Duke of Cambridge, president of the congress, who welcomed the foreign delegates to the congress, and spoke of the interest taken in the congress by King Edward.

Lord Lansdowne, the Foreign Secretary, also welcomed the delegates, and in the name of the Government promised all the assistance the Government was able to afford the congress in its endeavors to combat a disease more desolate than war. After the Lord Mayor of London, Frank Green, Lord Strathcona and Mount Royal and others had addressed the congress, Lord Lister, one of the British vice-presidents of the congress, in a few words conveyed the thanks of that body to Prof. Robert Koch, of Germany, and the other scientists present for their welcome, saying they knew the enemy they had to deal with, and that it was not only the prevention but the cure of consumption that the congress hoped to effect.

A telegram was read from King Edward to the Duke of Cambridge, as follows:—"I pray you heartily to welcome for me the eminent men of almost every nation who have assembled under your presidency, and to express to them my earnest hope that the result of the deliberations of the congress will be to assist the world in mitigating the dread disease which has baffled the most distinguished physicians for so long." Prior to the adjournment of today's session of the congress the Duke of Cambridge announced that a gift of £120,000 would be forthcoming for the purpose of establishing the first public tuberculosis sanatorium, as soon as the recommendations of the congress concerning its establishment had been formulated. Fifty hundred delegates attended today's opening session. They included a number of Canadians and Americans. Several ambassadors and foreign ministers were also present.

When the Baby Cries at Night

there is a cause for it. Perhaps it is gas on the stomach, may be cramps or diarrhoea. Don't lose sleep, anticipate such contingencies by always keeping handy a bottle of Polson's Nerviline. Just a few drops in water given inwardly, then rub the little one's stomach with a small quantity of Nerviline, and perfect rest is assured for the night for both mother and baby. You may not need Nerviline often, but when you do need it you need it badly. Get a 25c. bottle to-day.

WOULD DIE

Young Lovers Shoot Themselves in the Throat at New York.

New York, July 23.—Herman Treetz and Ida Depuy, who were found wounded in a yacht off Midland Beach Sunday, are in a New Brighton infirmary in a serious condition. Both have bullet wounds in the throat, the girl two and the boy one. He is aged 18, while she is 16. According to Treetz's story, they agreed to die together. He says the girl shot herself first, and then he used the same weapon on himself. Treetz is under police guard. Ida Depuy died at the infirmary yesterday. She did not regain consciousness, and therefore made no statement. Her family were at the bedside when she died. They decline to accept Treetz's statement that the girl shot herself, and will ask that he be prosecuted for murder.

VICTORY

Maple City Tennis Club Finally Triumphs Over Ridgeway.

Ridgeway tennis players met a Waterloo here yesterday at the hands of the Chatham club, the local players winning every event in the league's power. The following is the score:—Singles—Fraser, Chatham, beat Reycraft, Ridgeway, 6-1, 6-0; Martin, Chatham, beat Routledge, Ridgeway, 6-1, 6-0; Gunn, Chatham, beat Whitman, Ridgeway, 6-0, 6-2; H. Husson, Chatham, beat Gray, Ridgeway, 6-0, 6-1. Doubles—Morpeth and Fraser, Chatham, beat Reycraft and Routledge, Ridgeway, 6-0, 6-1; Mussen and Gunn, Chatham, beat Gray and Whitman, Ridgeway, 6-4, 6-1.

DRIVEN INSANE

Heat Causes a Woman to Try to Kill Her Husband With an Axe.

St. Joseph, Mich., July 23.—During the past 24 hours four prostrations have been reported to the authorities. Mrs. C. M. Cornwell, of Chicago, died; Frank Furlong went insane; Frank Baker, of Chicago, fell from a bicycle in a faint.

The fourth victim was Mrs. Charles Hanson, who went insane at last night and drove her husband from the house with an axe. Before she could be quieted she destroyed all the furniture and windows in the house with the axe. The temperature registered from 102 to 104 in the shade.

PAIR OF SUICIDES

Windsor and Stratford Women Take Poison with Fatal Effect.

Stratford, July 22.—Violet Sophia Youngs, aged 32 years, only daughter of ex-Mr. Benj. P. Youngs, took her life on Saturday night. In the evening she was apparently in good spirits. Just after retiring she asked her mother for a glass of milk. On her return Mrs. Youngs found her daughter in violent paroxysms, and despite medical assistance, which was called as soon as possible. It appears the woman purchased the strychnine on Friday, saying it was for the purpose of killing rats. Miss Youngs had been in poor health for some time, and this is the only reason assigned for her act.

TOOK PARIS GREEN.

Windsor, July 22.—Louise Marguerite, the 17-year-old daughter of John Galt, McEwen avenue, got permission on Saturday to visit a friend near Sandwich. Yesterday afternoon her body was found in a box filled with Paris green. She had committed suicide by swallowing a large quantity of Paris green. The girl bore a good reputation. She had had trouble with her father on Saturday, and was independent because of the absence of her lover. An inquest will be held.

—If you are losing appetite, lying awake nights, take Hood's Sarsaparilla—it's just the tonic you need.
