The friends of John McVicar will remained since he was six years.

Fred. C. Macdonald has returned from attending Trinity College, Toronto. He shows traces of having studied hard:

Robt. Anderson, of the Goderich Artificial Stone Works, has in preparation a large contract of ornamental stone for the editress, Miss Seegmiller. Sciopticon views of a very interesting character were shown by S. P. Halls, aided by patent tinters. The effects were very good, considering the hurry with which they had to be exhibited. During the evening J. C. Robertson, gold metallist of Toronto University, and a former member of the society, received an ovation as he entered the room, and the applause was could not attend the funeral.

Robt. Anderson, of the Wanderer's Riewels club. Turnito, is in town with speech, and was again warmly received.

A brief and suitable address was also given by T. McGillicuddy. Much interest centred in the awarding of the prizes. est centred in the awarding of the prizes. all of which, with one exception, were captured by ladies. The following is the prize list: Essay—I Miss L. Blair, 2 Miss M. Seegmiller. Roading—I Miss Strang, 2 Miss Start. Recitation—I Miss K. Macara, 2 Miss Maggie Cameron. French prize effered by A. J. Moore, won by John Swanson, who has been studying the language only since last fall. The prizes were handed to the winners by Mr. Strang, who also conducted the literary exercises. Mr. Halls superintended the business routine. The society adjourned by singing in The society adjourned by singing in right royal style, "Auld Lang Syne."

Bad News for Landlord

It has been our fortune to indulge in house moving during the week.
On Friday our new landlerd was removing some articles left by the former tenant, and called in the assistance of a young man living in "the wild."
"It's a dang good thing you got a man to move into this house," remarked the

'How's that ?' asked the landlord. "It would hav been sot on fire," said he other.

"Sot on tire ?" re-echoed the landlord.

"Yes, siree; there's a lot of feller's who are agoin' to have all vacant houses in town sot fire to."

The landlord looked at his newtenant,

and heaved a deep sigh of reflef.

But isn't this deleful news for owners of vacant houses ?

"It Wasn't a Lively Time.

A couple of our residents were specu lating upon the probabilities of a rain storm on Monday last, while standing on the corner of West street and the Square, when they were accosted by an Ashfield man who had come to town to see the

FROM DAKOTA.

An Old Resident of Goderich Gives His Im-pressions of the Country.

Lamoure, June 20th, 1883.

To the Editor of THE SIGNAL.

DEAR FRIEND,—As I promised to send you a letter, and, as I am nowquite satis-fied with my trip, and also taken up with the country, and especially the class of citizens and friends here, and wishing it would be known to all my friends in Goderich, I am going to tell you all from the time I started till I landed here. I left Goderick on Monday morning, and got to Duluth on Thursday. We had an excellent trip all the way up, and I heartily thank Capt. Ed. Robertson, mate and purser of the boat. They favoured me well, and when I landed at Duluth the well, and when I landed at Duluth the custom house officer didn't puzzle me. I hired a car there for Jamestewn, costing me \$40, and I would not have begrudged it if I had nothing to do but to see the beautiful scenery from Duluth to Jamestewn. First are the deep cuts and beautiful little valleys and green timber to Brainard. I thought there could not be a prettier place than Goderich, but that took my even and from there to Farge ok my eyes, and from there to Fargo were still prettier patches of timber here and there, broken by small lakes and a beautiful green prairie. I could hardly believe my own eyes. Fargo is about 3 times the size of Goderich, and a fine place with e cetric lights. You can read the newspaper in the streets the darkest night. From there to Jamestown, 93 miles, is nothing but the level prairie without a stump nor a stone to be seen, but fine fields of wheat, cats and barley. It seemed to be like the ocean, I can't fully tell how it looked, but it's tar shead fully tell how it leoked, but its far ahead of anything I ever aw; and Jamestown caps them all. It lies in the valley of the James river, 45 miles from face. I thought I was going to have a hard trip of it, but I never in my life enjoyed myself more than I did coming out here. I hired two teams and got my stuff taken down here. We followed the valley all the way, and I can't describe the beautiful assence of the James gives valley. It the way, and I can't describe the beautiful scenery of the James river valley. It ranges from 3 to 5 miles wide with clumps of timber here and there. I did not believe that the country was so far advanced. As it is, every body is busy, building, ploughing and improving. There is a good honest hard working class of people here, and I honestly believe there is over \$5 in circulation here to one cent in Ontary. Every town I lieve there is over so in circulation here to one cent in Ontario. Every town I saw was fairly alive. There have been over 800 buildings put up in Duluth this spring, also in Brainard, Fargo and Jamestown, and as for this place, they are building as fast as they can get material in additional time. There are over 300 reams

left there four years ago, and was one of the pioneers here, has a fine stone house 18x26, 10 feet high, and that is Angus Mathesov. He is a good sharp, lively, go-ahead fellow, and deserves credit, and finds that stone is cheaper than lumber, which costs here from \$35 to \$70, per 1,000. And it costs more to build a small house here then a large one in Or small house here than a large one in Ondearer than they are there. I am grieved that I was not out here before now, and I give my friends this advice, and "Who is that man with the powerful also to whom it may concern, I would advise any man that has no land to come here if he can, or any one that rents come, but an old man that has a good home and out of debt, you had better ie fair questioner.

"And rimging the bell?" queried the rich. I have read in some of the eastern papers since I came here, of such great "Yes. And he calls out the games with so powerful a voice."

"Oh, that's Jack Robinson."

"And hasn't he a noble voice?" said the young lady, admiringly. average here last year 38 bushels to the acre of wheat. Potatoes—I never saw the beat of them, and all garden stuff. As for apples they have none here yet, but there are lots of wild plums. This is just as good a place as Canada for farming. It rained three times since I came here and the crops look good. They have good showers occasionally. I was well treated by the officer at Duluth, Edward Patterson, and at Jamestown by Sanford A. Shaw, formerly from Stratford, and he told me he has saved over \$10,000 in the last five years. He now keeps the Commercial hotel, and is doing a good business. It would take a week to write all, I would wish to say, but I will stop and let others testifiy to some-

> WM. McCAIG, Milk man from Goderich. A note from Mr. Angus Matheson on the same subject will appear next week.

thing. I remain yours truly,

BIG STRAWBERRIES. -The strawberry outlook for the season is said to be extremely favorable. Local reports of strawberries two, three and four inches I bait a occasional hook. - Tom in circumference are coming in from all directions, but New York reports throw all these in the shade. A dealer in conversation with a reporter of one of the leading papers said: "Here is one that measures thirteen inches in circumference, and the man who shipped it to me picked ninety quarts from one patch that averaged ten berries to the quart. But the trouble is we can't get a price for them. Those berries should bring from 20 to 40 cents a quart, and it is hard work to get 15 cents for them, while nearly all the berries that arrive are double the usual size, and 8 and 10 cents a quart is the best we can get for them,
