LONDON, August 18.
A Constantinople despatch to the Times, reports the Russian warships Rostetav and Kagme, stationed on the Bosphorus, left last night for an unknown destination, probably Sebastopol. The news of their departure was not believed in Constantinople until it was confirmed by officers of warships in the Black Sea toward midnight, steaming northward. The Russian Ambassador ordered the Admiral yesterday to sail for an unknown destination, adding that instructions would reach him on the high seas. The belief is expressed that the departure of the warships is probably connected with the Adriatic question.

Baseball.

A general meeting of the Baseball League was held last evening at the Imperial Tobacco Co's offices. The postponed visit of the city team to Grand Falls to play the paper town boys was discussed. The regular League games will be continued tomorrow when the Red Lions and Shamrocks will meet at 9:30 a.m. and the Wanderers and B.I.S. at 11 a.m. The teams will line up as follows:

Shamrocks	Red Lions
Callahan	Pitcher
Scavour	Catcher
Gravese	1st base
Parsons	2nd base
Goodland	3rd base
Power	Shortstop
O'Neill	Right field
Callaban	Centre
Waterfield	Left
Wanderers	B.I.S.
Brown	Pitcher
Ford	Catcher
Wallace	1st base
O'Flaherty	2nd base
Fritchard	3rd base
Hartnett	Shortstop
Smith	Right field
Rice	Centre
McCrindle	Left

Throws Babies From an Auto.

Tarrytown, N.Y., Aug. 12.—One woman was hurt badly, two others were injured and three children were saved by a mother's presence of mind, when a big seven passenger automobile got beyond the control of the owner, Lee Levy, of Brooklyn, yesterday afternoon when coming down the Arch Hill. The accident happened directly in front of William Rockefeller's estate. Mr. Levy, who is a real estate dealer in Brooklyn, started for Poughkeepsie yesterday morning from his Brooklyn home with his wife, three children, Mrs. Rosses Baird, Robert Baird and Miss Lena Perski. Just before Mr. Levy reached the Arch Hill brick road a rain fell, making it slippery. Near the bottom the automobile kept gaining momentum, and Mr. Levy, who only had had the automobile three weeks, became frightened and put on the brakes. The result was that the automobile skidded, spun around three times on the pavement and then turned completely over into a ditch. Mrs. Levy, who sat in the tonneau, was tossed over a stone wall into the grass her infant child, her daughter Clara and Robert Baird, and her act saved their lives. The women and children were taken to the Tarrytown hospital. Miss Perski had a broken collarbone and arm. Mrs. Baird, who was sitting beside Mr. Levy was only shaken up, but Mrs. Levy was badly bruised.

GENEVA, August 18.
Senor Sarak, Mexican Consul here, has disappeared, leaving his big debts behind him. He borrowed money to a large amount at Geneva, and unless the Mexican Government settles his debts, a warrant will be issued for his arrest.

LONDON, August 18.
The retirement of Lord Strathcona from the High Commissionship, which has been so often announced which has been so often announced shortly, according to the newspapers here to-day. His successor will probably be Hon. Clifford Sifton.

LONDON, August 18.
Walter James Page, the United States Ambassador called at the British Foreign Office and saw Foreign Secretary Grey, to whom he tendered the regret of the American Government for the recent attack made on the British Foreign Office by Henry Lane Wilson, U. S. Ambassador to Mexico. The incident is now regarded as closed.

LONDON, August 18.
According to the Daily Express, while the police were making enquiries concerning an Egyptian at Oxford, recently, an undergraduate revealed a plot to kill Lord Kitchener, through the medium of an Egyptian secret society. The matter was taken to the Foreign Office, which made investigations and found that certain Oxford students had been prominent in seditious circles in London. Kitchener has been warned.

LONDON, August 18.
The Morning Post commenting on Canada and Imperial Defence, supposes that Sir Ian Hamilton's report means that if the scientific paper organization does not hang fire, the Canadian school boy will be given a compulsory training. If the boy, the paper asks, why not the man. School teaching while valuable, does not create recruits, and if Canada is satisfied with this sort of thing there will be a rude awakening should war ever break out. It is a serious sign of the times, it adds, when an officer of such responsibility as an Inspector General makes such opera bouffe recommendations.

Your Duty.

Nothing to do with the Custom House, good friend. Its only reference just now is to yourself. Let us suppose that you are a man of family with sufficient of the world's goods to keep them in comfort. Very well, you did not reach this satisfactory state of affairs without care and labour—few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too late then to talk of prudence; too late then to say: "If I had only, etc., etc." That "it" means too much to many forgetful people. Is it not always the duty of a self-respecting citizen to protect his home and thus provide for those within it. Is it any more than his duty to those depending on him to protect them as far as possible. Can you call your property your own when it is not insured? The answer to this argument is to carry insurance with Percie Johnson's agency, the most popular office in Newfoundland and the least expensive.

Tariff Bill Makes Very Slow Progress.

