COPENHAGEN, June 15.-The Privy Council have refused to assent to the German claims.

THE MODERN BABYLON .- The census in England is all taken in one single night. It discloses some interesting facts concerning! the city of London. In this city, there were, on the night of the taking of the census, 2,362,236 persons-1,106,-558 males and 1,254,678 females. The number of widowers were 37.089, ---widows 110,076. On the night of the census there were 28,598 husbands whose wives were absent, and 39,231 wives mourning their absent ords. London is the healthiest city in the world the annual deaths only averaging 1 out of 40 inhabitants. It is the most densely populated city in the world. If the population were drawn up in marching order, two and two, the length of the great army of Londoners would not be less then 670 miles. One hundred and sixtynine people die daily, and a babe is borne every five minutes.

The Atlantic Submarine Telegraph.-The alterations in the United States corvette Niagara Captain Hadson, are nearly complete, and today she is to leave Portsmouth for Liverpool. to ship her portion of the great Atlantic telegraph cable. Six cabins, a portion of the steerhave been thrown into the area required. There of it at least, which has been enclosed and plankalso on the deck, and this will be covered with sheet lead, and be laid with about 500 miles of cable A The stanchions under the beams are secured by iron trueses; the fore-hold is also undergoing the like alteration, and one of the coal bunkers in the fore-hold has been knocked away to give additional room, temporary bunkers main deck.
