Yew don't say! exclaimed Mrs. one fact to reconcer is that tat is carbon—oxygen destroys or burns out carbon. You must consume the carbon by the oxygen you take through your lungs. The bottom of the skirt should out carbon. You must consume the carbon by the oxygen you take through your lungs. The Least expensive of all materials more exercise the more oxygen are the cool sheer printed lawns, special staterooms of the steamer are the cool sheer printed lawns, special staterooms of the steamer Boston' have been secured.

> The more starch and sugar you eat the more carbon to burn away.

Individuality is the keynote of the twentieth century, and women's fashions are no exception to the or wash lace for trimming. rule, says a writer in the Boston Sunday Post.

A dozen quite different styles and silhouettes are simultaneously in vogue.

This was forcibly illustrated at recent fashionable function,where three pretty girls were seat ed at the same table.

One girl wore an 1830 gown of organdie with Pompabour roses

Another in the group wore a hat of the new "Continental" shape, with its three-cornered crown.
