Messages Received During the Night.

MOVES TO BORDEAUX.

Special to Evening Telegram.

PARIS, Sept. 3. The Government will issue a proclamation to-morrow, transferring the Banks of France from Paris to Bordeaux.

GREAT AUSTRIAN LOSSES.

ROME, Sept. 3. The Russian Embassy has been notified that the Austrians were overwhelmingly defeated near Lemberg, losing more than one hundred thousand men and 50 cannon. The occupation of the city of Lemberg is said to be imminent.

TO ASSIST SERBIA.

LONDON, Sept. 3. A despatch from Copenhagen says a message received at Berlin reports the receipt of advices from the Austrian headquarters stating that Russia is transporting ammunition by way of the Danube to Serbia and that extensive measures are being taken to despatch Russian troops to Serbia.

GERMAN LINE BROKEN.

PARIS, Sept. 3. An official despatch from Antwerp states that in the Provinces of Antwerp and Limburg, the Germans have set fire to several farm buildings and that Merchten has been attacked. The Russian Embassy at Paris confirms the report of the destruction of Lamsberg, Cesselt and Blachofstein by Russian Cavalry and that they have broken the lines of the enemy between Heilsberg and Königsburg.

A SEPARATION ALLOWANCE.

OTTAWA, Sept. 3. The Government has approved of a Separation Allowance of twenty dollars a month being paid to the wives and families of married men serving with the Canadian Expeditionary Force. This will be paid directly to the wives and families by the Paymaster General's Office in the Department of Militia and Defence to Ottawa. This allowance will be paid to the wives and families of those left at Valcartier after the contingent sails. The Government reserves the right of withholding this allowance from any who are in receipt of pay from two sources. This special al-

lowance of twenty dollars per month to married men is in addition to the pay of one dollar and ten cents per day which they receive as privates.

ANOTHER GERMAN AEROPLANE DESTROYED.

LONDON, Sept. 3. A despatch from Paris declares that one of the German aeroplanes which recently dropped bombs on the city of Paris, has been brought down and the two German aviators on board killed.

MINES SWEEPED UP BY JAPANESE.

LONDON, Sept. 3. A despatch from Tokyo says the Japanese have swept up more than one thousand mines which had been scattered by Germans in the waters adjoining their Chinese stronghold.

UNION JACK FLIES OVER SAMOA.

LONDON, Sept. 3. The Governor of New Zealand has received a message stating that the German Governor of Samoa has surrendered and that he has been sent with other German prisoners to the Fiji Islands. The landing of troops in Samoa was carried out with great expedition. The Union Jack was hoisted over German Samoa on the afternoon of August 29th.

WAITING FOR MONTENEGRINS.

ROME, Sept. 3. A telegram from San Giovanni de Media, Albania, twenty miles south of Scutari, says the bombardment of the Austrian seaport of Cattaro has not begun because the Anglo-French squadron is awaiting for the Montenegrins to transport their siege artillery to Mount Lovchen. This move is intended to put Cattaro between two fires. The garrison at Cattaro has tried several sorties against Antivari, but all were frustrated by the Montenegrins. The Austrians, the despatches state, lost many men and two cannons in these sorties.

WIT AND SCIENCE WIN.

LONDON, Sept. 3. A Daily News correspondent writing from Journal, a town near Rouen, says the German advance is amazing. A great battle is raging, with what result I know not, but I do know that the French and British armies are intact and still confident of ultimate success. Incredible as it seems, the tremendous mass of men that the Germans have hurled at the allies have not overwhelmed them. It seems that while the Germans have weight, the allies have wit and science, and those with reinforcements will eventually win.

GERMAN TROOPS BECOMING WORK OUT.

LONDON, Sept. 3. The Chronicle's correspondent at the front writing from an unnamed town in the Department of Somme on Tuesday says: "The superiority of the British artillery coupled with the pluck of British Infantry is rapidly telling on the German attackers. A few more days such as Sunday and Monday and the German army invading Northern France will have destroyed itself completely. No army that ever existed could endure and survive the terrible losses sustained by the Germans in the last few days. Whole divisions of Infantry have been blotted out and shattered and the German ranks are beginning to show demoralization. In the latest assault the Germans manifested immediate signs of unsteadiness and were seen to waver and frequently break and flee in confusion. As a result of this prolonged battle the German line has advanced a few miles but has not gained any marked or decided advantage."

ANOTHER BALACLAVA.

LONDON, Sept. 3. The Daily Mail correspondent behind the British lines describes the charge of the Ninth Lancers, which occurred at an unnamed spot during the recent series of tactical retreats, as a second Balclava. He says: "Terrible havoc had been caused in our ranks by shells from a battery of

11 German guns posted inside a forest near the Belgian frontier. It seemed impossible to silence their fire until the Ninth Lancers made their attempt, riding straight at the guns after debouching into the open and charging under a hail of Melinite and Lyddite. I have not been able to get reliable figures as to the distance they rode, but they reached their goal; nothing could stop them. They reached the guns, killed the gunners and put the guns out of action, then like their prototypes of Balclava they rode back. On return they fell in greater numbers still from the attack of other German batteries posted at vantage points around the battery. Some notable bayonet charges were made on Wednesday last. Several British Infantry regiments occupied an exposed position around which the Germans gradually circled drawing the noose closer and closer. The British decided to cut their way through the cordon, so the men went at it yelling and shouting and got through, although the German artillery mowed them down frightfully."

