soon, giving all the necessary particulars to those who may desire to forward exhibits.

The Princess Christine, elder sister of the late Queen Mercedes, whom the European gossips have selected as King Alfonzo's second wife, is described as tall, thin and angular, with a pointed nose of portentous about 50 years of age, of middle stature, with limensions, but she is also said to be graceful and elegant in carriage and address, accomplished and possessed of strong character.

man of remarkably good common sense, and from the late Princess Alice was a woman of fine mind and much literary taste. She was so far free from prejudice that in spite of herserious religious feelings, she had a hearty friendship for David Frederic Strauss, the famous author of "The Life of Jesns." One of his best works, the "The Life of Voltaire," consists of lectures which he read before the conservation with European visitors of which her each server the consists of lectures which he read before the conservation with European visitors of which her each server the conservation with European visitors of which her each server the consists of lectures which he read before the conservation with European visitors of the visit of the visit

ment of foreign complications may present more features of interest to the general public, but the end of this Colonial complication would be a matter of much more importance to the hundreds of thousands of Englishmen who have made Victoria their home, and to whom the termination of the present strife would present a new era of prosperity and advancement for one of the foremost of our colonies.

Wellington. His sense of numor was very great. "I know I am a savage," he said one more importance to the hundreds of thousands of Englishmen who have made Victoria their home, and to whom the termination of the present strife would present a new era of prosperity and advancement for one of the foremost of our colonies.

Wellington. His sense of numor was very great. "I know I am a savage," he said one furthering the settlement of the country, it would be arry out the plan that has been repeatedly arry out the plan that has been repeatedly their surveyed blocks, they will probably be compelled to put a value upon the lands, and abandon the policy of giving them away in would not make so much off me." He affected not to be impressed with the beauty of English ladies, and several times remarked.

The moreometric for relative forms and so of the country, it would for the country, it would for the country, it would stream that has been repeatedly the plan that has been repeatedly to make roads through the plan that has been

codish rapidly, they were suddenly surprised to see that their boat, which was 20-feet long and had been secured with a 20-pound anchor, was moving rapidly out to sea. They Prohibition principles are carried out in Connecticut as strictly as the most rigid adwhale, whilen that some week and the rope and was pulling them along at the rate of 25 miles an hour. The boat was in imminent danger of upsetting, but at last one of the med managed to crawl forward and one of the med managed to crawl forward and cut the rope. The whale then made off, leaving a long wake behind him, for he swam very near the surface. So rapid was was well as the most right addesire, towns, and settlements, and knowing that a construct as strictly as the most right addesire. Towns, and settlements, and knowing that a construct as strictly as the most right addesire. Towns, and settlements, and knowing that a construct as strictly as the most right addesire. Towns, and settlements, and knowing that a construct as strictly as the most right addesire. Towns, and settlements, and knowing that a construction of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of forely construction that the line is the most right and the rate of total abstinence could desire. Towns, and settlements, and knowing that a construction of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of forely construction of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of forely construction of the proposition of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of forely construction of the proposition of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of forely construction of the proposition of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of the proposition of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of the proposition of the best available land is in the hands of the New Brunswick Railway Company one is struck by the want of the proposition of the boat's motion that the lines, to which were attached pound sinkers, trailed straight out on the surface of the water.

These blocks cannot always be allowed to that should be taken against him, consented to "take the responsibility." It is well for the way of settlement. Sooner or take the responsibility. The set blocks cannot always be allowed to "take the responsibility." It is well for the way of settlement.

bravery on the part of two British sailors, at the burning of a ship in the river Adour at Bayonne:—When the French ship Melanie blew up with 500 barrels of petroleum on board, the captain of the Annabella Clark,
