

## SAVING CLOTHES

is saving money.

Using Sunlight Soap is saving money, because it saves your clothes. You might spend a few pence less on buying inferior soap, but you would spend many shillings more on your clothes. Spend the pence in buying

## SUNLIGHT SOAP

and so save the shillings on your clothes. Sunlight Soap is guaranteed pure, and will not injure the finest fabric.

peated tests, that the disease was a contagious one, brought about by the presence of a parasite which he had discovered in cancerous growths. He said he had procured a vaccine with which he had healed numerous most serious cases of cancer.

His treatment, he says, brings about immunity against further attacks. The immunization is accomplished by a serum obtained from animals in the usual manner.

Dr. Schmidt requested the medical society to appoint a commission to test his processes, and he promised to place every thing at the disposal of the commissioners.

## Novel Way of Evening Living.

Young Man Surrenders Seat to Ladies, Gets Tip.

Berlin, June 3.—Here is the latest way of making a living: A well-dressed young man, keen of wit but short of funds and wholly without work, took his seat in a street car. By and by a woman, laden with many bundles, got on and swung to a strap in front of him. The young man got up and gave her his seat. Also, he had an idea.

He bought a monthly ticket that entitles him to ride continuously on certain lines. Selecting stout women, package-laden women and girls, scholars with arms full of books and other persons who would rather sit than stand, he made them his customers. To these, as the car filled, he surrendered his seat, plainly stating that he expected a tip in return. He generally got it, and has been able, he says, to make a fair living.

## Picture Palace.

For The King's Children.

New York, June 5.—A London cable says: A cinematograph theatre is to be installed at Buckingham Palace for the benefit of the younger members of the King's family and their friends. The primary reason for this decision is that the King and Queen regard cinematograph entertainment as of high educational value. A small salon has been set apart for the purpose and the canvas will be comparatively small, but the apparatus will of course be of the best description, and the juniors of the family are keenly looking forward to having a picture palace on the spot. The work is not to be put in hand until their Majesties leave London for Cowes.

## Mother-Love.

My Michael—God was good to him! he went across the sea; And it's shilling, shilling, shilling, that he's sending home to me! And 'Tis my dear Michael's hand; He says that money's plenty, and that O he loves the land! But yet I think the lad is safe, for "Mother when you write, Just tuck a bit of shamrock in," he said, and then "Good-night."

I put the shilling all away (herself knows how to save!) Not knowing when the call will come to cross the cruel wave! But, Michael, dear, I'll come to you; 'Tis there that I belong; For cross the sea from you to me, the mother-love is strong! He says the grass is just as green, the sky is just as blue, But Ireland! O the heart of me I leave along with you! —Gerturde E. Heath.

## Do Winnipeggers Ever Sleep.

Washington, D.C., June 3.—Real estate brokers are wondering whether the Canadians in the neighbourhood of Winnipeg ever sleep.

A large party of Washington men contemplate attending the sixth annual convention of the National Association of Real Estate Exchanges at Winnipeg, and are astounded at the fact that the entertainments begin at 7 o'clock in the morning and last until 10 o'clock at night.

It has been explained that Winnipeg sunrises are scheduled for 3.30 a.m. in the month of July, and Washington men here declare that unless they stay up all night they will never be able to partake of a single Winnipeg breakfast.

## Inventors Wanted.

There are big prizes going a-begging nowadays to be picked up by men with inventive turn of minds. The International Association of Recognised Automobile Clubs, for example, is offering £20,000 for a reliable substitute for gasoline. The substance must be of such a nature that it cannot be monopolised by a trust, and it must be capable of use in existing internal-combustion motors.

The British Society of Motor Manufacturers and Traders is offering an additional prize of 2,000 guineas should the fuel be manufactured from some substance produced in Britain.

Two thousand pounds is being offered in America to the inventor of a machine for pulling and topping sugar beets; whilst in France £4,000 is waiting for the man who can produce a genuine cure for one of the common every-day diseases.

The American Red Cross Society has at its disposal various sums ranging from £100 to £600 for devices which will ameliorate the sufferings of the sick and wounded in time of war; whilst £20 will be given by the Royal Society of Arts to the inventor of portable apparatus which will simplify rescue work in mines.

But, in addition to such opportunities as those, it must be remembered that five "Nobel" prizes, worth about £10,000 apiece, are awarded annually to the persons who have done most in the cause of physics, chemistry, literature, medicine, and peace.

## PRESCRIPTION "A"

CURES INDIGESTION & DYSPEPSIA IN ALL ITS FORMS.

It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing."

I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Prescription "A". A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON,

Foot of Theatre Hill, STAFFORD'S PHARMACY, Duckworth Street. Trial size, 25c.; postage, 5c. extra. Large size, 50c.; postage, 10c. extra. Prescription "A" is also for sale in every outport. June 2, 1913.

## Appointed Head of Truro College.

Halifax, N. S., June 5.—Professor J. M. Freeman, of the Dairy Department at the Connecticut Agricultural College and one of the leading experts in his line in America, has been appointed professor of Agriculture, and farm superintendent at the Nova Scotia Agricultural College at Truro. He is a native of New Brunswick.

## UNION

## JACK.

UNION JACK. TOBACCO

What about your baseball outfit? What about your Tags? What about getting a move on?

Don't be shy, just fill your pockets up with those Union Jack Tags, then make a bee line for the Imperial Tobacco Factory.

Dump out your Tags and choose your premiums; then make for a diamond and dig right in.

UNION JACK. TOBACCO

## Abject America.

We take all the sass the cheap nations can spring, we are so intensely afraid that if we resented an insult or fling, it might have effect on our trade. They knock off our hat and they tread on our feet, and, though we are weary and sore, we turn with a smile that is saintly and sweet, and ask them to kick us some more. We hand out red tape to the pestilent chaps who kick till our coat tails are frayed, for if we should frown on insulters, perhaps it would put a crimp in our trade. It challenges the world, once, in dominant tones, this country now greasy and fat! Alas for the days of Decatur and Jones, when we scrapped at the drop of the hat! But Commerce is sacred; we might lose a yen if we should get mad.

for a while; so come, friends, and kick us, and kick us again, and gaze on our heavenly smile. Time was when the flag of this land of the free, which now is the emblem of Trade, protected its people, on land or on sea, however remotely they strayed; but gone is its prestige; it's drooping and sick, it waves over shop-keeping men, who never hit back when they're slugged with a brick, so come, friends, and stave us again.

## Cancer Contagious

But It Can Be Healed, According to Cancer Expert.

Cologne, Germany, June 3.—Cancer has been proved to be a contagious disease, caused by a parasite, and it can be healed, according to Dr. Otto Schmidt, the cancer expert, who reported at a meeting of the Medical Society here, the results of his investigations into the origin of and the possibility of curing cancer.

Dr. Schmidt declared that he had proved through experiments and had confirmed his findings by means of re-
