## School Girls' Nerves

When an undue amount  
of nervous energy is con-  
sumed in the brain there is  
bound to be failure of the  
other functions of the body.  
Digestion is impaired—  
the head aches—you cannot  
sleep—you are easily ex-  
cited and irritated—feel-  
ing tired and lack energy.  
Dr. Chase's Nerve Food  
is a creator of rich, red  
blood and a builder up of  
the exhausted, nervous  
system.

liked by the men themselves, he said.  
Nor do either the British or French  
understand why big strong men like  
the Americans should be tagged with  
such a nickname. The British sol-  
diers call their American comrades,  
Yanks.

### DECREASE IN SINKINGS.

PARIS, Aug. 14.  
(Havas Agency.)—The Allied and  
neutral shipping sunk by submarines  
during July amounted to 270,000 tons,  
compared with 534,839 tons sunk in  
July, 1917. This radical decrease in  
losses is doubly significant when the  
increase in merchant marine naviga-  
tion resulting from the American ship-  
building effort is considered. The En-  
tente nations constructed during July  
a tonnage in excess of 280,000 to that  
destroyed during the month by enemy  
operations. The Entente tonnage sunk  
in 1917 was fifty per cent. less than  
that lost in 1918.

### POLES FIGHTING.

WASHINGTON, Aug. 14.  
Valiant fighting at the French front  
by Poles recruited in America is de-  
scribed in a cablegram received here  
to-day from General Archibald, com-  
manding the Polish Army units of the  
First Chasseur Regiment. They made  
an attack on July 25th, which won a  
citation on orders of the day and in  
which a single company annihilated a  
German battalion. All the objectives  
were reached, says General Archi-  
bald's message.

### PROGRESSING STEADILY.

PARIS, Aug. 14.  
General Humbert's army operating  
on the southern end of the Picardy  
battle line is reported to-day to be  
progressing steadily toward Noyon.  
The desperate German defence of the  
day, according to an official statement  
issued to-night on aviation operations,  
Sis British machines are missing as a  
result of aerial encounters. British  
and American air squadrons co-  
operated in an attack on an enemy  
airstrip, and destroyed six machines  
parked near the hangars. Fifty-eight  
tons of bombs were dropped during  
the last 24 hours on various objec-  
tives, 21 tons by day and 37 tons by  
night.

### AVIATION OPERATIONS.

LONDON, Aug. 14.  
Twenty-one German airplanes were  
brought down out of control yester-  
day, according to an official statement  
issued to-night on aviation operations.  
Six British machines are missing as a  
result of aerial encounters. British  
and American air squadrons co-  
operated in an attack on an enemy  
airstrip, and destroyed six machines  
parked near the hangars. Fifty-eight  
tons of bombs were dropped during  
the last 24 hours on various objec-  
tives, 21 tons by day and 37 tons by  
night.

### LLOYD GEORGE'S CONGRATULA- TIONS.

LONDON, Aug. 14.  
Premier David Lloyd George has in  
the name of the British nation sent  
his congratulations to Field Marshal Haig  
the British commander in the fighting  
in Picardy. The Premier's message  
reads: "The Imperial War Cabinet  
wishes to convey to you and officers  
and non-commissioned officers and

### RIBECOURT TAKEN.

PARIS, Aug. 14.  
The town of Ribecourt on the road  
leading to Noyon and its air and rail  
stations, south-west of that town, has  
been captured by the French, accord-  
ing to the official statement issued to-  
night.

### THE AUSTRALIANS SHOWING THEMSELVES.

WITH THE BRITISH ARMIES IN  
FRANCE, Aug. 14. (By the A.P.)—  
All hostile positions between the west-  
ern outskirts of Bray and Etinehem  
have fallen into the hands of the Aus-  
tralians, thus placing the river banks  
southwest of Bray under the control  
of the British. The Australians also  
have cleared the enemy from Cateaux  
wood.

### THRUST FOURTEEN MILES DEEP.

WASHINGTON, Aug. 14.  
Official reports to the American  
Government show that the Allied  
thrusts in Picardy attained a maxi-  
mum penetration of fourteen miles up  
to yesterday. General March, United  
States chief of staff, disclosed this to-  
day in his semi-weekly conference  
with newspaper correspondents ad-  
ding that as no point in the enemy  
now within fifty miles of Paris. The  
chief of staff took occasion to urge  
newspaper men to discourage the use  
of the nickname Sammy in speaking  
of American troops. The term is dis-

men of your command, its warmest  
congratulations on the triumphs  
achieved by the Allied armies in the  
third battle of the Somme. The Brit-  
ish Empire sends heartfelt thanks to  
you and your most gallant troops."

### AMERICAN AIRMEN IN ACTION.

WASHINGTON, Aug. 14.  
American aviators have conducted  
successful raids on the railroad yards  
at Comfians, Longuyon and Demmary  
Baroncourt, General Pershing report-  
ed in his communication for yesterday  
which was made public to-night by the  
war department.