AMIENS AND LA FERRE CAPTURED BY GERMANS.

LONDON, this a.m. A despatch from Amiens to the Daily Mail, dated Tuesday, 1st inst., declares that the Germans have taken Amiens after three days' fighting. An undated despatch to the Times says the valley of Somme has been abandoned, and La Ferre has been captured after a bloody combat. We were obliged to retire on Saturday evening. The right wing of the Germans, says the correspondent, is too far advanced. There is a chance that it will be cut and caught between two fires. Our centre is resisting very well and the right wing army appears to be taking the offensive. A despatch to the Daily Mail from Amiens, adds: "The success of the Germans at Moreuil and the capture of Amiens is certain. The entry was not contested. The Mayor, after receiving the German envoy announced the surrender of the city and urged the citizens to make no disturbance. Amiens is the capital of the Department of Somme, seventy miles directly North of Paris, a manufacturing city with a population of 90,000. It is on the line of railroad to Boulogne about 50 miles West of La Ferre and other points in the Department of Aisne, where there has been fighting during the past few days between the allied armies and the Germans."

A Summer Tale.

"You look irritated this evening." "I am—on warm days like this I always suffer from heat rash." "I am liable to heat rash, too, but it never irritates me; it never has since I began to use Zylax, which at once allays the irritation, physical and mental. And I find Zylax Soap with the Ointment so far to prevent heat rash altogether." Zylax sells at 50 cents a box; Zylax Soap at 25 cents a cake, at your Druggists. Zylax—London.—Jyls.eod.t

Misgotten Gains.

The pictures to be presented at the Nickel Theatre to-day are splendid ones, and will afford the greatest pleasure to all who attend. Great

taste has been shown in the selection of them. There is a two-reel picture by the well known Kleine-Cines actors who have a large number of first class plays to their credit. It is entitled "Misgotten Gains" and tells of a man in two characters, that of a society lion and a thug. He poses as a nobleman to win the daughter of a wealthy old gentleman. She is in love with a naval officer who returns from a cruise and after exciting adventures with the crooks saves his sweetheart on the night of her wedding. It is a delightful film and no one should miss it. "The Tiger" is also a thrilling drama, such as St. John's audiences prefer. The dainty actress Alice Joyce is seen in the "Pawnbroker's Daughter." "Mixed Nuts" is a very funny comic. There will also be a Pathe Weekly. Mr. De Witt C. Cairns sang the popular ballad "Daddy" last night and was heartily applauded. The children's matinee to-morrow will have extra films. Send the little ones they will enjoy themselves and be out of harm's way.

Lincoln Beachey.

Red McGhee says: In circus side-shows long ago they used to have two stunts to show that always got my goat. One guy ate fire. 'Twas some more trick. The other guy'd get up an stick a sword right down his throat. For daring freaks I thought those guys copped out the medal, belt and

prize. But they're just pikers now. Their rating doesn't go so high since I've seen Lincoln Beachey fly. My hat's off an' I bow.

When birdmen first began to fly Link Beachey gave the game a try an' soon became a star. As soon's he'd hear of something new he wouldn't rest until he'd do that something with his car. Most every guy that flew the game when Link was spiraling to fame is underneath the grass. But dapper little Link don't die. Why, he an' Death play 'round the sky like school kids after class.

He loops the loop, flies up-side-down, turns spirals, glides—he's like a clown when he gets in the air. I've seen him in his Curtiss plane race

Barney Oldfield time n' again. B'lieve me, they'll raise your hair. He does it all as business-like as you an' I would ride a bike an' never says a word. On any air stunt Link's my bet. What's that?—He hasn't backed up yet? Well, neither has the bird.

More Fires.

Fires provoke immediate sympathy for the sufferer and also thankfulness for personal escape. Another thought should be whether one is personally and sufficiently protected? An insurance policy with Percis Johnson would provide for you this desired security and at small expense. Have you enough insurance?

All My Corns Are Gone

Every day, legions of people get rid of their corns with Blue-jay. This easy method now removes a million corns a month.

You who suffer with corns do yourselves an injustice. Blue-jay will instantly stop the pain. And in 48 hours, without any soreness, the corn comes out completely.

About half the people know this now. When a corn appears they put Blue-jay on it. Then they forget it. In a couple of days they lift out the corn and bid it good-bye forever.

You can't do that by paring corns. And you can't with old-time treatments. You may get relief for a little while, but the corns simply stay and grow.

Try this modern, scientific way—the way now employed by physicians and hospitals. Get rid of the corn. It is just as easy, just as painless as the ineffective ways.