Washington, August 12.—Democratic leaders in the Senate are considerably perturbed over the failure to make progress on the tariff bill, and for several days informal conferences have been held with Progressive Republicans and regular Republican leaders in the hope that some means to hasten consideration of the measure might be found. It is stated, however, that nothing definite has been accomplished. Meanwhile consideration of the bill drags on. Yesterday little progress was made, several paragraphs of the metal schedule being under discussion, chiefly lead and cast iron pipe, which the Senate finance committee transferred to the free list, striking out the House rate of 12 per cent, was discussed by Senator Clark of Arkansas. He said this product was so controlled by combinations that unfair prices were artificially maintained. He urged that a free market be given to foreign manufacturers to break up the controlling American combination.

Garden Party To-Morrow.

The Garden Party to be held at Ferryland to-morrow, in aid of the new convent of that place, will give the lovers of nature a splendid opportunity for viewing the varied scenery of lake and wood, and bay, which abound on the new Trepansey Branch. While the Garden Party will afford an opportunity for a most enjoyable and health-giving outing, those who participate in it will have the gratification of knowing that they are contributing towards the advancement of a most desirable object, namely, that of education. The old convent and school in which the devoted and self-sacrificing Sisters have been teaching since the establishment of the Order at Ferryland, has outlived its day, and it becomes an absolute necessity to replace it by a new one. To this end the venerable and popular Parish Priest of the district, the Rev. L. Veriker, is devoting his best efforts and for some time has been working unceasingly for its accomplishment, and no doubt those in the city who can afford to do so will co-operate with the zealous pastor in so praiseworthy an object. It is not necessary to speak here of the good work of the devoted women, the teaching Sisters. Wherever they are established the character of their work is impressed upon the children, whose moral and social welfare is the sole object of their life work. No doubt a great number from the city will be present at Ferryland to-morrow where a most enjoyable programme is outlined, and the pleasure will be the greater by the knowledge that the undertaking is in the interest of education.

Heavy Lightning.

Last night a heavy thunder and lightning storm, accompanied by very heavy rain showers, was experienced in the city. The thunder was very heavy and the lightning was most vivid. Along the West Coast the storm was severely felt while it lasted and in consequence the Reid Company's telegraph lines were thrown out of kilter.

Sensation in Montreal Police Circles.

Montreal, Aug. 14.—Application is being made to the Provincial authorities for a complete investigation of the Police Department of Montreal and its methods. Further, it is announced that it is more than likely an investigation of the John H. Roberts charges against Chief of Police Campeau, which the Board of Control has decided shall be a judicial affair, and the charges which will result from the twelve affidavits, will be heard together if possible. This will result in an immediate investigation of the department, and will be used as a lever toward getting the Provincial Government to probe the whole system. Intense excitement reigns at police headquarters this afternoon owing to the reported disclosure of a system of alleged graft in connection with disorderly houses in Montreal. Twelve affidavits connecting twelve members of the force have already been made out accusing those mentioned of levying toll on disorderly houses in return for police protection. These men are also charged with making a regular practice of going into disorderly houses and ordering free drinks. Chief Campeau stated that the charges were not at all beyond his credence. "There are some 800 men on the force, and it is not improbable that among them there are some dishonest persons. For my part," he continued, "I would have the thing cleared up as soon as possible."

Sings as She Is Dying.

girl Takes Strychnine and is Removed from Crowded Trolley Car.
Yonkers, N.Y., August 9.—A refined appearing, stylishly dressed girl, about twenty years old, lies at the point of death in St. Joseph's Hospital here to-night as the result of swallowing strychnine on a South Broadway trolley car in this city, about six o'clock this evening. In a brief conscious interval she said she was Miss Elsie Wilmer, of No. 119, West 118th Street, Manhattan, and admitted that she had swallowed poison. She said she wanted to die because of the turn a love affair had taken. While she lies delirious in the ward she sings snatches of love songs in a sweet soprano voice. The girl was a passenger on a car bound from the Van Cortlandt Park subway station to Yonkers. The car was crowded. Near Cortlandt Park in the same seat with the girl, noticed that she looked ill. As they started to question her she swooned. George Bruce, a trolley inspector, had the car stopped when it reached the hospital, at Starb street, and the girl was

Twice Proven Cure for Nerves

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health.
There is a message in this letter for thousands of women who are suffering from broken-down nervous systems. Sleepless nights, much irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms. You may not realize the nature of your ailment until nervous prostration comes upon you. But, in whatever stage you find yourself, Dr. Chase's Nerve Food is ready to help you. Mrs. W. J. May, 83 Annette street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I began to use the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well." Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers.

carried into the institution by passengers. She answered a few questions, but was delirious when Coroner James P. Dunn arrived to take an ante-mortem statement. He sent a message to the New York address the girl had given. Dr. Larkin said that the girl probably had taken the poison in tablet form. No one on the car saw her swallow the tablet. She had none in any form in her effects. Dr. Larkin said she might have taken it an hour before she succumbed to its effects. He stated that it was evident she had taken enough to cause death, and that the dose undoubtedly will prove fatal. The girl is a prepossessing brunette. Her clothing is of good quality and modest. Only some change and keys were found in her handbag. She wore no jewellery. As the time passed to-night the girl continued to sing love lyrics, but her condition failed to respond to treatment. At the Manhattan address given by the girl she is not known.
"BELL AND BON.—The steamers Bellaventure and Bonaventure, engaged at survey work in Hudson Bay will return to St. John's the last of the present month.