### MACHINE GUNS PROMINENT.

WITH THE FRENCH ARMIES IN  
FRANCE, Aug. 14. (By the A.P.)—  
The battle for the Chateau area, which  
is going on, is only a small part of  
the operation in progress, and devel-  
opments in other parts of the line may  
modify the situation before the battle  
is re-opened here. The Germans have  
had one advantage here as elsewhere,  
in that they have been falling back  
on the supplies while the French have  
been obliged to bring up theirs over a  
difficult country. So far, General  
Humbert's troops have had four days  
of continual fighting, fully half of  
which has been spent in gas-infested  
sectors. During all this fighting, it  
was the machine-gun against the  
rifle, the Germans having compara-  
tively few infantrymen in the front  
line, but being plentifully supplied  
with machine guns, virtually one for  
each man and all ambushed. When  
the nests of quick-brewers were dis-  
covered and a move against them be-  
gan, this move had to be in the nature  
of an outflanking process, which was  
trying work in this rough region. Be-  
sides holding the important crests of  
St. Claude farm and Ecouvillon, the  
French have added to their captures  
Monolithe, another high plateau,  
which commands a considerable ex-  
tent of ground to the north and east.  
From Ecouvillon the French have a  
good view of the Divette valley, where  
the Germans appear to be trying to  
establish a position with the aid of  
their old earthworks which were  
constructed in 1876.

### BRITISH OFFICIAL.

LONDON, Aug. 14.  
Marshal Haig's communication is-  
sued to-night says: Local fighting  
has taken place to-day on the battle-  
front in the neighborhood of Parri-  
lers. Our troops have made progress  
and have taken several prisoners. Fol-  
lowing upon his recent withdrawals  
in the Hebuterne sector the enemy  
has evacuated his forward positions  
at Beaumont Hamel, Serre, Puisieux  
au Mont, and Bucquoy. Our patrols  
are pushing forward in touch with the  
enemy, and have gained ground about  
these villages. A few prisoners have  
been taken by us.

### FURTHER BRITISH ADVANCE.

LONDON, Aug. 14.  
British troops have gained further  
ground at the apex of the Lys salient  
in Flanders, says the official statement  
from Field Marshal Haig to-day. East  
of Meteren the line was advanced  
slightly while east of Vieux Berguin  
south of Meteren patrols established  
a new line.

### GERMAN SUBS APPROACH NEW YORK HARBOR.

NEW YORK, Aug. 14.  
The Associated Press this morning  
carries the following: German sub-  
marines approaching the very gates of  
New York Harbor sank the oil tanker  
Frederick B. Kellogg off the Ambrose  
Channel last night. Thirty-five mem-  
bers of the crew brought here to-day  
reported that seven others are miss-  
ing. These survivors were picked up  
by an American steamer. The Fred-  
erick B. Kellogg was bound from San  
Pedro, Mexico, for Boston.

### COULDN'T SPARE THEM.

GENEVA, Aug. 14.  
Twenty divisions of troops were de-  
manded of Germany's allies by Gen-  
eral Ludendorff during the retreat from  
the Marne, according to the Democra-  
t, which received the news from German  
sources. Austria-Hungary refused,  
but after General Ludendorff had  
made a threat, Vienna sent two divi-  
sions to the western front. For this  
reason the Austro-Swiss frontier was  
closed recently.

### We Told You So.

Yesterday at 1 o'clock the horse of  
Mr. Helwell, which had been standing  
on Pilot's Hill, suddenly took flight,  
and dashed down the hill, across  
Duckworth Street and right over the  
wall adjoining the Custom House  
Building. This wall is surmounted by  
a rickety, unsightly old fence, and af-  
forded no protection at all. Fortunately  
the horse, after his ten-foot dive, was  
not hurt, and beyond the lamps being  
broken, the carriage attached was un-  
damaged. Several times we have ad-  
vocated having a new, strong fence  
put along this place, but this acci-  
dent had to come before a move is  
made. Let us hope that the needful  
will soon be given, and thereby avoid  
further and perhaps more serious ac-  
cidents.

### Gift the Inscription.

We desire to draw the attention of  
the proper authorities to the large  
granite monument, in the Govern-  
ment House grounds, just off the Mall,  
and facing Military Road. This monu-  
ment is enclosed within an iron rail  
fence. At one time there was car-  
ving on the stone explaining that it had  
been erected in honor of a brave man  
who gave his life in endeavoring to  
save the lives of two others from  
drowning in Deadman's Pond, Signal  
Hill. However, now the inscription is  
completely erased, and cannot be read.  
We would advise a recarving and then  
a gliding over so that the many tour-  
ists and others who pass there may  
understand for what purpose the  
monument has been erected, namely, to  
honor the memory of a hero who died  
in a heroic death.

### Potato Prices.

Potatoes are selling at the rate of  
\$18 a barrel. To prove those figures  
exorbitant, we have only to give the  
following: Seed cost \$5 a barrel, cal-  
culating the cost of preparing the  
ground and planting the barrel of  
seed, and paying other expenses we  
might estimate at \$10. Then add ar-  
other \$5 for further expenses, of weed-  
ing, etc., and it amounts to \$15. Then  
add \$5 for digging, and transferring to  
the buyer, and the total cost would  
be \$20 a barrel. Now, from a barrel of  
seed, if the potatoes grow any way  
fairly at all, 10 barrels would not be  
an over estimate. Twenty would be  
nearer the mark. Ten barrels of pota-  
toes, at \$18, is \$180, and ten expenses,  
the gain on the barrel of potatoes at  
present rates would be \$160, or \$20  
per cent profit. What is the Food  
Control Board doing?

### Motor Accident.

Yesterday afternoon an automobile  
backed against the sidewalk into the  
store of Mr. Connors, druggist. For-  
tunately the big plate glass was not  
broken, the only damage occurring be-  
ing the breaking of a small window  
under the plate glass one.
